Candide

John Mannering (aka 'The Baron') pulled his scarf up so as to hide his face. The finest jewel thief in London was utilising all of his skills to nail a crooked Solicitor. Mannering's friend could be ruined by documents contained in the lawyer's strong-room and so he risks all, especially his freedom, to get them back.

Shades of Blue - 30 Years of (Un) Ethical Policing

Former Prussian soldier Herman "Baron" Lamm (1890-1930) adapted his military training to a much less noble occupation after moving to America, developing a reputation as one of history's most brilliant and efficient bank robbers. Lamm's time fell between Butch Cassidy and John Dillinger's notorious careers, and Lamm never received the attention of the two famous gunslingers. This first full-length biography promotes Lamm from his supporting role, tracing his criminal exploits and his pioneering use of concepts like "casing" a bank and planning escape routes. Analysis of arrest records finds Lamm's genius as a criminal mastermind much overrated, and a detailed examination of the trial transcript of fellow gang members Walter Detrich and James Clark brings to life Lamm's spectacular downfall.

A Year in Bushwick

Updated to reflect recent exams, this manual provides solid test preparation for applicants taking federal, state, and local court officer exams. The authors present study tips, a diagnostic test, and four model exams typical of those currently administered. The exams come with answers to questions and self-diagnostic procedures. New in this edition is a chapter that takes into account the current trend in court systems to rely on oral interviews in the process of selecting court officers. The authors advise on ways to obtain the best score in such an interview.

Dishonored and Forgotten

Former Baltimore City homicide detective Kelvin Sewell has seen it all. Gang members burned alive; a baby unceremoniously stuffed into the ground by its own mother; a sex offender who killed a child in a delusional jealous rage. The constant grind of bearing witness to violent death has given Sewell an unprecedented perspective into the minds of killers. He sat in the Baltimore Police Department's interview room with 14-year-old Devon Richardson as the teen tried to explain why he shot a woman he didn't know in the back of the head. He watched the father of 17-year-old Nicole Edmonds cry over the corpse of his dead daughter, murdered for a cellphone. But now for the first time Sewell has decided to share the insights and the pain, the dehumanizing effects of crime and waves of psychic despair and social dysfunction in his groundbreaking book, *Why Do We Kill?* "I think people deserve to know the truth," said Sewell, a 20-year veteran of Baltimore City's police department. "They need to get a sense of why people kill in Baltimore." "I want people to see what we see as detectives," he explained. "I think there are misconceptions about crime in Baltimore, and I hope this book will clear them up." The book recounts some of the most notorious homicide cases in Baltimore in the past decade, all told from the perspective of the cop who worked them. Joining forces with Sewell is award-winning investigative reporter Stephen Janis, who covered City Hall for the now-defunct Baltimore Examiner and is founder of the award-winning news website Investigative Voice. "What makes this book different is the collaborative voice," said Janis. "Kelvin would discuss his thoughts on the cases and I then tried to tell the story by adding the context that comes naturally with being a reporter." Janis's colleague at Investigative Voice, reporter and political scientist Alan Z. Forman, served as editor for the project. Janis is no stranger to the Baltimore crime scene, winning a string of prestigious awards for his crime reporting, including two consecutive Maryland-Delaware-DC Press Association awards in Category A for his series on the murders of sex workers and his investigation into the high number of unsolved killings in Baltimore.

Yes, Cops Do It - Oh, Yeah!

Trust is a crucial facet of social functioning that feeds into our relationships with individuals, groups, and organizations. *The Psychology of Interpersonal Trust: Theory and Research* examines existing theories, frameworks, and models of trust as well as the methods and designs for examining it. To fully examine how interpersonal trust impacts our lives, Rotenberg reviews the many essential topics trust relates to, including close relationships, trust games, behavioural trust, and trust development. Designed to encourage researchers to recognize the links between different approaches to trust, this book begins with an overview of the different approaches to interpersonal trust and a description of the methods used to investigate it. Following on from this, each chapter introduces a new subtopic or context, including lying, adjustment, socialization, social media, politics, and health. Each subtopic begins with a short monologue (to provide a personal perspective) and covers basic theory and research. Rotenberg's applied focus demonstrates the relevance of interpersonal trust and highlights the issues and problems people face in contemporary society. This is essential reading for students, researchers, and academics in social psychology, especially those with a specific interest in the concept of trust.

