Rock Climbing

Geotourism, as a form of sustainable geoheritage

tourism, was defined and developed, from the early 1990s, to contextualize modern approaches to geoconservation and physical landscape management. However, its roots lie in the late seventeenth century and the emergence of the Grand Tour and its domestic equivalents in the eighteenth century. Its participants and numerous later travellers and tourists, including geologists and artists, purposefully explored wild landscapes as 'geotourists'. The written and visual records of their observations underpin the majority of papers within this volume; these papers explore some significant geo-historical themes, organizations, individuals and locations across three centuries, opening with seventeenth century elite travellers and closing with modern landscape tourists. Other papers examine the resources available to those geotourists and explore the geotourism paradigm. The volume will be of particular interest to Earth scientists, historians of science, tourism specialists and general readers with an interest in landscape history.

Demonstrates safe climbing techniques, and tells how to transfer skills learned on practice walls to the outdoors

The Business of Adventure

Expedition to the Edge

With heart-pounding descriptions of avalanches and treacherous ascents, Barry Blanchard chronicles his transformation from a poor Metis (half-breed) kid from the wrong side of the tracks to one of the most

respected alpinists in the world. He describes early climbs attempted with nothing to guide him but written trail descriptions and the cajones of youth. He slowly acquires the skills, equipment and partners necessary to tackle more and more difficult climbs, farther and farther afield: throughout the Canadian Rockies, into Alaska and the French Alps and on to Everest, Peru, and the challenging mountains in Pakistan. From each he learns lessons that only nature and extreme endeavor can teach. This is the story of the culture of climbing in the days of punk rock and rock 'n' roll, accompanied by the rhythm of adrenaline and the arrogance of youth. It is a portrait of the power of the mountains to lift us - physically, emotionally, intellectually, spiritually - and the depths of relationships based on total trust in the person at the other end of a rope. Includes climbs with renowned alpinists such as Kevin Doyle, Mark Twight, David Cheesmond and Ward Robinson. 432 pages with photos and a playlist.

Controversial Issues in Adventure Education

Ecology and Wonder celebrates Western Canada's breathtaking landscape. The book makes several remarkable claims. The greatest cultural achievement in the mountain region of western Canada may be what has been preserved, not what has been developed. Protecting the spine of the Rocky

Mountains will preserve crucial ecological functions. Because the process of ecosystem diminshment and species loss has been slowed, an ecological thermostat has been kept alive. This may well be an important defence against future impacts of climate change in the Canadian West.

Tales & Trails

Mountain rescue in western Canada developed through the Canadian Pacific Railway's use of Swiss guides to enhance the climbing experience in the early 1900s. These guides brought their knowledge of mountain rescue to the Canadian Rockies. As climbing gained in popularity with the emerging middle classes after the Second World War, tragic accidents became more common. Two accidents in 1954/55 (the deaths of a group of female climbers from Mexico on Mt. Victoria and a group of Philadelphia schoolboys on Mt. Temple) forced the government to develop a professional mountain rescue team through the Park Warden Service under the tutelage of Walter Perren (a Swiss guide and the father of mountain rescue in Canada). Perren essentially turned cowboys into competent rescue personnel, and the story takes off from there. Following five principal men through the first 50 years of mountain rescue in Canada, *Guardians of the Peaks* also looks at all aspects of the rescue experience. It is the story of personal tragedy and the ability of individuals to cope with this stress-laced, demanding occupation.

Glaciers of North America

Story of two immigrant mountaineers and their idea to use a helicopter to access remote ski terrain, resulting in a successful company, Canadian Mountain Holidays.

At the Top

In this second edition mixed rock and ice climbs in the Canadian Rockies, Sean Isaac describes some of the world's most challenging routes. Whether you crave inverted trytooling, multi-pitch horror shows or safely-bolted moderates, Mixed Climbs in the Canadian Rockies has it all. Beginners and hardcore alike can explore 295 climbs from M4 to M12 described by one of Canada's leading climbers.

Handbook of the Canadian Rockies

Technical Skills for Adventure Programming will guide you in becoming an effective adventure educator teaching beginning-level outdoor adventure skills. This book allows you to tap into the knowledge and expertise of skilled instructors who present a lesson plan progression for mastering 12 popular outdoor adventure activities.

This book is for those in search of fun! Cowboy up at an authentic dude ranch; Horse pack with your spouse in Montana's rugged Bitterroot Wilderness; Bicycle through the beautiful vineyards of Napa Valley, Italy, or France; Drive a covered wagon pulled by a team of horses through the Teton wilderness of Wyoming; Plunge down the majestic Grand Canyon's Lava Falls the world's biggest whitewater; Feel the exhilaration, kayaking among Orcas on Alaska's Inside Passage or paddling the myriad of islands in the crystal clear waters of the Belize. Features 700 recreation providers.

