The MacPherson strut is a type of automotive suspension system that uses the top of a telescopic damper as the upper steering pivot. It is widely used in the front suspension of modern vehicles and is named for American automotive engineer Earle S. MacPherson, who invented and developed the design.. Wikimedia Commons has media related to MacPherson struts.

On Deadline: White House Tuesday night, Nicolle Wallace called out former New Jersey governor Chris Christie for failing to criticize President Trump earlier in his presidency. Wallace has been one of the few Trump allies that has spoken out against Trump's efforts to overturn the election, but stayed silent through multiple scandals in the past. Wallace wondered if this might have something

## **List of fictional characters | Britannica**

Fable, narrative form, usually featuring animals that behave and speak as human beings, told in order to highlight human follies and weaknesses. A moral—or lesson for behaviour—is woven into the story and often explicitly formulated at the end. (See also beast fable.) The Western tradition of fable effectively begins with Aesop,...
