Nelson and His Companions in Arms

On a hot summer's day in Montana, a daring frontier cavalry officer, Powhatan Henry Clarke, died at the height of his promising career. A member of the U.S. Military Academy's Class of 1884, Clarke graduated dead last, and while short on academic application, he was long on charm and bravado. Clarke obtained a commission with the black troops of the Tenth Cavalry, earning his spurs with these "Buffalo Soldiers." He evolved into a fearless field commander at the troop level, gaining glory and first-hand knowledge of what it took to campaign in the West. During his brief, action-packed career, Clarke saved a black trooper's life while under Apache fire and was awarded the Medal of Honor. A chance meeting brought Clarke together with artist Frederic Remington, who brought national attention to Clarke when he illustrated the exploit for an 1886 Harper's Weekly. The officer and artist became friends, and Clarke served as a model and consultant for future artwork by Remington. Remington's many depictions of Clarke added greatly to the cavalryman's luster. In turn, the artist gained fame and fortune in part from drawing on Clarke as his muse. The story of these two unlikely comrades tells much about the final stages of the Wild West and the United States' emergence on the international scene. Along the way Geronimo, The Apache Kid, "Texas" John Slaughter, and others played their roles in Clarke's brief, but compelling drama.

The Greater Journey

From Alexander von Humboldt to Charles and Anne Lindbergh, these are stories of people of great vision and daring whose achievements continue to inspire us today, brilliantly told by master historian David McCullough. The bestselling author of Truman and John Adams, David McCullough has written profiles of exceptional men and women past and present who have not only shaped the course of history or changed how we see the world but whose stories express much that is timeless about the human condition. Here are Alexander von Humboldt, whose epic explorations of South America surpassed the Lewis and Clark expedition; Harriet Beecher Stowe, "the little woman who made the big war"; Frederic Remington; the extraordinary Louis Agassiz of Harvard; Charles and Anne Lindbergh, and their fellow long-distance pilots Antoine de Saint-Exupéry and Beryl Markham; Harry Caudill, the Kentucky lawyer who awakened the nation to the tragedy of Appalachia; and David Plowden, a present-day photographer of vanishing America. Different as they are from each other, McCullough's subjects have in common a rare vitality and sense of purpose. These are brave companions: to each other, to David McCullough, and to the reader, for with rare storytelling ability McCullough brings us into the times they knew and their very uncommon lives.

Inspired by tales of the hero Vilmund Vidutan and his fellow knights, Sigurd Jonsson and his young friends Ivar and Helge set out to reenact these exploits on their medieval Norwegian farm. They carve swords and lances and spend hours making shields. With a little imagination, a pasture becomes a battlefield, an old boar their greatest foe, and they pass many hours jousting and dueling. But when the summer is nearly over, the three boys stumble into real trouble and must prove their courage in an adventure all their own. Written during Sigrid Undset's time in New York, Sigurd and His Brave Companions will make medieval Norway come alive for young and old readers alike.

The United Service Magazine

The stunning story of one of America's great disasters, a preventable tragedy of Gilded Age America, brilliantly told by master historian David McCullough. At the end of the nineteenth century, Johnstown, Pennsylvania, was a booming coal-and-steel town filled with hardworking families striving for a piece of the nation's burgeoning industrial prosperity. In the mountains above Johnstown, an old earth dam had been hastily rebuilt to create a lake for an exclusive summer resort patronized by the tycoons of that same industrial prosperity, among them Andrew Carnegie, Henry Clay Frick, and Andrew Mellon. Despite repeated warnings of possible danger, nothing was done about the dam. Then came May 31, 1889, when the dam burst, sending a wall of water thundering down the mountain, smashing through Johnstown, and killing more than 2,000 people. It was a tragedy that became a national scandal. Graced by David McCullough's remarkable gift for writing richly textured, sympathetic social history, *The Johnstown Flood* is an absorbing, classic portrait of life in nineteenth-century America, of overweening confidence, of energy, and of tragedy. It also offers a powerful historical lesson for our century and all times: the danger of assuming that because people are in positions of responsibility they are necessarily behaving responsibly.

