With this volume, Greimas gives voice to the cultural memory of his people. He is both storyteller and explicator, deciphering the symbolic world of Lithuanian mythology. This first English translation of *Apie Dievus ir žmones* is a brilliant convergence of Greimas's historical and folkloric studies. Greimas examines the origins of ancient deities; discusses the concepts of life and death, fate and fortune; looks at codes used by farmers to organize systems of mutual obligations and implicit contracts; examines pranks and games associated with agrarian seasonal changes; and discusses the semantic reconstruction of the names and functions of several deities. Emphasizing the historic dimension of myth analysis, Greimas assembles concepts and deities from scattered texts, integrating them into their Lithuanian cultural context. This study of mythology is his archeology of culture.

Extensively revised, this survey of Roman history takes readers on a fascinating journey from prehistoric Italy to the death of Justinian (565 A.D.). Centered around a traditional political and military narrative core, it presents in-depth coverage of social, economic, and cultural developments, making continual references throughout of supporting evidence and providing up-to-date explanations based on the evidence and current scholarship. Considers new archaeological evidence, advances in historical demography, and recently excavated and restudied artifacts to shed new light on our understanding of the origins and early development of Rome. Provides source analyses at the beginning of all major chronological periods, constant cross-references to other relevant pages, and chronological reminders to keep readers oriented. Rewrites sections on the Regal, early Republican, and late Imperial periods to incorporate latest research and provide more social and cultural history, with major sections added on women and the growth and impact of Christianity. Also includes additional, upgraded maps throughout. For historians.

""Many people express surprise," writes J. Donald Hughes, "when they are told that environmental problems existed in the ancient world; they are used to thinking of the environment as an exclusively modern concern. But an examination of the evidence shows that the Greeks and Romans not only suffered from some of the same predicaments that plague the present scene, but in many cases they were aware of them and commented on them."" "In Pan's Travail Hughes examines the environmental history of the classical period and argues that the decline of ancient civilizations resulted in part from exploitation of the natural world. Focusing on Greece and Rome, as well as on areas subject to their influences, Hughes offers a detailed look at the impact of humans and their technologies on the ecology of the Mediterranean basin. He explores the complex relationships of human culture and the environment with topics that include deforestation and overgrazing, soil erosion, depletion of wildlife and natural resources, pollution, and urban problems such as water supply and sewage disposal. He also compares the ancient world's environmental problems to those of other eras and discusses attitudes toward nature expressed in Greek and Latin literature."--BOOK JACKET.Title Summary field provided by Blackwell

TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language. The series publishes state-of-the-art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science. TRENDS IN LINGUISTICS considers itself a forum for cutting-edge research based on solid empirical data on language in its various manifestations, including sign languages. It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language. TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes, which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints. High quality standards are ensured through anonymous reviewing.