Forever Blue

POCKET SIZE PAPERBACK. This new translation from Japanese tells the story for the first time in English of Baron Kaneko's one-man diplomatic mission to the U.S. during the Russo-Japanese War (1904-05), in which he was tasked with winning the hearts and minds of the American people to the Japanese side. He achieved this through personal contacts with major figures including his close friend President Theodore Roosevelt, after-dinner speeches, lectures, press conferences and newspaper interviews, thereby displaying a mastery of the media which seems thoroughly modern in its influence and control. Upholding the principles of Bushido as explained by Nitobe Inazo in his book of that name first published in 1900, he was careful not to attack or slander the opposite side or his Russian opponent Count Cassini. 26 B/W images. This volume includes an extensive bibliography, a chronology and an index. (Also available as a hardcover, a 6 x 9 inch paperback and download on lulu.com, and soon at online retail stores.)

The Ferguson Report

Once described by the Hartford Courant as "Bronx native with a dry wit," the author has instilled his brand of humor in a collection of amusing short stories relaying events over the course of a 27 year police career. These true stories, a combination of weird news and world's dumbest criminals, give an inside look at the humorous side of police work. Illustrated by accomplished artist, Adam Talley.

Barron's Police Officer Exam

A Year In Bushwick is set in the 1970's a time before Facebook and cell phones. A time when what happened on the street stayed on the street. It is the story of a cop and the squad he worked with in the strangest precinct in New York City. Headquarters once advised a Captain who had been assigned as Commanding Officer that the 83 Precinct was a cross between a Foreign Legion Outpost and a leper colony. This book follows Sean Quigley a cop in the 83 precinct for one year from New Year's Eve at Times Square to Brooklyn and back to Times Square. It is the fictional memoir of a fictional cop assigned to that precinct. You will meet the strange cops that inhabited that precinct, the nurses from a local hospital and those who lived in the confines of the command. They were he last of the cowboy

cops. The story covers the gamut of human emotion and experience. There is tragedy, horror, sex, violence, boredom and a good deal of comedy.

I Loved Steam Trains As a Child

In 1953 the Houston Police Department was enmeshed in a narcotics scandal, its first. Before it was over, a detective was dead of two gunshot wounds to the heart. It was ruled a suicide. A federal agent came to town to investigate, sending two other people to prison. The police chief lost his job, a captain was fired and the department was in turmoil. This is a fictional account of those events and more.

Garda

Present day police crime/political thriller. Be warned; this is one of the fastest-moving crime novels around- and is set in the unlikeliest of places! When two detectives are murdered in what appears to be a ritual killing a few kilometres outside the central Australian town of Alice Springs, Darwin's police chief immediately sends its most experienced detective to assist; Senior detective Mick Reagan. He finds himself faced with a riddle "that seems to contain bits of other puzzles.' The second in command in the town's police force is Senior Sergeant Jimmy Morgan, an ex-military control freak that knows the town and its residents better than anyone, and is convinced he knows who killed the two officers, but refuses to disclose any information until he can prove it. Reagan's clashes with Morgan escalate to almost physical confrontation as the Darwin detective points out flaws in Morgan's reasoning and begins to look for alternative suspects. Friction increases between the two men when Reagan strikes up a professional relationship with Sandra Howlett, a brilliant multi-millionaire lawyer who is based in Alice Springs but seems to have most of Australia's major business moguls and senior politicians on her speed-dial. She also represents several of Morgan's suspects. When a police officer on sick leave commits suicide and Morgan dies from a bullet in his head, the authorities have no option but to call in the Feds as Alice's police force teeters on collapse and media attention goes international. Reagan throws the rule book away, using the Fed's superior legal powers to obtain the additional information he needs, whilst infuriating them by withholding snippets of information in order to stay on the case- purely because he realises he is likely to become the scapegoat in the inevitable enquiry, and also a number of innocent people will have their lives ruined. As he tries to outsmart Sandra Howlett in their professional clashes he senses she's playing games with him because she already knows the killers. In desperation, he attempts to pit his legal expertise head to head with hers, leading his superior to warn him "you've gone so far out on a limb, you've left the tree behind- you're walking on fresh air". And that is when a comment made by Morgan to Howlett seconds before his death means he will have to protect the woman from a catastrophe that could destroy her, and even change Australia's financial and political future.

