Take Me to Bed

Bas: Meadow is off-limits. She's my tenant, my friend, and most importantly, a woman who has her shit together when I famously do not. But in the dark of night, when the filthiest of fantasies take over, it's her soft, curvy body I'm tying up, holding down, and dominating. So I throw myself into yet another new project—a Halloween street party. It's supposed to be clean and wholesome, but with each planning session, a little bit of kink slides in. And my depravity is just twisted enough that I start to imagine the good doctor is enjoying the double entendres. Meadow: I've been keeping a secret from Bas since the moment I met him, and everything that's happened since then—our friendship, my inappropriate crush, the fact that I moved into the apartment over his bar—is tainted by that lie. I need to confess everything, and I will, after Halloween. Because there's no way I'm going to miss the hottest party of the year—or lose what might be my only chance to explore the hidden side of my desires I've never been brave enough to let loose before. . . . THE HALLOWEEN STREET PARTY RULES: * No nudity. Leave your undies on when you climb onto the spanking bench! * Adults only, please. The entire street is licensed for liquor and inappropriate language. * Whatever you do, don't fall in love with your best friend. The costumes aren't real, and the feelings are fragile.

A bodyguard, a beauty, and a bet. "I'm hiring you to do more than guard her, Zander," my new boss explained. "You're gonna be her rock. Her human Valium. Her trusted friend. And she's gonna be your mission from God." "So I'm her babysitter?" "Her babysitter, her bodyguard, her f*cking service doggie. Whatever she needs or wants, that's what you'll be. Anything except her booty call." The vein in my new boss's neck bulged. "Touch her and I'll do more than fire your ass, Zander. I'll rip off your balls." My buddies laughed when I told them about my ridiculous new job. They said, "Three months on a tour with a world famous beauty, glued to her hip, catering to her every whim? A hundred bucks says you're gonna break down and bang her within the first month." But I said nope. No way. Never. "I'm a professional," I said. "Plus, she's not even my type. And I'm just getting over a broken heart. It's never gonna happen." So I put my money where my mouth was, figuring I'd laugh all the way to the bank. I never thought I'd actually fall in love with the girl. Or that she'd become my reason for breathing. The job, the bet, the girl. It was nothing but fun and games . . . until it became dead serious. *MISTER BODYGUARD* is a standalone, friends to lovers contemporary romance in the *MORGAN BROTHERS SERIES* from USA Today Bestselling Author Lauren Rowe. De Jure Praedae Commentarius

This book reviews the history of the United States-Liberia relations from the early 1820s to 2015, with particular attention paid to the role of the US armed forces. Contrary to most literature on the genesis and development of Liberia, this book demonstrates how US military power has been the primary influence shaping Liberia's history. This includes the role played by the US military in the founding of Liberia, the protection of the country during the European formal colonial era, multiple covert operations in securing US-friendly administrations in Liberia, and direct military interventions when necessary to secure American interests in the region.

This textbook provides an introduction to the social and policy issues which have arisen as a result of information technology. Whilst it assumes a modest familiarity with computers, its aim is to provide a guide to the issues suitable for

undergraduates. In doing so, the author prompts the students to consider questions such as: "What are the moral codes of cyberspace?" Throughout, the book shows how in many ways the technological development is outpacing the ability of our legal systems to keep up, and how different paradigms applied to ethical questions may often offer conflicting conclusions. As a result students will find this to be a thought-provoking and valuable survey.

Romance Your Brand: Building a Marketable Genre Fiction Series

A classic and impassioned account of the first revolution in the Third World. This powerful, intensely dramatic book is the definitive account of the Haitian Revolution of 1794-1803, a revolution that began in the wake of the Bastille but became the model for the Third World liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of master toward slave was commonplace and ingeniously refined. And it is the story of a barely literate slave named Toussaint L'Ouverture, who led the black people of San Domingo in a successful struggle against successive invasions by overwhelming French, Spanish, and English forces and in the process helped form the first independent nation in the Caribbean.

Black Morocco: A History of Slavery, Race, and Islam chronicles the experiences, identity and achievements of enslaved black people in Morocco from the sixteenth century to the beginning of the twentieth century. Chouki El Hamel argues that we cannot rely solely on Islamic ideology as the key to explain social relations and particularly the history of black slavery in the Muslim world, for this viewpoint yields an inaccurate historical record of the people, institutions and social practices of slavery in Northwest Africa. El Hamel focuses on black Moroccans' collective experience beginning with their enslavement to serve as the loyal army of the Sultan Isma'il. By the time the Sultan died in 1727, they had become a political force, making and unmaking rulers well into the nineteenth century. The emphasis on the political history of the black army is augmented by a close examination of the continuity of black Moroccan identity through the musical and cultural practices of the Gnawa.

