Essentials of Negotiation

Sport in the Middle East has become a major issue in global affairs. The contributors to this timely volume discuss the intersection of political and cultural processes related to sport in the region. Eleven chapters trace the historical institutionalization of sport and the role it has played in negotiating "Western" culture. Sport is found to be a contested terrain where struggles are being fought over the inclusion of women, over competing definitions of national identity, over preserving social memory, and over press freedom. Also discussed are the implications of mega-sporting events for host countries, and how both elite sport policies and sports industries in the region are being shaped. Sport, Politics and Society in the Middle East draws on academic disciplines from the humanities and social sciences to offer in-depth, theoretically grounded, and richly empirical case studies. It employs diverse research methodologies, from ethnography and in-depth interviews to archival research, to make a lasting contribution to this critical subject.

For many people "animal rights" suggests campaigns against factory farms, vivisection or other aspects of our woeful treatment of animals. Zoopolis moves beyond this familiar terrain, focusing not on what we must stop doing to animals, but on how we can establish positive and just relationships with different types of animals.

"Heather (North Korean Posters), a collector of North Korean and Vietnamese art, and Buchanan (Vietnam Zippos: American Soldiers' Engravings and Stories) here present full- and half-page reproductions of Communist propaganda posters printed in Vietnam from the 1960s to the present. Buchanan's discussions in the introductory essay on the printing methods and native materials used in wartime posters are especially captivating. The posters, captioned in English and German, are arranged into four subject groups: war; Ho Chi Minh and the Communist Party; agriculture; and education, population control, and voting. Because the material is organized by topic, it would have been helpful for the captions to include approximate dates. VERDICT An original and nicely produced book; recommended for students and lay readers with an interest in Vietnam or propaganda art. Eric Linderman, Euclid P.L., OH"--Library Journal Reviews.

Recent leading cases have demonstrated the urgent need to modernize the learning on breach of trust, which has lagged behind the flourishing scholarship on the creation of trusts. Since breach of trust or fiduciary duty occupies the centre of the legal stage, it comes as a surprise that, although one or two novelists have chosen 'Breach of Trust' as the title to their book, no lawyer has so far thought it necessary to produce a specialized work on the subject. To fill the gap, this book, written by a team of leading trust lawyers from a number of common law jurisdictions, investigates all the principal aspects of the subject. The nature of the trustee's duties and of the liability for breach is closely examined, and all available defences and excuses are reviewed. Two substantial chapters consider the consequences of assisting a breach or receiving trust property from a trustee acting in breach. The book closes with a critical overview of the entire topic. CONTENTS: 1 Robert Chambers 'Liability for Breach'; 2 Joshua Getzler 'The Duty of Care'; 3 Edwin Simpson 'The Conflict of Interest'; 4 David Fox 'Overreaching'; 5 Lionel Smith 'Property Transferred in Breach'; 6 Charles Mitchell 'Assistance'; 7 Peter Birks 'Receipt'; 8 James Penner 'Exemption clauses'; 9 John Lowry and Rod Edmunds 'Honest and Reasonable Breach'; 10 Jennifer Payne 'Consent'; 11 William Swadling 'Limitation'; 12 Gary Watt 'Laches, Estoppel and Election'; 13 David Hayton 'An Overview'.

This is Henri Nouwen's "secret journal." It was written during the most difficult period of his life, when he suddenly lost his self-esteem, his energy to live and work, his sense of being loved, even his hope in God. Although he experienced excruciating anguish and despair, he was still able to keep a journal in which he wrote a spiritual imperative to himself each day that emerged from his conversations with friends and supporters. For more than eight years, Henri Nouwen felt that what he wrote was too raw and private to share with others. Instead, he published *The Return of the Prodigal Son*, in which he expressed some of the insights gained during his mental and spiritual crisis. But then friends asked him, "Why keep your anguish hidden from the many people who have been nurtured by your writing? Wouldn't it be of consolation for many to know about the fierce inner battle that lies underneath so many of your spiritual insights?" For the countless men and women who have to live through the pain of broken relationships, or who suffer from the loss of a loved one, this book about the inner voice of love offers new courage, new hope, even new life. Blood Rites

This collection of translated tales is from the most famous work in all of Japanese classical literature—the Konjaku Monogatari Shu. This collection of traditional Japanese folklore is akin to the Canterbury Tales of Chaucer or Dante's Inferno—powerfully entertaining tales that reveal striking aspects of the cultural psychology, fantasy, and creativity of medieval Japan—tales that still resonate with modern Japanese readers today. The ninety stories in this book are filled with keen psychological insights, wry sarcasm, and scarcely veiled criticisms of the clergy, nobles, and peasants alike—suggesting that there are, among all classes and peoples, similar failings of pride, vanity, superstition and greed—as well as aspirations toward higher moral goals. This is the largest collection in English of the Konjaku Monogatari Shu tales ever published in one volume. It presents the low life and the high life, the humble and the devout, the profane flirting, farting and fornicating of everyday men and women, as well as their yearning for the wisdom, transcendence and compassion that are all part and parcel of our shared humanity. Stories Include: The Grave of Chopsticks Robbers Come to a Temple and Steal Its Bell The Woman Fish Peddler at the Guardhouse Fish are Turned into the Lotus Sutra A Dragon is Caught by a Tengu Goblin The Monk Tojo Predicts the Fall of Shujaku Gate Wasps Attack a Spider in Revenge