Mapleton Murders

Young Louisiana state trooper, Travis A. Gaspard, patrols the highways of his state looking for drug smugglers and confiscates a large haul of Columbian cocaine

which was destined for the east coast of the United States. At nearly the same time, Saddam Hussein invades Kuwait and the U.S. armed forces are called to prepare for war. Tag, as the young trooper prefers to be called, is a United States Marine Corps reservist, and as such must leave the state police and his wife to fight Saddam's army overseas. While preparing for battle in the sandy lands of the foreign country, Marine Corps Captain Gaspard is notified of his wife's untimely death back home. He returns to Louisiana immediately for her funeral and to sort out the circumstances of her demise. Post war and several years later, the new Superintendent of the State Police appoints Lieutenant Tag Gaspard to head up the Special Investigations Unit of the department. He is later ordered to join a task force with the New Orleans and Houston Police Departments in hopes of solving a triple homicide. Dealing with personnel from other departments presents its own issues to the lieutenant in more ways than one. Combined with the haunting fact that he still has not closed the case of his own wife's murder, the twists and turns of the current investigation begin to take a toll on the task force leader. Follow the saga of the law enforcement veteran through South Louisiana on the current investigation, and his efforts to deal with critical "matters of heart."

The Rawlings men have always had a close association with the police force. Those who don't become policemen themselves have always flocked toward related professions. The family is full of forensic psychologists, scene of crime officers and police advisers. And as for those rare Rawlings men who have no interest in maintaining law and order - they can still appreciate a man in uniform, and a finely crafted pair of handcuffs! This volume contains the first four stories in the series: In Handcuffs and Leather, Dr. Rawlings wants nothing more than to help Constable Hadley overcome a traumatic event endured while on the job. Nothing, perhaps, except to teach the younger man what dominance and submission are really about. Hadley's about to find out what it's like to be restrained by a lover rather than a criminal. In Handcuffs and Glory Holes, Sergeant Conrad Rawlings discovers that even hiding behind a glory holes can't stop him coming face to face with a submissive in need. When he catches sight of Willis, as they exit neighboring cubicles, what was supposed to be a fleeting hook up quickly becomes far more. In Handcuffs and Headlocks, undercover police officer Ed Rawlings has become so good at playing pretend he's finding it increasingly difficult to return to reality and remember who he really is. Can martial arts instructor Derby Fitzgerald remind Ed how good it feels to be himself? In Handcuffs and Trouble, Trent Rawlings has just joined the force. He isn't surprised to find himself being hazed. He's content to play along and take it in good grace. Kieran Osmond, however, is furious to find a newbie stumbling into his undercover operation. He has no choice but to rescue Trent, but he has no idea how much trouble that will lead to.

There is another world inhabited by creatures that pretend to be human, but are so debased as to be devoid of any similarity to the humans that exist in the real world. This alternate world is where terrorists and those that hunt them roam. The hunted and the hunters sometimes exchange places, and the idiom "one man's terrorist is another man's freedom fighter," is the order of the day. David Abraham,

a world class runner returns from the Munich Olympics after faring poorly in his event, and is now faced with a decision that would alter the course of his life. As a uniformed police officer in London, he has the opportunity to join the ultra-secret department at the New Scotland Yard known only as "The Group." He is interviewed and accepted into this shadowy group, and from there his adventures begin. He is given the mission of infiltrating a well-known terrorist cell in Augsburg Germany, and ends up stumbling on a possible terrorist plot that involves the Montreal Olympics in 1976. His journey takes him into the world inhabited by cockroaches and vermin who don't deserve to live, and along the way he uses some of their tactics to trap and kill them. He becomes a liability to Scotland Yard and his handlers and they try to rein him in, but he uses all his guile to outwit them, with the help of some Mossad agents. The end is unexpected, and leaves the reader breathless, to only crash and burn with David Abraham.

