The Phantom of the Opera

Tom Perrotta's thirty-ish parents of young children are a varied and surprising bunch. There's Todd, the handsome stay-at-home dad dubbed "The Prom King" by the moms of the playground; Sarah, a lapsed feminist with a bisexual past, who

seems to have stumbled into a traditional marriage; Richard, Sarah's husband, who has found himself more and more involved with a fantasy life on the internet than with the flesh and blood in his own house; and Mary Ann, who thinks she has it all figured out, down to scheduling a weekly roll in the hay with her husband, every Tuesday at 9pm. They all raise their kids in the kind of sleepy American suburb where nothing ever seems to happen—at least until one eventful summer, when a convicted child molester moves back to town, and two restless parents begin an affair that goes further than either of them could have imagined. Unexpectedly suspenseful, but written with all the fluency and dark humor of Perrotta's previous novels, *Little Children* exposes the adult dramas unfolding amidst the swingsets and slides of an ordinary American playground.

in 2005, he realized that living life meant more than simply meeting society's traditional milestones, such as buying a car, paying a mortgage, and moving up the career ladder. Inspired by them, he set off for a year-long trip around the world before he started his career. He finally came home after ten years. Over 500,000 miles, 1,000 hostels, and 90 different countries later, Matt has compiled his favorite stories, experiences, and insights into this travel manifesto. Filled with the color and perspective that only hindsight and self-reflection can offer, these stories get to the real questions at the heart of wanderlust. Travel questions that transcend the basic "how-to," and plumb the depths of what drives us to travel — and what extended travel around the world can teach us about life, ourselves, and our place in the world. Ten Years a Nomad is for travel junkies, the travel-curious, and anyone interested in what you can learn about the world when you don't have a cable bill for a decade or spend a month not wearing shoes living on the beach in Thailand.

Captured by Fire

Finding Mars is an interwoven tale of science, travel, and adventure, as science writer Ned Rozell accompanies permafrost researcher—and inveterate wanderer—Kenji Yoshikawa on a 750-mile trek by snowmobile through the Alaska wilderness. Along the way, Rozell learns about Yoshikawa’s fascinating life, from his boyhood in Tokyo to the youthful wanderlust that led him to push a wheeled cart across the Sahara, ski to the South Pole, and take a sailboat into the frozen reaches of the Arctic Ocean, spending a winter frozen in the ice near Barrow. It’s an always on-the-move account of a man driven not just by the desire to fill in the blank spots on a map, but also to learn everything he can about them—and a ringing testament to the power of science, enthusiasm, and individual inspiration.

Big Little Man

The characters of Moccasin Square Gardens inhabit Denendeh, the land of the people north of the sixtieth parallel. These stories are filled with in-laws, outlaws and common-laws. Get ready for illegal wrestling moves (“The Camel Clutch”), pinky promises, a doctored casino, extraterrestrials or “Sky People,” love, lust and prayers for peace. While this is Van Camp’s most hilarious short story collection, it’s also haunted by the lurking presence of the Wheetago, human-devouring monsters of legend that have returned due to global warming and the greed of

humanity. The stories in Moccasin Square Gardens show that medicine power always comes with a price. To counteract this darkness, Van Camp weaves a funny and loving portrayal of the Tłı̨chǫ Dene and other communities of the North, drawing from oral history techniques to perfectly capture the character and texture of everyday small-town life. “Moccasin Square Gardens” is the nickname of a dance hall in the town of Fort Smith that serves as a meeting place for a small but diverse community. In the same way, the collection functions as a meeting place for an assortment of characters, from shamans and time-travelling goddess warriors to pop-culture-obsessed pencil pushers, to con artists, archivists and men who just need to grow up, all seeking some form of connection.