An American Library Association Notable Book and his first book for children, Erik Christian Haugaard's *Hakon of Rogen's Saga* is a remarkable novel that perfectly catches the mood of a harsh but heroic people. Set at the end of the Viking period, it tells of a young boy, Hakon, from the island of Rogen who, after his chieftain father is murdered, undertakes to reclaim his birthright from his treacherous uncle. The illustrations by renowned artists Leo and Diane Dillon make this captivating story come alive.

The Ladies' Companion

The National Book Award-winning biography that tells the story of how young Teddy Roosevelt transformed himself from a sickly boy into the vigorous man who would become a war hero and ultimately president of the United States, told by master historian David McCullough. *Mornings on Horseback* is the brilliant biography of the young Theodore Roosevelt. Hailed as "a masterpiece" (John A. Gable, *Newsday*), it is the winner of the Los Angeles Times 1981 Book Prize for Biography and the National Book Award for Biography. Written by David McCullough, the author of *Truman*, this is the story

of a remarkable little boy, seriously handicapped by recurrent and almost fatal asthma attacks, and his struggle to manhood: an amazing metamorphosis seen in the context of the very uncommon household in which he was raised. The father is the first Theodore Roosevelt, a figure of unbounded energy, enormously attractive and selfless, a god in the eyes of his small, frail namesake. The mother, Mittie Bulloch Roosevelt, is a Southerner and a celebrated beauty, but also considerably more, which the book makes clear as never before. There are sisters Anna and Corinne, brother Elliott (who becomes the father of Eleanor Roosevelt), and the lovely, tragic Alice Lee, TR's first love. All are brought to life to make "a beautifully told story, filled with fresh detail" (The New York Times Book Review). A book to be read on many levels, it is at once an enthralling story, a brilliant social history and a work of important scholarship which does away with several old myths and breaks entirely new ground. It is a book about life intensely lived, about family love and loyalty, about grief and courage, about "blessed" mornings on horseback beneath the wide blue skies of the Badlands.

The Cambridge Companion to Creative Writing

An American diplomat is forced to confront the devastation of her past when she is assigned to remote northern Afghanistan. Twenty-one years ago, diplomat Angela Morgan witnessed the death of her husband during the bombing of the U.S. Embassy in Beirut. Devastated by her loss, she fled back to America, where she hid in the backwaters of the State Department and avoided the high-profile postings that would advance her career. Now, with that career about to dead-end and no true connections at home, she must take the one assignment available-at a remote British army outpost in northern Afghanistan. Unwelcome among the soldiers and unaccepted by the local government and warlords, Angela has to fight to earn the respect of her colleagues, especially the enigmatic Mark Davies, a British major who is by turns her staunchest ally and her fiercest critic. Frustrated at her inability to contribute to the nation's reconstruction, Angela slips out of camp disguised in a burka to provide aid to the refugees in the war-torn region. She becomes their farishta, or "angel," in the local Dari language-and discovers a new purpose for her life, a way to finally put her grief behind her. Drawing on the experiences of the author as a diplomat in Afghanistan, Farishta is a deeply moving and fast-paced story of a woman

Sigurd and His Brave Companions

“The Companions is the best novel [R.A.] Salvatore has ever written. It’s insanely courageous, profoundly powerful, masterfully constructed, and easily Salvatore’s most ambitious work to date.”—Paul Goat Allen, BarnesandNoble.com “After a quarter of a century, R.A. Salvatore just keeps getting better and better, and The Companions is another masterful leap forward for one of the greatest fantasy epics of all time.” —Philip Athans, best-selling author of Annihilation and The Haunting of Dragon’s Cliff This latest installment in New York Times best-selling author R.A. Salvatore's beloved fantasy saga, The Companions moves Salvatore's signature hero Drizzt into a new era of the Forgotten Realms. As Drizzt's fate hangs in the balance, he reflects on the lives of the trusted allies who stood by his side throughout his early life--the friends now known as the Companions of the Hall. Meanwhile, the first stirrings of the Sundering begin.