Why Do We Kill?

An autobiographical drama in which an innocent man paid his reputation and nearly his life for almost twenty years, *Deadly Roses* by Marvin Marable is a shocking tale of what happens when officials follow the wrong leads and guilty men have the means to cover their tracks and flee the country. Set between Atlanta and Palm Beach, the author's life was sent into turmoil soon after his divorce. Two weeks after his divorce was finalized, his ex-wife's best friend was murdered. While there wasn't compelling evidence to indict or arrest Marable in the deadly 1987 slaying, he was intensely scrutinized as a suspect. The aftermath of the extensive investigation, involving the FBI, the U.S. Attorney's Office, the Georgia Bureau of Investigation, and the Atlanta Police, changed his life as well as his sense of security and justice. Unable to refute statements made against him upon the advice of counsel, Marable struggled for two decades until he ultimately became a witness for the prosecution. Mta Police Officer Exam Guide

Candide is a French satire by Voltaire, a philosopher of the Age of Enlightenment. It begins with a young man, Candide, who is living a sheltered life in an Edenic paradise and being indoctrinated with Leibnizian optimism (or simply Optimism) by his mentor, Pangloss. The work describes the abrupt cessation of this lifestyle,

followed by Candide's slow, painful disillusionment as he witnesses and experiences great hardships in the world. Voltaire concludes with Candide, if not rejecting optimism outright, advocating a deeply practical precept, "we must cultivate our garden", in lieu of the Leibnizian mantra of Pangloss, "all is for the best in the best of all possible worlds". Candide is characterized by its sarcastic tone, as well as by its erratic, fantastical and fast-moving plot. A picaresque novel it parodies many adventure and romance clichés, the struggles of which are caricatured in a tone that is mordantly matter-of-fact. Still, the events discussed are often based on historical happenings, such as the Seven Years' War and the 1755 Lisbon earthquake. As philosophers of Voltaire's day contended with the problem of evil, so too does Candide in this short novel, albeit more directly and humorously. Voltaire ridicules religion, theologians, governments, armies, philosophies, and philosophers through allegory; most conspicuously, he assaults Leibniz and his optimism. As expected by Voltaire, Candide has enjoyed both great success and great scandal. Immediately after its secretive publication, the book was widely banned because it contained religious blasphemy, political sedition and intellectual hostility hidden under a thin veil of naïveté. However, with its sharp wit and insightful portrayal of the human condition, the novel has since inspired many later authors and artists to mimic and adapt it. Today, Candide is recognized as Voltaire's magnum opus and is often listed as part of the Western canon; it is arguably taught more than any other work of French literature. It was listed as one of The 100 Most Influential Books Ever Written.

Constable in the Dale

Oh yes! They do it! Highway Patrol Officer Jackson (one very hot well built black man) and Officer Tyler often took their "pull it over" authority just a little beyond the normal, ---when it was some young man, that just maybe needed some good

instructions on how to work with an officer of the law! This time, things took a definite turn, for something definitely different! One police precinct needed to find themselves a new "precinct boy whore" to help them get rid of some of their 'on duty' tensions, and once they found the one they thought might work, then it was test him out, for character, durability, staying power and just plain ole guts! Highway Patrolman Officer Greg, with his butt hugging, crotch kissing, legs loving tight uniform pants, and his tighter than possible shirt, stretched over his muscles of steel, definitely did help out the public in more ways than maybe his job description listed!