The chronicle of a family’s first year alone in Alaskan wilderness, Arctic Son is a poetic journey of discovery into what we value in life. In 1992 Jean Aspen and her husband, Tom, left Arizona and took their young son to live in Alaska's interior wilderness, building a cabin out of logs, hunting for food, and letting the vast, harsh beauty of the Arctic close in around them. While Jean had faced Alaska's wilderness before in a life-altering experience she described in Arctic Daughter. This journey would be different. Dogged by sickness and hardships, cut off from the rest of the world, her family faced not only a test of endurance, but of its own well-being and survival. From a daily struggle against the elements to an

encounter with a grizzly bear at arm's length, from moments of breathtaking beauty and self-realization to a harrowing, six-hundred-mile river passage back to civilization, Arctic Son chronicles fourteen remarkable months in the Alaskan wilderness. At once a portrait of courage and a heart-pounding adventure story, Arctic Son portrays a family's extraordinary journey into America's last frontier.

Trailer Life's RV Repair & Maintenance Manual

In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. His name was Christopher Johnson McCandless. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. Digging deeply, he takes an inherently compelling mystery and unravels the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and

is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page. From the Trade Paperback edition.

From the Yenisey's headwaters in the wild heart of central Asia to its mouth on the Arctic Ocean, Colin Angus and his fellow adventurers travel 5,500 kilometres of one of the world's most dangerous rivers through remotest Mongolia and Siberia, and live to tell about it. Exploration is Colin Angus' calling. It is not only the tug of excitement and challenge that keeps sending him on death-defying journeys down some of the world's most powerful waterways, it is a desire to know a place more intimately than you could from the window of a train, to feel the soul of a place. Angus emphasizes that rivers have always been key to the development of complex societies and the rise of civilizations, offering as they do irrigation, transportation, hydroelectric power, and food. But, as *Lost in Mongolia* captures with breathtaking detail, while they giveth plenty, the great rivers also taketh away in an instant. In *Lost in Mongolia*, Colin Angus takes readers through never-before-seen territory and his wonderful sense of adventure and humour come through on

every page. From the Trade Paperback edition.

The Call of the Wild

“Gray memorably resuscitates the life of the miners . . . A lively, delightful reenactment of a single era of ‘Klondike mythology.’” —Kirkus Reviews, starred review *Between 1896 and 1899, thousands of people lured by gold braved a grueling journey into the remote wilderness of North America. Within two years, Dawson City, in the Canadian Yukon, grew from a mining camp of four hundred to a raucous town of over thirty thousand people. The stampede to the Klondike was the last great gold rush in history. Drawing on letters, memoirs, newspaper articles, and stories, Charlotte Gray delivers an enthralling tale of the gold madness that swept through a continent and changed a landscape and its people forever. In Gold Diggers, she follows six stampeders—Bill Haskell, a farm boy who hungered for striking gold; Father Judge, a Jesuit priest who aimed to save souls and lives; Belinda Mulrooney, a twenty-four-year-old who became the richest businesswoman in town; Flora Shaw, a journalist who transformed the town's governance; Sam Steele, the officer who finally established order in the lawless town; and most famously Jack London, who left without gold, but with the stories that would make him a legend. “Gray has hit pay dirt with this hardscrabble history, a vibrant, detailed recreation of the frenzied boomtown of Dawson City.” —Publishers Weekly “A fascinating, rich account . . . Readers can only be grateful to such a skilled writer and historian as Charlotte Gray to let us go to, feel, smell and wonder at such an astonishing place as Dawson City during the ephemeral gold rush.” —The Globe and Mail* The inspiration for the TV miniseries, *Klondike*.

This best-selling memoir from Richard Proenneke's journals and with firsthand knowledge of his subject and the setting, Sam Keith has woven a tribute to a man who carved his masterpiece out of the beyond. To live in a pristine land unchanged by man . . . to roam a wilderness through which few other humans has passed . . . to choose an idyllic site, cut trees by hand, and build a log cabin. . . to be self-sufficient craftsman, making what is needed from materials available to be not at odds with the world, but content with one's own thoughts, dreams and company. Thousands have had such dreams, but Richard Proenneke lived them. This book is a moving account of the day-to-day explorations and activities Dick carried out alone.alone in the wilderness and the constant chain of nature's events that kept him company.