The Last Dogs: Dark Waters

New York Times Bestseller: This retelling of the Greek myth of Theseus, king of Athens, is “one of the truly fine historical novels of modern times” (The New York Times). In myth, Theseus was the slayer of the child-devouring Minotaur in Crete. What the founder-hero might have been in real life is another question, brilliantly explored in The King Must Die. Drawing on modern scholarship and archaeological findings at Knossos, Mary Renault’s Theseus is an utterly lifelike figure—a king of immense charisma, whose boundless strivings flow from strength and weakness—but also one steered by implacable prophecy. The story follows Theseus’s adventures from Troizen to Eleusis, where the death in the book’s title is to take place, and from Athens to Crete, where he learns to jump bulls and is named king of the victims. Richly imbued with the spirit of its time, this is a page-turner as well as a daring act of imagination. Renault’s story of Theseus continues with the sequel The Bull from the Sea. This ebook features an illustrated biography of Mary Renault including rare images of the author.

Sigurd and His Brave Companions

Our feline companions are much-loved but often mysterious. In *The Inner Life of Cats*, Thomas McNamee blends scientific reportage with engaging, illustrative anecdotes about his own beloved cat, Augusta, to explore and illuminate the secrets and enigmas of her kind. As it begins, *The Inner Life of Cats* follows the development of the young Augusta while simultaneously explaining the basics of a kitten's physiological and psychological development. As the narrative progresses, McNamee also charts cats' evolution, explores a feral cat colony in Rome, tells the story of Augusta's life and adventures, and consults with behavioral experts, animal activists, and researchers, who will help readers more fully understand cats. McNamee shows that with deeper knowledge of cats' developmental phases and individual idiosyncrasies, we can do a better job of guiding cats' maturation and improving the quality of their lives. Readers' relationships with their feline friends will be happier and more harmonious because of this book.

A Storm of Swords

The #1 New York Times bestseller by Pulitzer Prize-winning historian David McCullough rediscovers an important chapter in the American story that's "as resonant today as ever" (The Wall Street Journal)—the settling of the Northwest Territory by courageous pioneers who overcame incredible hardships to build a community based on ideals that would define our country. As part of the Treaty of Paris, in which Great Britain recognized the new United States of America, Britain ceded the land that comprised the immense Northwest Territory, a wilderness empire northwest of the Ohio River containing the future states of Ohio, Indiana, Illinois, Michigan, and Wisconsin. A Massachusetts minister named Manasseh Cutler was instrumental in opening this vast territory to veterans of the Revolutionary War and their families for settlement. Included in the Northwest Ordinance were three remarkable conditions: freedom of religion, free universal education, and most importantly, the prohibition of slavery. In 1788 the first band of pioneers set out from New England for the Northwest Territory under the leadership of Revolutionary War veteran General Rufus Putnam. They settled in what is now Marietta on the banks of the Ohio River. McCullough tells the story through five major characters: Cutler and Putnam; Cutler's son Ephraim; and two other men, one a carpenter turned architect, and the other a physician who became a prominent pioneer in American science. "With clarity and incisiveness, [McCullough] details the experience of a brave and broad-minded band of people who crossed raging rivers, chopped down forests, plowed miles of land, suffered incalculable hardships, and braved a lonely frontier to forge a new American ideal" (The Providence Journal). Drawn in great part from a rare and all-but-unknown collection of diaries and letters by the key figures, *The Pioneers* is a uniquely American story of people whose ambition and courage led them to remarkable accomplishments. "A tale of uplift" (The New York Times Book Review), this is a quintessentially American story, written with David McCullough's signature narrative energy.

