Maps of Meaning

WHAT IS JESUS WORTH TO YOU? It's easy for American Christians to forget how Jesus said his followers would actually live, what their new lifestyle would actually look like. They would, he said, leave behind security, money, convenience, even family for him. They would abandon everything for the gospel. They would take up their crosses daily BUT WHO DO YOU KNOW WHO LIVES LIKE THAT? DO YOU? In *Radical*, David Platt challenges you to consider with an open heart how we have manipulated the gospel to fit our cultural preferences. He shows what Jesus actually said about being his disciple--then invites you to believe and obey what you have heard. And he tells the dramatic story of what is happening as a "successful" suburban church decides to get serious about the gospel according to Jesus. Finally, he urges you to join in *The Radical Experiment* -- a one-year journey in authentic discipleship that will transform how you live in a world that desperately needs the Good News Jesus came to bring. (From the 2010 edition)"

Teaching and Learning in Real Time

YOUCAT is short for Youth Catechism of the Catholic Church, which is the official catechism for World Youth Day. Written for high-school age people and young adults, YOUCAT is an accessible, contemporary expression of the Catholic Faith. The popular format includes Questions-and-Answers, highly-readable commentary, margin pictures and illustrations, summary definitions of key terms, Bible citations, and quotes from the Saints and other great teachers. What's more, YOUCAT is keyed to the Catechism of the Catholic Faith, so people can go deeper. It explains: What Catholics believe (doctrine) How they celebrate the mysteries of the faith (sacraments) How Catholics are to live (moral life) How they should pray (prayer

and spirituality) The questions are direct and honest, even at times tough; the answers straightforward, relevant, and compelling. After the Bible, YOUCAT will likely become the go-to place for young people to learn the truth about the Catholic faith. Pope Benedict XVI wrote the foreword; Cardinal Christoph Schoenborn, the editor of YOUCAT and the Archbishop of Vienna, Austria, wrote the afterword.

Making Sense of God

The New York Times bestselling author of the forthcoming *God's Wisdom for Navigating Life* uncovers the essential message of Jesus, locked inside his most familiar parable. Newsweek called renowned minister Timothy Keller "a C.S. Lewis for the twenty-first century" in a feature on his first book, *The Reason for God*. In that book, he offered a rational explanation of why we should believe in God. Now, in *The Prodigal God*, Keller takes his trademark intellectual approach to understanding Christianity and uses the parable of the prodigal son to reveal an unexpected message of hope and salvation. Within that parable Jesus reveals God's prodigal grace toward both the irreligious and the moralistic. This book will challenge both the devout and skeptics to see Christianity in a whole new way.

Radical

From the author of the acclaimed *Simply Christian* and *Surprised by Hope* comes a book that addresses the question that has plagued humans for centuries—what is our purpose? As Christians, what are we to do with that ambiguous time between baptism and the funeral? It's easy to become preoccupied with who gets into heaven; the real challenge is how we are going to live in the here and now. Wright dispels the common misconception that Christian living is nothing more than a checklist of dos and don'ts. Nor is it a prescription to "follow your heart" wherever it may lead. Instead, *After You Believe* reveals the Bible's call for a revolution—a transformation of character that takes us beyond our earthly pursuit of money, sex, and power into a virtuous state of living that allows us to reflect God and live more worshipful, fulfilling lives. We are all spiritual seekers, intuitively knowing there is more to life than we suspect. This is a book for anyone who is hoping there is something more while we're here on Earth. There is. We are being called to join the revolution, and Wright insightfully encourages readers to find new purpose and clarity by taking us on an eye-opening journey through key biblical passages that promise to radically alter the work of the church and the direction of our lives.