Busy Bee Activity

"Lands of Lost Borders carried me up into a state of openness and excitement I haven't felt for years. It's a modern classic." —Pico Iyer A brilliant, fierce writer makes her debut with this enthralling travelogue and memoir of her journey by bicycle along the Silk Road—an illuminating and thought-provoking fusion of *The Places in Between*, *Lab Girl*, and *Wild* that dares us to challenge the limits we place

on ourselves and the natural world. As a teenager, Kate Harris realized that the career she craved—to be an explorer, equal parts swashbuckler and metaphysician—had gone extinct. From what she could tell of the world from small-town Ontario, the likes of Marco Polo and Magellan had mapped the whole earth; there was nothing left to be discovered. Looking beyond this planet, she decided to become a scientist and go to Mars. In between studying at Oxford and MIT, Harris set off by bicycle down the fabled Silk Road with her childhood friend Mel. Pedaling mile upon mile in some of the remotest places on earth, she realized that an explorer, in any day and age, is the kind of person who refuses to live between the lines. Forget charting maps, naming peaks: what she yearned for was the feeling of soaring completely out of bounds. The farther she traveled, the closer she came to a world as wild as she felt within. *Lands of Lost Borders* is the chronicle of Harris's odyssey and an exploration of the importance of breaking the boundaries we set ourselves; an examination of the stories borders tell, and the restrictions they place on nature and humanity; and a meditation on the existential need to explore—the essential longing to discover what in the universe we are doing here. Like Rebecca Solnit and Pico Iyer, Kate Harris offers a travel account at once exuberant and reflective, wry and rapturous. *Lands of Lost Borders* explores the nature of limits and the wildness of the self that can never fully be mapped. Weaving adventure and philosophy with the history of science and exploration, *Lands of Lost Borders* celebrates our connection as humans to the natural world, and ultimately to each other—a belonging that transcends any fences or stories

that may divide us.

Original Boy Scout Handbook is the official handbook of the Boy Scouts of America. It is a descendant of Baden-Powell's original handbook, Scouting for Boys, which has been the basis for Scout handbooks in many countries, with some variations to the text of the book depending on each country's codes and customs. The original edition of the handbook was based on Baden-Powell's work. Ernest Thompson Seton combined his Woodcraft manual, the Birch Bark Rolls, with Baden-Powell's Scouting for Boys. Subsequent works were done by other authors. William "Green Bar Bill" Hillcourt wrote the 6th, 7th, and 9th editions. Frederick L. Hines wrote the 8th, and Robert Birkby the 10th, 11th and 12th editions. The first Official Handbook, subtitled A Handbook of Woodcraft, Scouting, and Life-craft was published from July 1910 until March 1911 and appeared in eight distinct variations. It was written by Ernest Seton and drew greatly on Baden-Powell's Scouting for Boys, it included information on the organization of Scouting, signs and signaling, and camping, as well as Scouting games and a description of several Scouting honours. Notably, this book did not place emphasis on first aid, knife and axe use, or map and compass work, as later editions would. Because this edition was intended solely as a temporary guide until an authoritative handbook could be made, it is now known as the 1910 Original Edition Handbook. The Wild Truth

For twenty years John Aitchison has been travelling the world to film wildlife for the BBC and other broadcasters, taking him to far-away places on every continent. The Shark and the Albatross is the story of these journeys of discovery, of his encounters with animals and occasional enterprising individuals in remote and sometimes dangerous places. His destinations include the far north and the far south, expeditions to film for Frozen Planet and other natural history series, in Svalbard, Alaska, the remote Atlantic island of South Georgia and the Antarctic. They also encompass wild places in India, China and the United States. In all he finds and describes key moments in the lives of animals, among them polar bears and penguins, seals and whales, sharks and birds, and wolves and lynxes. He reveals what happens behind the scenes and beyond the camera. He explains the practicalities and challenges of the filming process, and the problems of survival in perilous places. He records touching moments and dramatic incidents, some ending in success, others desperately sad. There are times when a hunted animal triumphs against the odds, and others when, in spite of preparation for every outcome, disaster strikes. And, as the author shows in several incidents that combine nail-biting tension with hair-raising hilarity, disaster can strike for film-makers too. This is natural history writing at its absolute best: evocative, informative and gripping from first to last.