A History of Canada's National Parks

Mountains have long held an appeal for people around the world. This book focusses on the diversity of perspectives, interaction and role of tourism within these areas. Providing a vital update to the current literature, it considers the interdisciplinary context of communities, the creation of mountain tourism experiences and the impacts tourism has on these environments. Including authors from Europe, Asia-Pacific and North America, the development, planning and governance issues are also covered.

Associations Canada

Who's Who of Canadian Women is a guide to the most powerful and innovative women in Canada. Celebrating the talents and achievement of over 3,700 women, Who's Who of Canadian Women includes women from all over Canada, in all fields,

including agriculture, academia, law, business, politics, journalism, religion, sports and entertainment. Each biography includes such information as personal data, education, career history, current employment, affiliations, interests and honours. A special comment section reveals personal thoughts, goals, and achievements of the profiled individual. Entries are indexed by employment of affiliation for easy reference. Published every two years, *Who's Who of Canadian Women* selects its biographees on merit alone. This collection is an essential resource for all those interested in the achievements of Canadian women.

Canadian Geographical Journal

Canadian rock climbing was born on the big flat face of Yamnuska. For more than 50 years aspiring youth and grizzled veterans have been putting up new routes on the south-facing slab that faces the sun and attracts climbers every month of the year. In the first-ever climbing guide to the Yam, you will find 115 routes described in detail and accompanied by maps and photographs. Yamnuska holds a special place in the hearts of people who seek adventure. Climbs range in grade from 5.5 through 5.12, and styles encompass the very bold to the more conservative. The cliff is steeped in history. There is a spiritual nature that is hard to explain, but many climbers have shared this feeling after a day scaling her lofty heights. Partnerships develop between friends and the mountain that can last a lifetime.

Appreciating Physical Landscapes

Chic Scott covers all aspects of the sport, ranging from the ski jumpers at Rossland in the 1890s to the birth of ski lodges and ski resorts to the heliskiers, loppet racers and snowboarders of today.

Yamnuska Rock

“The definitive guide to mountains and climbing . . .”—Conrad Anker For nearly 60 years it’s been revered as the “bible” of mountaineering—and now it’s even better than ever • The best-selling instructional text for new and intermediate climbers for more than half a century • New edition—fully updated techniques and all-new illustrations • Researched and written by a team of expert climbers Mountaineering: The Freedom of the Hills is the text beloved by generations of new climbers—the standard for climbing education around the world where it has been translated into 12 languages. For the all-new 9th Edition, committees composed of active climbers and climbing educators reviewed every chapter of instruction, and discussed updates with staff from the American Alpine Club (AAC), the American Institute for Avalanche Research and Education (AIARE), and the Access Fund. They also worked with professional members of the American Mountain Guides Association (AMGA), to review their work and ensure that the updated textbook includes the most current best practices for both alpine and rock climbing instruction. From gear selection to belay and repel techniques, from glacier travel to rope work, to

safety, safety, and more safety—there is no more comprehensive and thoroughly vetted training manual for climbing than the standard set by *Mountaineering: The Freedom of the Hills*, 9th Edition. Significant updates to this edition include:

- New alignment with AAC’s nationwide universal belay standard
- Expanded and more detailed avalanche safety info, including how to better understand avalanches, evaluate hazards, travel safely in avy terrain, and locate and rescue a fellow climber in an avalanche
- Newly revamped chapters on clothing and camping
- All-new illustrations reflecting the latest gear and techniques—created by artist John McMullen, former art director of *Climbing* magazine
- Review of and contributions to multiple sections by AMGA-certified guides
- Fresh approach to the Ten Essentials—now making the iconic list easier to recall

The New Advisor for Life

Technical Skills for Adventure Programming

Since moving to the Rockies of western Canada in 1984, Lynn Martel has spent countless hours and days exploring the mountain wilderness with her many experienced friends as well as some of the best known and well-informed professional guides in the outdoor adventure business. Waking up in tents and backcountry huts; hiking and skiing up valleys, over passes and across glaciers; rock climbing; mountain biking; caving; paddling and horseback riding have all become integral parts of Martel's life in the Mountain West. Since the mid-1990s, Martel has shared the beauty and the magic of the region's inspiring wilderness destinations through finely crafted tales of her own adventures and also those of the Rockies' most colourful and iconic adventure personalities. Her vast amount of experience and insight into the most popular activities available to tourists, locals and the most skilled and competent weekend warriors infuse this collection of 20 of her best adventure stories. Complete with colour photographs and maps, difficulty ratings, seasonal details and general information, these stories will inspire those seeking to experience adventures at their own level in and around Kananaskis Country, Canmore, Lake Louise and Banff, Yoho and Jasper national parks.

Canadian Geographic

Joint publication of the two associations. Topics include professionalism, mountain sense, client care,

terrain assessment, risk management, technical systems, application for guides, instructional techniques.

