Chilton's Motorcycle Repair Manual

In 1982, at the age of just twenty-three and halfway through her architecture studies, Elspeth Beard left her family and friends in London and set off on a 35,000-mile solo adventure around the world on her 1974 BMW R60/6. Reeling from a recent breakup and with only limited savings from her pub job, a tent, a few clothes and some tools, all packed on the back of her bike, she was determined to prove herself. She had ridden bikes since her teens and was well travelled. But nothing could prepare her for what lay ahead. When she returned to London nearly two and a half years later she was stones lighter and decades

wiser. She'd ridden through unforgiving landscapes and countries ravaged by war, witnessed civil uprisings that forced her to fake documents, and fended off sexual attacks, biker gangs and corrupt police convinced she was trafficking drugs. She'd survived life-threatening illnesses, personal loss and brutal accidents that had left permanent scars and a black hole in her memory. And she'd fallen in love with two very different men. In an age before email, the internet, mobile phones, satnavs and, in some parts of the world, readily available and reliable maps, Elspeth achieved something that would still seem remarkable today. Told with honesty and wit, this is the extraordinary and moving story of a unique and life-changing adventure.

The Motorcycle Encyclopaedia is a complete and comprehensive reference work. The book is designed in two major sections. The first is a photo-gallery of over 400 classic motorbikes, alphabetically arranged by manufacturers, with all their significant models covered in detail. The second section lists every maker from the inception of motorcycling to the present day, and includes rare photographs and design blueprints. Each manufacturer is profiled, from ABC to Sundapp through giants of the industry like Honda and extinct but fondly remembered producers like Vincent and Velocette.

What makes a man sell all he owns and ride a motorcycle 22,000 miles from his hometown in upstate New York to the southernmost tip of South America? Some call it craziness; Latinos call it "cojones." This funny, fast-paced narrative follows a young man in his search for meaning, adventure, and the best rum in Latin America. Battling rough roads, careening buses, and bribe-taking cops in 14 countries, he discovers breathtaking beauty as well as what it feels like to hit a truck head-on. Moto-journalist Clement Salvadori has been riding motorcycles since the age of 15 and traveling all of his life, accumulating well over a million miles in the saddle across more than 70 countries on six continents. No Thru Road covers 30 different trips he has taken, to places like Afghanistan and Zimbabwe, since his first ride through western Europe in 1957. The book will appeal to adventure-travel enthusiasts and to motorcyclists and travelers of all persuasions. Adventurous riders will thoroughly appreciate the book, as in the description of kick-

starting a 500cc single - never easy to do - at 17,200 feet in the Tibetan Himalayas. Or going up to Cape Tribulation in Australia's Queensland in 1974 when the only access was via a once-a-week ferry across the Daintree River. Or riding a bike to Pamplona, Spain, in 1960 in order to run with the bulls. Activists who want to get on their motorcycles and ride down into Mexico's Copper Canyon will enjoy the book, as will the arm-chair traveler who is happy reading about traveling from Peru's Great Ica Desert over the Andes Mountains to the Amazon basin. Clement's adventures are arranged so the reader can open the book to any chapter, be it India, Nepal, the Sahara, New Zealand or Viet Nam, and not have to worry about following a thread. Lots of adventures, lots of good reading, lots of photos and illustrations. This book promises excellent entertainment and a glimpse into life as a moto-journalist.

The BMW Boxer Twins Bible

Jonny Bealby was devastated when his fiancée Melanie died unexpectedly while they were travelling in Kashmir. Two years later, still heartbroken and utterly disillusioned, he took on the challenge of a lifetime. Setting out with only his motorbike for company, he began a daring and dangerous journey around the African continent in a desperate attempt to unearth some meaning in his life. Bittersweet, bold and beautifully told, *Running with the Moon* is a tale of true love and loss, of exploration, adventure and courage.

One Man Caravan

Ever since Max Friz first mounted his innovative M2B32 opposed-twin engine in a motorcycle frame in 1923, the history of BMW motorcycles has been defined by a constant and relentless quest for perfection. In the 95 years that have followed, the company has created the most innovative and technologically advanced motorcycles produced anywhere on earth. BMW has earned a reputation for not doing things the way everyone else does, but its motorcycles aren't different simply for the sake of being different. Each distinctive feature represents a brilliant and elegant solution to a real problem, leading BMW to be the first company to introduce many of the features that were later adopted by other manufacturers. But there's more to a BMW motorcycle than innovation and technology—there's also art. And as beautiful as the bikes are in their totality, they may be even more so when broken down into their individual details. This book captures the elegance of these amazing machines, both in their details and in the sum of their parts, through the masterful photography of Henry von Wartenberg and writing of author Peter Gantriis. *The Art of BMW: Ninety Years of Motorcycling Excellence* features the Peter Nettesheim collection, one of the world's premier collections of BMW motorcycles. These wonderfully restored pieces exemplify the design and engineering prowess that have defined the BMW motorcycle tradition for almost a century.