Belief Matters

Leading innovators in progressive addiction treatment outline a science-based program for overcoming addiction-related problems, demonstrating how to effectively use positive reinforcement and motivational and behavioral strategies. (Self-Help)

The Prodigal God

This user-friendly workbook provides adults with obsessive compulsive disorder

(OCD), the tools they need to move beyond their disorder using Acceptance and Commitment Therapy (ACT) and it also serves as compact text for clinicians/practitioners to use with clients suffering from OCD at any point in treatment. The workbook offers readers hands-on ACT and Exposure Response Prevention (ERP) skills for taming disturbing obsessions and filling the gap of where one stands and where one wants to go. Dr. Zurita provides evidence-based exercises to guide adults through the process of ACT. This includes learning to step back from one's thoughts and memories, opening up to all types of unwanted thoughts and feelings, paying attention to the physical world, observing one's thoughts and feelings, getting rid of barriers to values-based living, and developing consistent patterns of values-based behavior. Written from the office of a full-time therapist in a simple, uncomplicated, and unpretentious manner, this workbook will be useful for all clients suffering from OCD and for the therapists who work with them.

Acts Of Faith

We are unavoidably hope-based creatures. Imagine two women given the same boring task to do eight hours a day in the same conditions - but you tell one woman she will be paid GBP15,000 for a year of this work, and you tell the other that she will be paid GBP15 million. Each woman in identical circumstances will be experiencing those circumstances in completely different ways, because what we believe about the future determines how we live in the present. In this dynamic new book, New York pastor and bestselling author Tim Keller explores the biblical understanding of hope. A profound grasp of what we are hopeful for, he argues, can re-energise and transform us personally, can help us face death, can influence our community practices with regard to sex, money and power - and even be applied globally, to renew our culture.

Beyond Addiction

In a rapidly changing culture, many of us struggle to talk about faith. We can no longer assume our friends understand words such as grace or gospel. Others, like lost and sin, have become so negative they are nearly conversation-enders. Jonathan Merritt knows this frustration well. After moving from the Bible Belt to New York City, he discovered that the sacred terms he used to describe his spiritual life didn't connect as they had in the past. This launched him into an exploration of an increasing American reluctance to talk about faith—and the data he uncovered revealed a quiet crisis of affecting millions. In this groundbreaking book, Jonathan revives ancient expressions through incisive cultural commentary, vulnerable personal narratives, and surprising biblical insights. Both provocative and liberating, *Learning to Speak God from Scratch* will breathe new life into your spiritual conversations and invite you into the embrace of the God who inhabits them.

Forthcoming Books

After You Believe

The Marriage Bed

A powerful message of hope for anyone burdened by regret and everyone who longs for a fresh start. What if I told you that you and your not-so-perfect story have been invited to experience the joy of second chance living. Your critics and nay-sayers and those negative voices in your head have defined who you are and stolen your hopeful future for far too long! The insecurity, shame, and judgment—That stops today. This simple guide will show you how your imperfect life matters in ways you never thought possible. It will help you see your scars, flaws, and failures as unfair advantages and gifts that you can bring to the world. Foster's examination of hope is one part challenge, two parts encouragement. He forces the reader to ask the following questions: How did I lose it? How do I get? How do I give it? Each question is broken down into core concepts that are essential to a life devoted to the power of second chances: awareness, discovery, ownership, forgiveness, acceptance and freedom. Packed full of unfiltered honesty and simple next steps, this manifesto for prodigals, imperfectionists, and hopesters will help you discover beauty in the brokenness.

Fewer Things, Better: The Courage to Focus on What Matters Most

Beyond Belief

"What would it take to create a world in which fantasy is not confused for fact and public policy is based on objective reality?" asks Neil deGrasse Tyson, science popularizer and author of *Astrophysics for People in a Hurry*. "I don't know for sure. But a good place to start would be for everyone on earth to read this book." Maybe you know someone who swears by the reliability of psychics or who is in regular contact with angels. Or perhaps you're trying to find a nice way of dissuading someone from wasting money on a homeopathy cure. Or you met someone at a party who insisted the Holocaust never happened or that no one ever walked on the moon. How do you find a gently persuasive way of steering people away from unfounded beliefs, bogus cures, conspiracy theories, and the like? This down-to-earth, entertaining exploration of commonly held extraordinary claims will help you set the record straight. The author, a veteran journalist, has not only surveyed a vast body of literature, but has also interviewed leading scientists, explored "the most haunted house in America," frolicked in the inviting waters of the Bermuda Triangle, and even talked to a "contrite Roswell alien." He is not out simply to debunk unfounded beliefs. Wherever possible, he presents alternative scientific explanations, which in most cases are even more fascinating than the wildest speculation. For example, stories about UFOs and alien abductions lack good evidence, but science gives us plenty of reasons to keep exploring outer space for evidence that life exists elsewhere in the vast universe. The proof for Bigfoot or the Loch Ness Monster may be nonexistent, but scientists are regularly discovering new species, some of which are truly stranger than fiction. Stressing the excitement of scientific discovery and the legitimate mysteries and wonder inherent in reality, this book invites readers to share the joys of rational thinking

and the skeptical approach to evaluating our extraordinary world.