In Nashville, Tennessee lives a man, a recluse, a curmudgeonly highfalutin cartoonist-type who, as a young child, had a penchant for drawing and making up tall tales. It was at the tender age of 18 he turned his back on a promising career in adult film cinematography and followed his heart into the unrewarding comic book industry. Out of desperation, Eric kept drawing, painting, and then creating his own characters and worlds culminating with the beloved series, The Goon. The Art (and Many Other Mistakes) of Eric Powell sheds light on the deliberate and painstaking process of becoming a world-renowned comic book creator as recalled by the artist and a few of his delinquent friends. This extensive art book spotlights never-before-seen childhood drawings, early superhero test pages, film poster art, and the establishment of Powell's homegrown publishing house Albatross (Exploding) Funnybooks. It's also very funny.

The third edition of this acclaimed book continues to provide a discussion of key theoretical and policy issues in corporate finance law. It has been fully updated to reflect developments in the law and the markets. One of the book's distinctive features is its equal coverage of both the equity and debt sides of corporate finance law, and it seeks, where possible, to compare and contrast the two. This book covers a broad range of topics regarding the debt and equity-raising choices of companies of all sizes, from SMEs to the largest publicly traded enterprises, and the mechanisms by which those providing capital are protected. Each chapter provides a critical analysis of the present law to enable the reader to understand the difficulties, risks and tensions in this area, and the attempts by the legislature, regulators and the courts, as well as the parties involved, to deal with them. The book will be of interest to practitioners, academics and students engaged in the practice and study of corporate finance law.

An Introduction to Orthodontics

This—revised and enhanced—book examines the role of finance in supporting other functional areas while fostering an understanding of how financial decisions can create value. Corporate Finance covers areas related to estimating divisional cost of capital; executing a financing strategy; establishing debt and dividend policies consistent with the company's strategy and environment; choosing between dividends and stock repurchases; managing high growth and managing working capital. Its new topics include: - Corporate Financial Flexibility (Real options) - New Financial Instruments - Project Finance - Acquisitions and Control - Performance Measurement and Incentive Compensation The goal of this book is to provide a thorough understanding of how and why firms make their financial decisions the way they do and their impact on shareholder value. The central theme of the book is Value Based Management, which assumes that maximizing shareholder value is the governing objective of a firm. Each chapter of this new edition has detailed and real-life cases to help students easily understand and grasp concepts. The author has also provided the case-map of the Harvard Business School to make this book more user-friendly in classrooms. The inclusion of several new topics/cases, extensive pedagogical tools and a finance-for-non-finance approach make this book ideal for MBA/CA/CFA/ICWA students and executive education programs.

"Beautiful, classic recipes made with passion, by the man who taught me everything I know about Italian cooking." Jamie Oliver Gennaro shows you how to prepare good Italian food with minimum effort by letting the oven or hob do the work. Slow cooking draws out flavours and softens the texture of food to create delicious, impressive, often inexpensive meals with little fuss. There are casseroles and one-pots that slowly simmer to perfection, roasts that tenderize in the oven, soups that quietly bubble away on the hob, puddings such as meringues and fruit compotes, and breads that bake to light perfection. Gennaro is a traditional, rural Italian cook. He uses lots of inexpensive cuts of meat, as well as beans and pulses, which all benefit from slow cooking, so there is plenty for the thrifty home cook to choose from. This is classic Italian food, such as Roast leg of lamb with baby onions, Rich Tyrolean beef goulash, Lasagne and Meringue with zabaglione cream and custard, that takes the hard work out of preparing supper.

Step Up to What God Has Said in His Word The Two Kinds of Faith explains directly from the Scriptures what real faith is. This book is a must-read for anybody who desires a deeper walk with God. Read it expecting the Holy Spirit to reveal principles that are easily applicable to your life situations, bringing powerful results because the Word of God is true and practical. What are the two kinds of faith? 1. "Sense knowledge" faith, where we must see, hear, or touch to believe. 2. Real faith, where we do not see, hear, or touch, yet we believe--and receive. We might understand this difference intellectually. Yet if we're not actually applying it in our everyday lives, it can have serious consequences for our relationship with God and the effectiveness of our prayers. Some people lose faith altogether when they feel God has not heard their requests. Many whose prayer lives were ineffective have turned to philosophical and metaphysical cults. Unanswered prayers stand between the believer and a life of faith. No matter what we may think or feel in the natural, God's Word is true, and it is the only foundation for faith. To help us live in this reality, we must actively exercise faith rather than "hope." You never receive what you are "hoping" for. Hope is always in the future. But faith is now! As we become one with the Living Word in our

actions, faith will become an unconscious reality for us. We will never need to struggle to produce faith. We will only think of the need before us and God's ability to meet it. Real faith means acting on the Word, independent of any physical evidence. To believe is to step up to what God has said in His Word, and to have faith is to arrive there.
