Concise and accurate treatment of the subject matter. Comparative tables to highlight the differences between important terms. Profusely illustrated with examples and well-labelled diagrams. All the chapters contain new material as per the latest syllabus.

Commercial Arithmetic Class XI by Dr. S. K. Singh, Samresh Chauhan -

The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for Clint Eastwood's blockbuster movie which was nominated for six academy awards, including best picture. From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

Handbook of Management Accounting Research

The eBooks is authored by proficient Teachers and Professors. The Text of the eBooks is simple and lucid. The contents of the book have been organised carefully and to the point.

Physics : Textbook For Class Xi

Offering coverage of the entire audit process, this text takes students step by step through each audit cycle, then shows how each step relates to the process as a whole. Increased emphasis is placed on e-commerce.

Accountancy Vol 1

Other chapters deal with newly emerging concerns in management accounting, including network relations, integrated cost management systems, knowledge management pursuits, environmental management accounting, and accounting and digitisation. Each chapter encompasses discussions of basic premises complemented by insights from modern day practice, research and thought. This makes the book particularly suitable for students in intermediate, advanced and executive level courses in management accounting. It also provides an extensive corpus of discussions, which will inform those in practice. Readers interested in gaining direct insights into specialised management accounting areas will find this book to be an especially valuable reference source

American Sniper

Saraswati Health and Physical Education is a much acclaimed and popular series in Health and Physical Education. The series demonstrates a deep understanding of the principles and concepts related to the subject while providing students with all the pedagogical tools necessary for comprehension and application. The fully revised edition, which includes all the latest developments in the field, in its colourful avatar will not only enhance the teaching-learning process but will also make it more enjoyable.

Owing to my long teaching experience and personal association with the students and teachers of Economics and keeping in mind their needs and requirements, the author has written this book with the motto to enable the students to understand

the principles and theories of economics and to learn their applications in real life. Special features of the textbook are : • Each chapter is divided into several sections covering all components of the syllabus. • It has logical and systematic presentation. • It incorporates a large number of diagrams and schedules with explanations. • To give students an edge over the basic knowledge of the matter, 'An Extra Mile' has been given at the end of each chapter. • Exercise is tuned to the pattern of examination. The exercise includes: • Questions relating to remembering & understanding of the subject matter. • Reason based questions. • Previous years' CBSE questions. • Information and concept based questions. • NCERT questions

ISC Commerce Class-XI (Vol.I)

Volume one of the Handbooks of Management Accounting Research sets the context for both Handbooks, with three chapters outlining the historical development of management accounting as a discipline and as a practice in three broad geographic settings. The bulk of the first volume then draws together a series of contributions that analyse the scholarly literature in terms of distinct intellectual and theoretical social science perspectives. The volume includes a chapter which looks at work informed by psychology as a base discipline. The volume also includes a set of chapters that seek to evaluate and explain issues of research method for the different approaches to research found within management accounting. Special pricing available if purchased as a set with Volume 2. Documents the scholarly management accounting literature Publishing both in print, and online through Science Direct International in scope