Little Children

Hatchet meets *Maybe a Fox* in this “gripping, suspenseful” (Kirkus Reviews, starred review) novel about Edgar, a boy who has lost the ability to speak and can only bark, and his dog Benjamin as they travel through the freezing Yukon wilderness in order to stop Edgar’s mother from making a huge mistake. Eleven-year-old Edgar’s mom is making him move. Again. This time, they’re headed to a tiny town in the Yukon called Dawson, Alaska. For once, though, Edgar is excited. They’ll be housesitting, and with the house comes a dog: Benjamin. It’s love at first sight when Edgar first spies the massive Newfoundland, and soon Edgar starts liking lots of other things about Dawson. But just as soon, he starts noticing things. The kinds of things his mom did before; the kinds of things that caused them to move so much. The kinds of things that will surely, absolutely cause them to move again. Unless he can warn the people who are about to be hurt. Yet just when Edgar needs his voice most...it’s gone. Suddenly, he can’t communicate with anyone but Benjamin. So, with the dog by his side, Edgar embarks on a dangerous journey across the frozen Yukon River in search of answers—and a way to keep his mother from upturning their lives all over again. But the wilderness is not kind. Edgar and Benjamin find themselves in a situation right out of Edgar’s favorite Jack London story. With cracking ice, freezing water, bone-chilling temperatures, and looming, lurking wolves, Edgar must find a way to survive before he can stop his mother from wrecking everything.

Into the Wild

In the summer of 2017, wildfires dominated the headlines in British Columbia. As a low pressure weather system continued to cause lightning strikes, starting new fires, strong winds fanned the existing ones. Over two hundred fires burned in the province and nearly ten thousand people in or around the towns of 100 Mile House, Ashcroft, Cache Creek, Princeton and Williams Lake received the instruction YOU MUST EVACUATE NOW. But not everyone left. Captured by Fire alternates between the dramatic first-person accounts of wilderness dweller Chris Czajkowski and homesteader Fred Reid, who both ignored the evacuation order and stayed to protect their properties, animals and livelihoods. Living in a remote area, they knew that their homes would be of low priority to officials when fire fighting resources were deployed. Over the course of the summer, as alerts fluctuated and even the firefighters pulled out, both had to decide: when is it time to go?

The Complete Idiot's Guide to RVing

"From the publishers of a popular series of building books comes Small Homes, which is highly relevant for these times. Getting smaller, rather than larger. Some 75 builders share their knowledge of building and design, with artistic, practical, and/or economical homes in the United States, Canada, England, Scotland, France, Germany, Spain, New Zealand and Lithuania. This is the seventh in a series of highly-graphic books on homemade building, all of which are interrelated. The

series, "The Shelter Library Of Building Books," include Shelter, Shelter II (1978), Home Work (2004), Builders of the Pacific Coast (2008), Tiny Homes (2012), and Tiny Homes on the Move (2014). Each of these books has over 1,000 photos, and each 2-page spread is carefully laid out with respect to balance of graphics and clarity of information. A running theme with them is that people have been inspired by one book to build their own home, and this will be included in a subsequent book. For example, many of the homes in Home Work were inspired by Shelter. And so on. The underlying theme with Shelter's books, which has continued for over 40 years, is that it's possible for you to create your own home with your own hands, using natural materials. Some of these homes are in the country, some in small towns, and some in large cities"--