When in 1821, the Greeks rose in violent revolution against the rule of the Ottoman Turks, waves of sympathy spread across Western Europe and the United States. More than a thousand volunteers set out to fight for the cause. The Philhellenes, whether they set out to recreate the Athens of Pericles, start a new crusade, or make money out of a war, all felt that Greece had unique claim on the sympathy of the world. As Byron wrote, 'I dreamed that Greece might Still be Free'; and he died at Missolonghi trying to translate that dream into reality. William St Clair's meticulously researched and highly readable account of their aspirations and experiences was hailed as definitive when it was first published. Long out of print, it remains the standard account of the Philhellenic movement and essential reading for any students of the Greek War of Independence, Byron, and European Romanticism. Its relevance to more modern ethnic and religious conflicts is becoming increasingly appreciated by scholars worldwide. This new and revised edition includes a new Introduction by Roderick Beaton, an updated Bibliography and many new illustrations.

The Early History of Rome

"This splendid work of scholarship . . . sums up with economy and power all that the written record so far deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria."—Edward B. Garside, *New York Times Book Review* Ancient Mesopotamia—the area now called Iraq—has received less attention than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. "To any serious student of Mesopotamian civilization, this is one of the most valuable books ever written."—Leonard Cottrell, *Book*

Ammianus Marcellinus was the last great Roman historian, and his writings rank alongside those of Livy and Tacitus. The *Later Roman Empire* chronicles a period of twenty-five years during Marcellinus' own lifetime, covering the reigns of Constantius, Julian, Jovian, Valentinian I, and Valens, and providing eyewitness accounts of significant military events including the Battle of Strasbourg and the Goth's Revolt. Portraying a time of rapid and dramatic change, Marcellinus describes an Empire exhausted by excessive taxation, corruption, the financial ruin of the middle classes and the progressive decline in the morale of the army. In this magisterial depiction of the closing decades of the Roman Empire, we can see the seeds of events that were to lead to the fall of the city, just twenty years after Marcellinus' death.

Keeper of the Lost Cities

It is a history of the Byzantine emperors during the century leading up to Psellos' own time. It covers the reigns of fourteen emperors and empresses, beginning with the almost 50-year-long reign of Basil II, the "Bulgar-Slayer" (976–1025), and ending some time during the reign of Michael VII Doukas (1071–1078). Unlike most other historiographical works of the period, it places much more emphasis on the description of characters than on details of political and military events. It also includes very extensive autobiographical elements about Psellos' political and intellectual development, and it gives far greater weight to those periods when Psellos held an active position in politics, giving the whole work almost the character of political memoirs. It is believed to have been written in two parts. The first covers the emperors up to Isaac I Komnenos. The second, which has a much more strongly apologetic tone, is in large parts an encomium on Psellus' current protectors, the emperors of the Doukas dynasty.

History of the Franks

Livy (c. 59 BC-AD 17) dedicated most of his life to writing some 142 volumes of history, the first five of which comprise The Early History of Rome. With stylistic brilliance, he chronicles nearly 400 years of history, from the founding of Rome (traditionally dated to 757 BC) to the Gallic invasion in 386 BC - an era which witnessed the reign of seven kings, the establishment of the Republic, civil strife and brutal conflict. Bringing compelling characters to life, and re-presenting familiar tales - including the tragedy of Coriolanus and the story of Romulus and Remus - The Early History is a truly epic work, and a passionate warning that Rome should learn from its history.

Acclaimed worldwide as the definitive biography of the Prophet Muhammad in the English language, Martin Lings' *Muhammad: His Life Based to the Earliest Sources* is unlike any other. Based on Arabic sources of the eighth and ninth centuries, of which some important passages are translated here for the first time, it owes the freshness and directness of its approach to the words of men and women who heard Muhammad speak and witnessed the events of his life. Martin Lings has an unusual gift for narrative. He has adopted a style which is at once extremely readable and reflects both the simplicity and grandeur of the story. The result is a book which will be read with equal enjoyment by those already familiar with Muhammad's life and those coming to it for the first time. *Muhammad: His Life Based to the Earliest Sources* was given an award by the government of Pakistan, and selected as the best biography of the Prophet in English at the National Seerat Conference in Islamabad in 1983.

Throughout his career, Eduardo Galeano has turned our understanding of history and reality on its head. Isabelle Allende said his works “invade the reader's mind, to persuade him or her to surrender to the charm of his writing and power of his idealism.” *Mirrors*, Galeano's most ambitious project since *Memory of Fire*, is an unofficial history of the world seen through history's unseen, unheard, and forgotten. As Galeano notes: “Official history has it that Vasco Núñez de Balboa was the first man to see, from a summit in Panama, the two oceans at once. Were the people who lived there blind??” Recalling the lives

of artists, writers, gods, and visionaries, from the Garden of Eden to twenty-first-century New York, of the black slaves who built the White House and the women erased by men's fears, and told in hundreds of kaleidoscopic vignettes, *Mirrors* is a magic mosaic of our humanity.