Redefining Mr. Right

The Astrology Workbook

Finding God in Silicon Valley tells how God is working in the lives of people in Silicon Valley--venture capitalists, entrepreneurs, leaders of major companies, innovators in non-profit start-ups, scientists, and technologists. You will be inspired and challenged as you read the very personal stories of their journeys. The book provides lessons for anyone who has struggled with faith issues. You will read how

these leaders got beyond the trappings of financial and business success to find God. How they overcame personal struggle and even tragedy to come to know Christ. How they reconciled faith and reason and the compatibility of faith and science. And how they discovered meaning, purpose, and a calling for their lives.

The Audacity of Faith

In *Confident Faith*, Mark Mittelberg assures Christians that we can be confident in our beliefs. There's no reason to be timid about what we believe, because our beliefs can stand up to the test. Truth isn't dependent on how a person feels or one's own point of view, as so many assert. On the contrary, we can determine truth through our five senses, and that truth reliably points to a deeper and unseen reality. Mark walks readers through twenty arrows that point towards Christian beliefs: from the intricate design of the universe to archaeological proofs, from the consistent testimony of changed lives to the reliability of the ancient documents of the Bible. After studying these arrows, you'll put this book down with a renewed confidence in what you believe and why it matters for eternity.

You Rise Glorious

"Preachers must understand the teaching techniques of parable and hyperbole, not to mention having a good background in systematic theology, in order to understand what the Bible's writers really meant. But our responsibility is also to reduce the complexities of Bible study to such simplicities that our many listeners, ranging from busy young professional people to aging men and women of failing health to youngsters facing a variety of new temptations, can take away a saving word." (from the Preface) E. Carver McGriff provides the tools preachers need for their daunting task with some of the most timely and thought-provoking research on the lectionary texts ever made available. Included for each scriptural lesson in the lectionary are: - A listing of the applicable Revised Common, Roman Catholic, and Episcopal lectionary texts. - A description of the Psalm of the day. - A prayer for the day. - Commentary that is more than academic exegesis -- McGriff brings to

the forefront those points in the lessons that relate most poignantly to our contemporary reality. - Suggested sermon titles for each of the three texts for each Sunday. - Themes and suggested directions for preaching on each text. - Several additional illustrations to enliven your preaching. "Known in the Indianapolis community as a preacher with extraordinary gifts, it is no surprise at all that this work by Carver McGriff brings remarkable insights to those who look for integrity in their preaching. Carver looks at the texts with a freshness that is sure to stimulate the thought process. Careful use of these suggestions will bring serendipities to preacher and congregation." George H. Tooze Senior Minister, First Baptist Church Indianapolis, Indiana One of America's premiere preachers, E. Carver McGriff returned home after earning two Purple Hearts during World War II to earn a degree in business administration from Butler University. Following a career as a salesman and business owner, McGriff entered Garrett Theological Seminary, where he was voted Best Preacher by the faculty and graduated with distinction. During his 26-year ministry at St. Luke's Methodist Church in Indianapolis, McGriff spearheaded his congregation's remarkable growth in membership from 900 to 4,400, with average Sunday attendance increasing from 300 to over 1,850. McGriff received an honorary degree from the University of Indianapolis and the Outstanding Alumnus award from Butler University and was voted the Distinguished Alumnus of the year by Christian Theological Seminary. McGriff was also honored in 1993 by the Governor of Indiana with the "Sagamore of the Wabash." His sermons have been distributed nationwide by the United Methodist Publishing House.