Funeral Service Exam Secrets

On August 9, 2014, Michael Brown, an unarmed African American high school senior, was shot by Officer Darren Wilson in Ferguson, Missouri. For months afterward, protestors took to the streets demanding justice, testifying to the racist and exploitative police department and court system, and connecting the shooting of Brown with the deaths of Trayvon Martin, Eric Garner, and other young black men at the hands of police across the country. In the wake of these protests, the Department of Justice launched a six-month investigation, resulting in a report that Colorlines characterizes as "so caustic it reads like an Onion article" and laying bare what the Huffington Post calls "a totalizing police regime beyond any of Kafka's ghastliest nightmares." Among the report's findings are that the Ferguson Police Department "Engages in a Pattern of Unconstitutional Stops and Arrests in Violation of the Fourth Amendment," "Detain[s] People Without Reasonable Suspicion and Arrest[s] People Without Probable Cause," "Engages in a Pattern of First Amendment Violations," "Engages in a Pattern of Excessive Force," and "Erode[s] Community Trust, Especially Among Ferguson's African-American Residents." Contextualized here in a substantial introduction by renowned legal scholar and former NAACP Legal Defense and Educational Fund president Theodore M. Shaw, The Ferguson Report is a sad, sobering, and important document, providing a snapshot of American law enforcement at the start of the twenty-first century, with resonance far beyond one small town in Missouri.

Just an Ordinary Copper

Herman O'Baron Lamm, the Father of Modern Bank Robbery

This book is written for anyone who understands that the lives of people we love can be irretrievably broken by a home invasion or other deadly force encounter. While many law abiding citizens insure their property, the protection of life against deadly force encounters is often ignored. The probability of becoming the victim of a home invasion or personal assault far outweighs the chances of becoming the victim of a fire. Yet, many people understand their options for protecting against fire better than they comprehend their alternatives for protecting life. As a professional who spends nearly every waking hour focused on protecting life or training others to protect life, I have written this book to present the modern shotgun as a viable defense option for personal safety. This book helps crack the code around the mystery, mystique and often miscommunication about the modern shotgun. It presents tactical applications written so the average citizen or trained operator can understand how to maximize the effectiveness of this incredible tool. The protection of one's life or the life of a loved one is a mindset. The mindset begins with awareness of how quickly one can become a victim of a deadly encounter, and how readily you can prepare to guard against the most dire outcome once awareness becomes part of your daily reality. The modern shotgun is a tool to help you accomplish your personal, team or agency's safety mission. After reading this book and practicing the recommended tactics, you will improve your situational awareness and, with training, you will significantly enhance your ability to protect life in the event of a deadly encounter. Please enjoy the reading and make time to master the techniques at the range. Stay aware, stay focused and stay safe; and may God continue to bless and watch over you and your families.

The Baron Returns

Millennia ago, the humans departed Earth, leaving behind their loyal canine companions. Today, the dogs have evolved to become the dominant species on

Earth. Their greatest nation, Orninica, has fully embraced the lessons left by man and built towering concrete metropolises patrolled by all-seeing drones and fueled by the military industrial complex. Their major religion is built on the back of Batman comic books unearthed in the ruins of a human basement centuries ago, transcribed, and then lost. The world has embraced social technology with open arms and virtually everyone wears an iYglass device everywhere they go, while big-budget dreams (with commercials) are beamed to their headsets as they sleep. The unceasing quest for profit has taken this vast empire to the brink of collapse, and now in its waning days, the leaders of the nation's affluent corporations make a desperate effort to begin a new war, hoping to stimulate the economy and keep the wealthy elite in power for another day. Unfortunately, the only enemy they have left to wage war on is a nation of primitive nomads with no advanced weaponry. The leaders of the free world must now concoct a plan to arm the simple savages and ensure a long, profitable war. This satirical cautionary tale is made up of a collection of correspondences from every corner of society, including a grovelling judge, an egotistical actor, an Internet revolutionary, a cunning banker, a foreign spy, a peeping police officer, a profane soldier and a professor. A humorous book for the Occupy Generation and budding anarchists everywhere.