From the time they became domesticated, horses have fulfilled roles imposed by human societies. Changing economies, societies and technologies have transformed the predominant roles held by horses in human life. They are now overwhelmingly employed in improving the quality of human life. Across Europe the status of the horse is evolving as ridership grows, and these changes create

new economic opportunities for equine and rural enterprises. The 20 chapters focus on new or developing sectors of the equine economy through sections devoted to impact studies, economic opportunities, socio-economic challenges, social economy, governance issues, sustainable development, the case of horse meat and national reports about the horse in the national economies. The topics range from equine tourism, alternative medicine for competition horses, and the use of social media, through to what may be the most complete guide to the scientific production of horse meat to be published so far. Each chapter provides a glimpse of where the equine economy may go in the 21st Century, based upon the research of experts in their field. No one can predict the future, but the authors give us insight into some of the cutting edge trends which are shaping the nature of the equine world and producing the New Equine Economy of the 21st Century.

Shortlisted for the 2017 Louise de Kiriline Award for Nonfiction
The age of exploration is not over. When Adam Shoalts ventured into the largest unexplored wilderness on the planet, he hoped to set foot where no one had ever gone before. What he discovered surprised even him. Shoalts was no stranger to the wilderness. He had hacked his way through jungles and swamp, had stared down polar bears and climbed mountains. But one spot on the map called out to him irresistibly: the

Hudson Bay Lowlands, a trackless expanse of muskeg and lonely rivers, caribou and wolf—an Amazon of the north, parts of which to this day remain unexplored. Cutting through this forbidding landscape is a river no explorer, trapper, or canoeist had left any record of paddling. It was this river that Shoalts was obsessively determined to explore. It took him several attempts, and years of research. But finally, alone, he found the headwaters of the mysterious river. He believed he had discovered what he had set out to find. But the adventure had just begun. Unexpected dangers awaited him downstream. Gripping and often poetic, *Alone Against the North* is a classic adventure story of single-minded obsession, physical hardship, and the restless sense of wonder that every explorer has in common. But what does exploration mean in an age when satellite imagery of even the remotest corner of the planet is available to anyone with a phone? Is there anything left to explore? What Shoalts discovered as he paddled downriver was a series of unmapped waterfalls that could easily have killed him. Just as astonishing was the media reaction when he got back to civilization. He was crowned “Canada’s Indiana Jones” and appeared on morning television. He was feted by the Royal Canadian Geographical Society and congratulated by the Governor General. People were enthralled by Shoalts’s proof that the world is bigger than we think. Shoalts’s story makes it clear that the world can become known only by getting out of our cars and armchairs, and setting out into the unknown, where every step is different from the one before, and something you may never have imagined lies around the next curve in the river.

A New York Times Bestseller "The Wild Truth is an important book on two fronts: It sets the record straight about a story that has touched thousands of readers, and it opens up a conversation about hideous domestic violence hidden behind a mask of prosperity and propriety."-NPR.org The spellbinding story of Chris McCandless, who gave away his savings, hitchhiked to Alaska, walked into the wilderness alone, and starved to death in 1992, fascinated not just New York Times bestselling author Jon Krakauer, but also the rest of the nation. Krakauer's book, Into the Wild, became an international bestseller, translated into thirty-one languages, and Sean Penn's inspirational film by the same name further skyrocketed Chris McCandless to global fame. But the real story of Chris's life and his journey has not yet been told - until now. The missing pieces are finally revealed in The Wild Truth, written by Carine McCandless, Chris's beloved and trusted sister. Featured in both the book and film, Carine has wrestled for more than twenty years with the legacy of her

brother's journey to self-discovery, and now tells her own story while filling in the blanks of his. Carine was Chris's best friend, the person with whom he had the closest bond, and who witnessed firsthand the dysfunctional and violent family dynamic that made Chris willing to embrace the harsh wilderness of Alaska. Growing up in the same troubled household, Carine speaks candidly about the deeper reality of life in the McCandless family. In the many years since the tragedy of Chris's death, Carine has searched for some kind of redemption.