Losing Your Faith, Finding Your Soul

'The healing has begun. It began when you picked up this book. The goal of these offerings is to assist the children of the earth in the redevelopment of their minds, bodies and spirits . . . Buried deep in the earth are precious diamonds. In order to get to them, however, we must dig and dig deep.' In ACTS OF FAITH, life coach Iyanla Vanzant offers a inspirational passage for each day of the year, particularly aimed at people of colour. Vanzant considers that there are four basic areas that create stress and imbalance for people: our relationship with ourselves, our relationship with the world, our relationship with each other and our relationship with money. This book addresses all four issues in turn thus providing a meditative and uplifting guide to living successfully.

Lectionary Preaching Workbook, Series VI, Cycle C

Rebellion Dogs Publishing is proud to announce a 21st century daily reflection book. Beyond Belief's 2014 second printing is now available with a Foreword by

Ernie Kurtz and updated links and End Notes. What are "agnostic musings"? It is not news to anyone that the war of worldviews makes for sporting debate; does an intervening God grant sobriety, serenity, wisdom and courage or is conscious contact a delusion? Sorry, while we might be as amused as anyone with this question, *Beyond Belief: Agnostic Musings for 12 Step Life* doesn't enter this debate. Hate the game; don't hate the players. A good idea is a good idea. Why dismiss valid experience because of the beliefs that someone harbors? Beliefs aren't facts. Beyond our belief is where life is happening: chances have to be taken; processes have to be evaluated; life has to be lived. Atheists, humanists, skeptics and agnostics will feel included in these daily reflections. Believers won't feel mocked or belittled. Everyone in recovery is included. No one needs to adopt the beliefs of someone else nor deny our own beliefs to get clean and sober. Believing and belonging are not synonymous. We are well into Century 21. Anyone should feel free to doubt or believe with impunity. Everyone's experience is a valid currency. The 12 Step community has no experts. Rebellion Dogs Publishing neither canonizes nor vilifies 12 Step culture. This book draws on philosophy, psychology, entertainment, art, spiritual musings, skeptical inquiry and the uncanny wisdom of the rooms. Professional and 12&12 Member reviews: Melissa D., Clinical Psychologist, California says, "I have never seen a daily devotional book written for agnostics. I found the readings to be extremely thought provoking. I wonder sometimes since there is such talk about God at meetings, what kind of turn-off that must be for agnostics. I think this book will be very helpful to both the newcomer and the mature 12 Step member." Bob K, contributor to AAagnositca.org says, "I expected his book to be good. It's WAY, WAY better than good. The book is outstanding. Two decades of not being a 'daily reflections' kind of guy, are over. Now I have reflections worth reflecting over! Buy this book or you will suffer a horrible and painful death! Well, maybe not, but you'll be missing out on something very good." Michel D. says, "AA can, and must, adapt to changing circumstances and Bill Wilson was the first one to admit it. Unfortunately, members who have come after him are more zealous than our first members. We have seen this dogmatism in history before of course, especially in religion. This is a very slippery slope. I really like the fact that these reflections are for anyone who has an open mind. It does not cater to a specific group to the exclusion of others." Denis K. says, "Many thanks for this great book; my Monday night group and I are having some great discussions related to the daily musings both at the group and often during the week over coffee. All of us were quickly losing interest in the local meetings; *Beyond Belief: Agnostic Musings for 12 Step Life* gave all of us a much needed spark that has renewed our interest in the fellowship." Dr. Amy, MSW, PhD, adds, "One criticism of the 12 Step movement of course is that its dogma can be limiting-*Beyond Belief* seems to have addressed this. The quotes are cogent, the organization superb and the contributors are diverse." The book includes an index of over 120 topics, extensive notes and a bibliography.

Family Devotions

This is the 3rd edition of *The Proactive Twelve Steps*. This is an adaptation of the original Twelve Steps that describes the "steps" as a self-directed process-as opposed to a mystical process in which change somehow happens to you.

Zero to One: Notes on Startups, or How to Build the Future

Why have people from different cultures and eras formulated myths and stories with similar structures? What does this similarity tell us about the mind, morality, and structure of the world itself? From the author of *12 Rules for Life: An Antidote to Chaos* comes a provocative hypothesis that explores the connection between what modern neuropsychology tells us about the brain and what rituals, myths, and religious stories have long narrated. A cutting-edge work that brings together neuropsychology, cognitive science, and Freudian and Jungian approaches to mythology and narrative, *Maps of Meaning* presents a rich theory that makes the wisdom and meaning of myth accessible to the critical modern mind.