The Routledge Companion to Automobile Heritage, Culture, and Preservation explores automotive heritage, its place in society, and the ways we might preserve and conserve it. Drawing on contributions from academics and practitioners around the world and comprising six sections, this volume carries the heritage discourse forward by exploring the complex

and sometimes intricate place of automobiles within society. Taken as a whole, this book helps to shape how we think about automobile heritage and considers how that heritage explores a range of cultural, intellectual, emotional, and material elements well outside of the automobile body itself. Most importantly, perhaps, it questions how we might better acknowledge the importance of automotive heritage now and in the future. The Routledge Companion to Automobile Heritage, Culture, and Preservation is unique in that it juxtaposes theory with practice, academic approaches with practical experience, and recognizes that issues of preservation and conservation belong in a broad context. As such, this volume should be essential reading for both academics and practitioners with an interest in automobiles, cultural heritage, and preservation.

Farishta

The Pulitzer Prize-winning biography of Harry S. Truman, whose presidency included momentous events from the atomic bombing of Japan to the outbreak of the Cold War and the Korean War, told by America's beloved and distinguished historian. The life of Harry S. Truman is one of the greatest of American stories, filled with vivid characters—Roosevelt, Churchill, Stalin, Eleanor Roosevelt, Bess Wallace Truman, George Marshall, Joe McCarthy, and Dean Acheson—and dramatic events. In this riveting biography, acclaimed historian David McCullough not only captures the man—a more complex, informed, and determined man than ever before imagined—but also the turbulent times in which he rose, boldly, to meet unprecedented challenges. The last president to serve as a living link between the nineteenth and the twentieth centuries, Truman's story spans the raw world of the Missouri frontier, World War I, the powerful Pendergast machine of Kansas City, the legendary Whistle-Stop Campaign of 1948, and the decisions to drop the atomic bomb, confront Stalin at Potsdam, send troops to Korea, and fire General MacArthur. Drawing on newly discovered archival material and extensive interviews with Truman's own family, friends, and Washington colleagues, McCullough tells the deeply moving story of the seemingly ordinary "man from Missouri" who was perhaps the most courageous president in our history.

Truman

The #1 bestseller that tells the remarkable story of the generations of American artists, writers, and doctors who traveled to Paris, the intellectual, scientific, and artistic capital of the western world, fell in love with the city and its people, and changed America through what they learned, told by America's master historian, David McCullough. Not all pioneers went west. In *The Greater Journey*, David McCullough tells the enthralling, inspiring—and until now, untold—story of the adventurous American artists, writers, doctors, politicians, and others who set off for Paris in the years between 1830 and 1900, hungry to learn and to excel in their work. What they achieved would profoundly alter American history. Elizabeth Blackwell, the first female doctor in America, was one of this intrepid band. Another was Charles Sumner, whose encounters with black students at the Sorbonne inspired him to become the most powerful voice for abolition in the US Senate. Friends James Fenimore Cooper and Samuel F. B. Morse worked unrelentingly every day in Paris, Morse not only painting what would be his masterpiece, but also bringing home his momentous idea for the telegraph. Harriet Beecher Stowe traveled to Paris to escape the controversy generated by her book, *Uncle Tom's Cabin*. Three of the greatest American artists ever—sculptor Augustus Saint-Gaudens, painters Mary Cassatt and John Singer Sargent—flourished in Paris, inspired by French masters. Almost forgotten today, the heroic American ambassador Elihu Washburne bravely remained at his post through the Franco-Prussian War, the long Siege of Paris, and the nightmare of the Commune. His vivid diary account of the starvation and suffering endured by the people of Paris is published here for the first time. Telling their stories with power and intimacy, McCullough brings us into the lives of remarkable men and women who, in Saint-Gaudens' phrase, longed “to soar into the blue.
