### **The Death Catcher**

Your tears are strength! The world has conditioned us to believe that tears are equivalent to being a coward or allowing fear to consume us. That is far from the truth. Yes, our tears display our current level of emotion like fear, anger or frustration but that does not equate to weakness. Have you ever noticed the feeling of relief after crying or how we can laugh so hard that tears form in our eyes. Our tears are a reminder that we are human but it should also give us a deeper connection with Jesus, who in human form cried after the death of his friend Lazarus. Stop allowing the world to dictate where your strength comes from! "He gives strength to the weary and increases the power of the weak" Isaiah 40:29 Today is your day to \* Stop fighting the tears \* Find power in your tears \* Become a shoulder for someone fighting back tears \* Realize that God sees your tears

"This book is a slice of intensified history—history as I saw it." So begins John Reed's first-hand account of the Bolshevik Revolution of 1917. Much anticipated when it was published in 1919, Reed's narrative remains as riveting today as when the events he describes were still reverberating throughout the world. Reed was hardly a disinterested observer, and his involvement in the Communist labor movement lends urgency and passion to his classic account. He vividly describes events in Petrograd in November 1917, when Vladimir Lenin and the Bolsheviks stormed the Winter Palace and seized the reins of power. Despite Reed's personal leanings, which he made no attempt to hide, the book garnered praise from luminaries across the political spectrum. George F. Kennan, the American diplomat, and father of the policy of Soviet containment, said that "Reed's account of the events of that time rises above every other contemporary record for its literary power, its penetration, its command of detail. It will be remembered when all others are forgotten." Reed was committed to telling the story of the Russian revolution as truthfully as possible. That the book was banned by Russian premier Josef Stalin is a testament to the author's success in carrying out his mission. One hundred years after Russia and the world trembled, *Ten Days that Shook the World* brings alive the momentous events of 1917.

### **The Amazing Afterlife of Animals**

A TRUE CRIME THRILLER THAT EXPLORES THE DARKEST REGIONS OF ROMANTIC INFATUATION. THE YEAR: 1969 THE SETTING: Berkeley, California THE STORY: Amidst the turmoil of student rebellion two loners encounter each other and turn an innocent flirtation into a dance of death. THE CHARACTERS: Prosenjit Poddar was the brilliant engineering student who wanted nothing more than to return to his native India a big success and to marry a woman of his parents' choosing. Tanya Tarasoff was the naive coed who just wanted somebody to love. And Larry Moore was the young psychologist who thought he recognized the warning signs that his patient was not just suffering from a jilted love affair but was about to commit an act of murder. THE STAKES: In a culture clash that pits the traditional values of male-dominated India against free-love attitudes of Berkeley in the '60s,

an impending tragedy unfolds. Soon Larry Moore finds himself face-to-face with the biggest dilemma of his career. What does a doctor do if he perceives his patient as mentally unstable and a threat to the well-being of another but is bound by the oath of doctor-patient confidentiality not to warn the police? This true story tracks Moore's race against time to stop the inevitable. BAD KARMA is more than an anatomy of madness; it is also a chronicle of the events that would culminate in a landmark decision handed down by the California Supreme Court. Known simply as Tarasoff, this 1976 ruling would change the oath of confidentiality between therapist and patient, and establish the rule that a mental health professional has the legal duty to protect a threatened individual.

### **Lucid Death**

### **Doggone**

This is an account of one of life's most painful experiences--the sudden death of a child. A mother's anguish compels her to examine beliefs about what comes after death and to explore ancient healing methods in Mexico, Brazil, and Bali. At its core a spiritual odyssey, The Sacred Wound is about creating meaning from life-shattering events--events which can utterly destroy us or serve as a call to extraordinary courage and growth. A life-shattering event is a modern day "sacred wound," a wounding so profound that it pierces the soul and penetrates the veils of who we are and what we think life is about. Like a mythological hero, we will emerge from the ordeal another person. As the author says, "For three years grief was my consort, it became my teacher." This inspiring and searingly honest book is about more than survival following the death of a loved one; it is about the gift in tragedy's other hand. It is about discovering the truth that love is the central experience of life and not simply mortality, and that this truth can emerge in ways

### **The Puppy's Soul**

What if everything you've ever believed about life after death is wrong? What if you discovered that many aspects of human behavior, attitudes and beliefs are the result of minds from deceased persons influencing and/or helping the living? What if you found that autism, homosexuality, schizophrenia and other conditions are caused by minds from the deceased attached to them? When Daniel Nelson's cancer-ravaged body finally gives up he finds that dying was easy compared to what comes after. He learns that while there still doesn't appear to be absolute proof of heaven or hell, there is indeed life after death-but apparently only for some. Dan doesn't know what to think of his situation. Do all minds live on after death and find a living host or is he unique? He doesn't know but suspects others have survived in the same fashion he did. He discovers he can contact Jeannie if he tries hard enough but he doesn't think a fourteen year old girl could handle an event like that, even one as intelligent and thoughtful as Jeannie.