Living Beyond OCD Using Acceptance and Commitment Therapy

In *Beyond Belief*, renowned religion scholar Elaine Pagels continues her groundbreaking examination of the earliest Christian texts, arguing for an ongoing assessment of faith and a questioning of religious orthodoxy. Spurred on by personal tragedy and new scholarship from an international group of researchers, Pagels returns to her investigation of the “secret” Gospel of Thomas, and breathes new life into writings once thought heretical. As she arrives at an ever-deeper conviction in her own faith, Pagels reveals how faith allows for a diversity of interpretations, and that the “rogue” voices of Christianity encourage and sustain “the recognition of the light within us all.”

In Search of Certainty

You can't do it all and you don't have to try.

Finding God in Silicon Valley--Spiritual Journeys in a High-Tech World

Have you ever wondered if it is possible to be a conservative evangelical Christian and also believe in biological evolution-believe that the Earth is 4.5 billion years old and that human beings share a common ancestor with not only chimpanzees, but also with mice and even earthworms? In *Exploring Faith and Reason*, you will find that it is not only possible, it is an essential element of how many Christians come to more fully appreciate the complexity and the great glory of God's creation. Of course many people-Christians and non-Christians alike-think that Christianity and evolution are opposing concepts. They perceive several specific points of conflict between them. Bruce Glass addresses each of these concerns by citing Scripture and the world's most respected theologians and by the application of reason. *Revealed* is a deeper and richer understanding of Biblical Scripture and its history. But most importantly, readers will gain a greater appreciation of the power and the capabilities of a living God that transcends space and time, as this insight is united with the findings of science. Kirkus Reviews described *Exploring Faith and Reason* this way: "Smart, well-informed lucid, engaging Glass delivers a superb exposition of Darwinian theory and a meticulous, sharply reasoned discussion of the evidence that supports it. His logic is impeccable when he insists that evolutionary theory does not rule out the existence of God." Tremper Longman III, Ph.D., Robert H. Gundry Professor of Biblical Studies at Westmont College said, "As a non-scientist, I

found that Exploring Faith and Reason presents an accessible, fascinating, and compelling presentation of evolution. As a biblical scholar, I appreciate Glass' grasp of theological issues and the biblical text. His conclusion that evolution and Christianity are compatible is a crucial message for the church today." Peter Enns, Ph.D., Professor of Christian Studies at Eastern University said, "Glass has provided a thorough look at the evidence and the processes of evolution, along side a compelling case for its compatibility with Christianity. His theological analysis is very sound as he addresses several of the commonly perceived points of tension between the Christian faith and evolution. For a thorough understanding of these issues, this book is among the very best resources available." Reverend Jordan Ogden, Lead Pastor at Antioch Community Church in Dallas, said: "Mr. Glass tackles a historically controversial topic with finesse. Wherever one may be on the issue of evolution, Glass' superb scholarship and unbiased commentary on issues of faith does not disappoint." Reverend Dr. Kristin Huffman, Associate Pastor at Memorial Drive Presbyterian Church in Houston, said: "Bruce Glass has provided a thought provoking look at the most significant theological issues arising from the advent of evolutionary science. Whatever their conclusions, readers will find Mr. Glass' treatment a welcome reminder of the richness and depth of God's Word, as well as a fresh perspective on God's glorious creation." ForeWord Clarion Reviews described it as, "Well written, thoroughly researched, and honestly fair The book's thorough and eminently readable scientific explanations provide general science readers with a lucid understanding of this complex subject." Reverend Michael Dowd, author of Thank God for Evolution, endorsed by six Nobel Prize-winning scientists and by religious leaders across the spectrum, said that, "In Exploring Faith and Reason. Bruce Glass has emerged as a fresh voice for the reconciliation of head and heart. Couched in the language and theology of conservative evangelical Christianity, Mr. Glass' book provides a welcomed bridge between an evidential worldview and traditional Christian conviction. Believers and non-believers alike will find much of value in these pages."
