Though he was born and died in England, Harold Bindloss spent much of his youth traveling the world, and he was particularly enamored of the forests of Canada, where he would later set many of his Western novels. In Alton of Somasco, small-time logger Harry Alton has big plans for his land -- and the ambitions and smarts to make his dream a reality. But when a conniving British businessman shows up with some startling news, Alton's livelihood is suddenly at risk.

Pocket Essentials of Obstetrics and Gynaecology

A new, fully updated edition of Baliga's very popular collection of short cases arranged by clinical area, emphasising the key diagnostic features of clinical conditions as commonly presented in the short-case part of the Final MB and MRCP examinations. Also included are likely instructions or commands expected from the examiner for each condition, and the key points which the candidate must tell the examiner. A must-have for the final-year undergraduate and trainee doctor. From customer reviews of the previous edition: 'This book is the most useful guide that money can buy for the final exams in the current MBChB undergraduate course. It covers important areas of clinical medicine in a question based format and highlights classical scenarios. The questions raised are classical of examiners in the long and short case examinations. This is a must buy for any undergraduate medical student!!!' 'The book is a must during the period that the young doctor or student is on the wards. It allows one to focus on the important physical findings and the relevant clinical pearls associated with the different medical conditions

met It discusses important physical findings and their diagnostic importance. I have found it useful in preparing for attending ward rounds and also for sharpening my clinical skills. The discussion section is well organised such that undergraduates as well as postgraduates can benefit and the material is up to date with good references for further reading.' 'Excellent preparation for finals as well the MRCP MUST HAVE before MRCP PACES.' Features Ideal for use in the ward. Each of the 250 cases presents a disease or topic which is covered consistently to address: ● salient features ● history ● examination ● diagnosis ● questions covering investigations and differentiations ● advanced-level questions ● management. New to this edition: Over 350 new images Enhanced advanced-level questions Many more tables

The aim of this book is to help students write mathematics better. Throughout it are large exercise sets well-integrated with the text and varying appropriately from easy to hard. Basic issues are treated, and attention is given to small issues like not placing a mathematical symbol directly after a punctuation mark. And it provides many examples of what students should think and what they should write and how these two are often not the same.

What do you get when you cross a Mac with an iPad? OS X 10.9 Mavericks. Its 200 new features include Mac versions of iPad goodies like Maps, iBooks, and iTunes Radio—but not a single page of instructions. Fortunately, David Pogue is back, with the expertise and humor that have made this the #1 bestselling Mac book for over 11 years straight. The important stuff you need to know: Big-ticket changes. Finder tabs. Finder tags. App Nap. iCloud Keychain. iTunes Radio. Maps. iBooks. Automatic app updating. If Apple wrote it, this book covers it. Nips and tucks. This book demystifies the hundreds of smaller enhancements, too, in all 50 programs that come with the Mac: Safari, Mail, Calendar, Notification Center, Messages, Time Machine... Shortcuts. Meet the tippiest, trickiest Mac book ever written. Undocumented surprises await on every page. Power users. Security, networking, build-your-own Services, file sharing with Windows, even Mac OS X's Unix chassis—this one witty, expert guide makes it all crystal clear. There's something

new on practically every page of this edition, and David Pogue brings his celebrated wit and expertise to every one of them.

How to Write about Music

During forty years of caring for districts of churches and isolated believers, besides raising up new churches by evangelistic effort, the author of this work became greatly impressed with the need of educating the people in the fundamental doctrines of the Holy Scriptures. He has found very few who could give from the word of God an intelligent reason for even its most prominent and important truths. This spiritual poverty any minister will discover by personal investigation. When we add to this condition the fact that during the past thirty years new errors have been stealthily introduced among Christians generally--errors which undermine the very foundations of Bible truth and Christianity--it becomes evident that even professing Christians are unprepared for the crises they will be obliged to meet in the near future.

Murder in My Backyard is the second mystery novel in the Inspector Ramsay series by Ann Cleeves, author of the Shetland and Vera Stanhope crime series. No one in Heppleburn has a bad word to say about Alice Parry . . . but here she is, murdered in her own backyard on a bitter St. David's Eve. When detective Stephen Ramsay starts asking questions in the village, a more ambiguous picture begins to emerge. Yes, old Mrs. Parry was loved by everyone, but sometimes her kindness had caused trouble. Yes, her two nephews were devoted to her, but they didn't really want her interfering in their rather complicated personal lives. Even among her neighbours, Alice Parry's helpfulness had sometimes misfired; and after her death, tension tight as a clenched fist grips the uneasy village. Meanwhile, the suspects keep rolling in, and Heppleburn's friendly neighbourhood killer continues his nasty piece of work . . .