### **Communicating with Animals**

### **It's Okay to Cry**

Our pets are part of the family. For many they're as close as children; for some they may be our only children. And while most of us can expect that our children will outlive us, sadly, our pets almost never do. Losing a pet can be as difficult as losing any other family member; we grieve, we miss them, and, mostly, we want closure, to know that our furry, feathered, or scaled friends are okay, wherever they are. For years, animal communicator Sonya Fitzpatrick has helped pet owners

cope with the loss of their beloved companions. Many of them ask the same questions: Is my pet happy? Why did this happen? Is it okay to get another pet? Using her personal experiences as well as the stories of the families she's worked with, Sonya sheds some light on the questions that every grieving pet owner has, and assures the reader that there are, in fact, no sad dogs (or cats or birds or turtles or horses or cows) in heaven.

perspective. First, the sudden, unexpected death of a beloved pet is addressed. The children in the series, Tamika and Alex, discuss grief with Nonnie and explore their feelings. Then, Tamika's grandpa, her Abuelito, becomes ill. His illness is serious. Nonnie connects the children with Alex's Aunt Lisa. She is a palliative care physician. They learn about one of the ways a life can end; slowly, and with caring people surrounding the sick person. In time, Tamika's grandfather dies. The children learn about funerals and traditions. Tamika experiences loss and sorrow. Nonnie Talks about Death tackles Tamika's big question about what happens after death by interviewing Nonnie's friends and asking each friend about their belief system and death. Based on Dr. Mary Jo Podgurski's friends in real life, and beautifully captured by her talented Illustrator, Alice M. Burroughs, this technique allows the children a unique opportunity - to go on a "quest" for knowledge. They grow as people as they respectfully seek answers to one of life's biggest question. The Nonnie Series believes Each Person is a Person of Worth™! Nonnie Talk about Death continues the tradition of seeking wisdom with respect. All children will benefit from the kindness in this book. Trusted adults, parents, and the children they love will find a safe place for learning here.

Recommended for mature age 13 and up. I've seen a lot in my thirteen years of life. I've run away and been rescued. I've had children and lost them. I've lived in cages and in beautiful homes. But these days, a lot of my thinking is done behind closed eyelids, as I just feel so old and tired all the time. Now, you're probably confused at this point because, in human years, thirteen isn't old at all; but in dog years, especially if you're a sheltie like me, that's ancient. So, when my human parents-the best people you could ever meet-started moping around the house, I knew something was up. For a few days, I tried to ignore it, but after another visit to the doctor, we all had to finally face the truth. I am dying. But the story I have to tell you isn't a sad one. You might say we dogs tend to view the world through rose-colored glasses. But really, we just see it for the wonderful place it is. Sure, there are difficult moments, but that's just it-they are momentary. The way I see it, every day we have a choice to love, laugh, and be grateful.

### **The Afterlife Cabals**

Black Hat Wisdom was written as the author's personal guide to achieve spiritual freedom and attain inner peace. Its main theme focuses on applying metaphysical attributes, without any specific theological beliefs that might constrain an open minded approach to the everyday occurrences of our daily lives. Its prime intention is to inspire, motivate, and embrace the inner essence of your individuality and the power of your spirit, as the main forces that provide the answers to what we already know but have most probably forgotten. The book is a very non-conventional approach to unravel the elusive truths behind those age-old questions of why we are here? What is the purpose of life? Where do we go after death? Why should we believe in what has been forced upon us through thousands of years of traditions and conventional wisdom? And many other questions which, perhaps because of our practical ways of thinking, we have failed to consider important. Hopefully by reading each essay more than once you will be open to consider a different way of thinking - a new way of thinking that could cement your present beliefs or shake them to their core, or maybe help you embrace other ways of getting closer to the absolute truth or to a truth within which the essential nature is forever changing. Lastly the author hopes that the reader will be inspired to question everything, with the compassion and understanding that will allow LOVE and PEACE to always lead the way. You are greater than you think you are.