Powder Pioneers

Summits & Icefields 1

Winner of the Canadian Rockies Award at the 2005 Banff Mountain Book Festival, this comprehensive climber's guide and history of the 54 11,000-foot peaks in the Canadian Rockies celebrates in words and images these breathtaking summits and the wilderness settings over which they tower. This book uniquely captures and distills the lively and frequently forgotten accounts of the pioneering climbers and their various routes. Each entry provides a vivid description of the peak, an extensive history of the early ascents of it and a detailed description of moderate to intermediate routes, including access and approach information. Now extensively updated, the text is liberally illustrated with route and climbing photos, both contemporary and historical, and includes detailed area maps.

Annual Report - Ministry of Lands, Parks and Housing

Written with a sprightly sense of humor, *Glaciers of North America* is an intriguing, off-beat guide to glaciers.

Michael Keating's Cross-country Canada

Expert advice on building an unshakable foundation as a financial advisor to the elite The revised and updated edition of the definitive guide to growing and maintaining a financial advice firm, *The New Advisor for Life* explores the fallout of the market crash on up-and-coming advisors. With a particular focus on the generation X and Y concern with debt management and long-term investment, this new edition examines what young investors look for in an advisor. Today, more than ever, insight, analysis, and validation are valued, but to be truly successful, an advisor needs to walk the line between being well-informed but not appearing condescending. What today's investors want in a financial advisor is someone who can cut through the noise and clutter of the financial services industry and the mainstream media Covers the basics, from setting a client's investment goals, selecting complementary investments, and monitoring portfolio balance, to the advanced—developing a personal finance plan for your clients based on their specific needs Steve Gresham presents a 19-point checklist for financial advisors to offer their clients "life advice" Keeping clients engaged is more important than ever, and *The New Advisor for Life* gives the aspiring financial advisor the secrets to success normally reserved for the country's top firms.

Mixed Climbs in the Canadian Rockies

Summits & Icefields 2

RMB is pleased to present the third edition of *Summits and Icefields 1: Alpine Ski Tours in the Canadian Rockies*, one of our bestselling guidebooks. Researched and written by legendary alpinist Chic Scott, with the assistance of mountain guide Mark Klassen, this guidebook will continue to be the bible of ski mountaineers in the Rockies. There will be plenty of new tours in the book, particularly in newly developed areas where skiers can grab a few powder turns near the road. Information on other areas will be either greatly expanded or completely rewritten and updated. The entire book will be printed in colour, showcasing many mouthwatering ski images and destinations. Digital shaded maps prepared from satellite imagery will illustrate the routes and terrain and will allow this guidebook to set a new standard for ski guidebooks in North America. The companion volume, *Summits and Icefields 2: Alpine Ski Tours in the Columbia Mountains*, will appear in autumn 2012.

Climbing

Mountaineering: Freedom of the Hills

This new edition of *Summits & Icefields 2: Alpine Ski Tours in the Columbia Mountains* continues RMB's tradition of offering snow enthusiasts updated editions of our bestselling guidebooks. Researched and written by legendary alpinist Chic Scott, with the assistance of certified mountain guide Mark Klassen,

this guidebook—along with its companion volume *Summits & Icefields 1: Alpine Ski Tours in the Canadian Rockies* (RMB, 2011)—will continue to be the bibles for ski mountaineers looking to experience the winter grandeur of western Canada's mountain ranges. Completely revised and updated, this new edition will feature both classic and new tours, along with information on a variety of locations that has either been greatly expanded or freshly redone, including the ever-popular sections on Rogers Pass and the Bugaboos to Rogers Pass Traverse. With stunning, full-colour photos throughout and featuring digitally shaded maps prepared from satellite imagery, these new editions will set a unique standard for ski guidebooks in North America.

The 11,000ers of the Canadian Rockies

From skilled weekend warriors to internationally recognized stars of the professional adventure game, Lynn Martel has interviewed dozens of the most dynamic, creative and accomplished self-propelled adventurers of our time. In *Expedition to the Edge: Stories of Worldwide Adventure*, Martel has assembled 59 compelling and entertaining stories that uniquely capture the exploits, the hardships, the fears and the personal insights of a virtual who's who of contemporary adventurers as they explore remote mountain landscapes from the Rockies to Pakistan to Antarctica. Through candid and revealing conversations, Martel captures the joys, the motivations and the revelations of top climbers Sonnie Trotter, Sean Isaac, Raphael Slawinski and

Steph Davis; Himalayan alpinists Carlos Buhler, Marko Prezelj and Barry Blanchard; record-setting paraglider Will Gadd; Everest skier Kit Deslauriers; the conservationist duo Karsten Heuer and Leanne Allison as they follow a caribou herd for five months on foot across the Yukon; and Colin Angus on his two-year quest to become the first person to circumnavigate the world by human power.
