Astrology is finally getting personal! From the best-selling author of *The Secret Language of Birthdays* comes a revolution in charting your horoscope based on both the date and time of your birth that makes all other horoscope books irrelevant. With his "Personology" system, Gary Goldschneider has created a unique method which divides each of the twelve signs into five sub-types-such as Aquarius-Pisces Cusp, Pisces I, Pisces II, Pisces III, and Pisces-Aries Cusp-thereby sub-dividing the astrological year into 48 personology periods. The precision this allows is far beyond anything available in any other astrology book and provides a ground-breaking new way for readers to look not only at their own lives, but their interactions with those around them. The book comes packed with easy-to-follow charts covering the sun, eight different planets, and, unique to this book, the rapid fluctuations of the moon for every year from 1900 through 2025. The result is an unprecedented level of precision, as well as a beautifully illustrated volume destined to become the one and only book horoscope readers will treasure for the next twenty years.

Who are we, and where do we come from? The fundamental drive to answer these questions is at the heart of Finding Your Roots, the companion book to the hit PBS documentary series. As scholar Henry Louis Gates Jr. clearly demonstrates, the tools of cutting-edge genomics and deep genealogical research now allow us to learn more about our roots and look further back in time than ever before. In the second season, Gates’s investigation takes on the personal and genealogical histories of more than twenty luminaries, including Ken Burns, Stephen King, Derek

Jeter, Governor Deval Patrick, Valerie Jarrett, and Sally Field. As Gates interlaces these moving stories of immigration, assimilation, strife, and success, he provides practical information for amateur genealogists just beginning archival research on their own families' roots and details the advances in genetic research now available to the public. The result is an illuminating exploration of who we are, how we lost track of our roots, and how we can find them again.