### **Lessons from a Son's Life and Death**

In this personal account, one man details how his past life sins had a direct effect on his love life. Frank Mares, a successful middle-aged businessman, was always mystified why his love life was snake bitten. Others thought of him as a considerate, funny guy with good looks, but every one of his long-term relationships with attractive women ended in a fiery wreck. After the death of his father, he started a meditation practice that inexplicably rewarded him with psychic abilities. With his new gift, he discovers that reincarnation is real and he recovers facts about nine of his past lives. Most of those lives involved violent, bloody deaths. Mares goes on a spiritual journey to find out why he kept dying violently and why he couldn't find the love he was looking for in his current life. The answers do not come easily, but by using a team of three world class psychics, he tracks down the shocking reason why the Universe is angry with his soul. The psychic team finds that within the soul of this normal, small businessman resides a brutal, stone killer from the 1600's, who surprisingly was the revered founder of a gentile noble family. The killer's portrait still hangs in his tourist destination castle outside of Prague, while Mares pays his Karmic bill. Mares hopes to salvage the dark time in his soul's past into something that could help others today. Specifically, he found that everyone's long term romantic relationships were preplanned before their births. This planning was done not so that you can find love and happiness, but rather so that your soul can learn spiritual lessons through heartache. By examining his past relationships with a new perspective, he saw how the Universe set him up for romantic doom through amazing coincidental encounters and by ruthlessly preventing more suitable girls from ever meeting him. If you read this book, you will never look at Love and Death in the same way again. In addition, some of your past romantic disappointments might now start to make sense.

Life is good for Bradley Morris, an aging but vital World War II veteran, except for the nightmares and horrible memories of long-past days in combat. With his beloved wife Lizzie at his side, he travels back to the battlefield in Sicily where he was mortally wounded and his best friend died, and finds that facing his demons head-on helps bring peace of mind. But now he suddenly faces a far more painful situation: the potential loss of Lizzie, who appears to be in good health one minute and suffers a massive heart attack the next. As Lizzie lies in a coma and death seems near, others in the family accept what has to come. But Bradley refuses to give up. He relives in memory his and Lizzie's years together-their time as high school sweethearts, the ordeal of his going off to war, the trials of raising children, his alcoholism, and their learning and growing together through the racial strife surrounding the assassination of Dr. Martin Luther King Jr. in their home town of Memphis. Bradley gradually allows himself to acknowledge the inevitable and devotes himself to keeping promises made to Lizzie-particularly reconciliation with their son after a decades-old quarrel over the Vietnam war. And he must also find a way to overcome the guilt he feels for surviving his own war when his best friend did not. In the end, it is renewal of the faith he lost in battle that sees Bradley through.

### **Courtoy's Complaint**

The true story of innocence, conspiracy and betrayal described in this book took place in early 19th century London. Maureen Sayers - on whose journals the book is based - was born in Ireland and moved to London in 1817. This was after the death of her mother the previous year. By all accounts an intelligent and attractive young lady, Maureen was strong-willed but nevertheless retained a delightful innocence, one that would immediately place her at the mercy of the capital's sordid underbelly. After eventually escaping the clutches of her lecherous tormentors, she found work with Hannah Courtoy, caring for Hannah's husband John. During his lifetime John Courtoy became one of the richest men in England. Remarkably he amassed his fortune while working as a humble wig-maker. He achieved his wealth through many activities in addition to those of his chosen occupation. Initially he developed an employment registry, possibly the first of its kind in England. Using the money derived from this activity, he then became a prodigious money-lender, catering largely to the needs of the aristocracy, gentry, and merchants of London. As his fortune grew, he proved to be a wily investor. He was also a renowned miser. John Courtoy was born Nicolas Jacquinet in 1729, in the town of Jussey, France. He adopted the name of John Courtoy after he fled to England in 1751. When he eventually died in 1818 he was 89 years of age. John made two Wills, one in 1810, the other in 1814. The second Will was made when his mental health had allegedly become severely impaired, raising many questions as to its validity. Maureen raises several interesting observations concerning the destination of his fortune. Central to her interpretation of events is that his Last Will and Testament of 1814 was fraudulently compiled. According to Maureen's

## Online Library After Death Signs From Pet Afterlife And Animals In Heaven How To Ask For Signs And Visits And What It Means

account his estate - which would be worth over £20 million in today's money - might have ended up in the wrong hands. Maureen's narrative provides sparkling insights into early 19th century London life. Whether she is recording visits to the theatre, attendance at glittering soirees or simply everyday life on the capital's putrefying streets, by immersing oneself in her story, it is possible to experience many of 19th London's fascinating qualities, both virtuous and corrupt.
