Medical Technology Assessment Directory

Annual alphabetical listing by names of grant programs. Entries give such information as amount of grant, subjects, restrictions, and requirements. Source is GRANTS database.

Medical and Health Information Directory

Directory of Biomedical and Health Care Grants 2004

Proposals That Work

Yearbook & Directory

Directory of Health Sciences Libraries in the United States, 1973

For the first time, a single reference identifies medical technology assessment programs. A valuable guide to the field, this directory contains more than 60 profiles of programs that conduct and report on medical technology assessments. Each profile includes a listing of report citations for that program, and all the reports are indexed under major subject headings. Also included is a cross-listing of technology assessment report citations arranged by type of technology headings, brief descriptions of approximately 70 information sources of potential interest to technology assessors, and addresses and descriptions of 70 organizations with memberships, activities, publications, and other functions relevant to the medical technology assessment community.

Soviet Biomedical Institutions

Subject Directory of Special Libraries and Information Centers 1988: Health sciences libraries

Peterson's Graduate Programs in Biomedical Engineering & Biotechnology, Chemical Engineering, and Civil & Environmental Engineering 2011

For the first time, based on an extensive survey conducted across the whole of Europe by the Association Descartes, the details of over 1,000 persons and organisations are now available. The Directory is broken down into 14 sections : the first section is devoted to European institutions; the next twelve cover each EEC country and list the names of persons and organisations involved in bioethics; a complementary listing covers indispensable persons or organisations; A reference work both for researchers and anybody concerned with bioethics.

Directory Of International Grants And Fellowships In The Health Sciences

Grants are supposed to enable work, not create more of it. You need a guide, a map, and the right tools for the job. Helping you from your earliest brainstorm to fully funded projects, this essential directory offers countless tips and resources for

anyone seeking funding for research, faculty development, dissertations, internships, scholarships and assistantships, facility and organizational support, conferences, and more. This latest edition covers over 2,300 funding sources from all levels of government, corporations, and foundations. Grants are supposed to enable work, not create more of it. You need a guide, a map, and the right tools for the job. Helping you from your earliest brainstorming to fully funded projects, this essential directory offers countless tips and resources for anyone seeking funding for research, faculty development, dissertations, internships, scholarships and assistantships, facility and organizational support, conferences, and more. This latest edition covers over 2,300 funding sources from all levels of government, corporations, and foundations. Each record includes: BL Grant title BL Description BL Requirements BL Amount BL Application deadline BL Contact information (phone, fax, and email) BL Internet access BL Sponsor name and address BL Samples of awarded grants (when available) Four indexes--subject, sponsoring organization, program type, and geographic--help you identify the right program quickly. Also included is A Guide to Proposal Planning and Writing, by Jeremy Miner and Lynn Miner, which offers essential tips on the grantseeking process.

Newsletters Directory

Serials Holdings List, UCLA Biomedical Library

More than 5,100 current programs from 1,880 sponsors, including U.S. and foreign foundations, corporations, government agencies, and other organizations.

Directory of Biomedical Institutions in the Union of Soviet Socialist Republics

Toxicology Research Projects Directory

Grants are supposed to enable work, not create more of it. You need a guide, a map, and the right tools for the job. Helping you from your earliest brainstorming to fully funded projects, this essential guide offers countless tips and resources for anyone seeking funding for research, faculty development, dissertations, internships, scholarships and assistantships, facility and organizational support, conferences, and more. This latest edition covers over 2,300 funding sources from all levels of government, corporations, and foundations.

Medical and Health Information Directory

Directory of Biomedical and Health Care Grants 2010

Peterson's Graduate Programs in Engineering & Applied Sciences contains a wealth of information on colleges and universities that offer graduate degrees in the fields of Aerospace/Aeronautical Engineering; Agricultural Engineering & Bioengineering; Architectural Engineering, Biomedical Engineering & Biotechnology; Chemical

Engineering; Civil & Environmental Engineering; Computer Science & Information Technology; Electrical & Computer Engineering; Energy & Power engineering; Engineering Design; Engineering Physics; Geological, Mineral/Mining, and Petroleum Engineering; Industrial Engineering; Management of Engineering & Technology; Materials Sciences & Engineering; Mechanical Engineering & Mechanics; Ocean Engineering; Paper & Textile Engineering; and Telecommunications. Up-to-date data, collected through Peterson's Annual Survey of Graduate and Professional Institutions, provides valuable information on degree offerings, professional accreditation, jointly offered degrees, part-time and evening/weekend programs, postbaccalaureate distance degrees, faculty, students, degree requirements, entrance requirements, expenses, financial support, faculty research, and unit head and application contact information. As an added bonus, readers will find a helpful "See Close-Up" link to in-depth program descriptions written by some of these institutions. These Close-Ups offer detailed information about the specific program or department, faculty members and their research, and links to the program Web site. In addition, there are valuable articles on financial assistance and support at the graduate level and the graduate admissions process, with special advice for international and minority students. Another article discusses important facts about accreditation and provides a current list of accrediting agencies.

Graduate Programs in Engineering & Applied Sciences 2011 (Grad 5)

The Serials Directory

Covering all aspects of the proposal process, from the most basic questions about form and style to the task of seeking funding, this Sixth Edition has been completely updated and revised to offer clear advice backed up with excellent examples.

Guide to American Directories

Descriptions of approximately 16,000 agencies, associations, institutions, publications, and services. Intended to be a comprehensive guide to public and private agencies involved with medicine in, for the most part, the United States. Includes some international organizations and foreign publications. Excludes medical equipment suppliers, testing laboratories, and special clinics. Arrangement under 36 sections, e.g., National and international associations, Poison control centers, Teaching hospitals, and Libraries and information centers. Each entry gives brief identifying information. Some sections have individual indexes.

Reporter

This unique, timesaving guide offers strategies for locating local and regional government information.

Medical and Health Information Directory

Washington Information Directory

Grants are supposed to enable work, not create more of it. You need a guide, a map, and the right tools for the job. Helping you from your earliest brainstorming to fully funded projects, this essential guide offers countless tips and resources for anyone seeking funding for research, faculty development, dissertations, internships, scholarships and assistantships, facility and organizational support, conferences, and more. This essential guide offers countless tips and resources for anyone seeking funding for research, faculty development, dissertations, internships, scholarships and assistantships, facility and organizational support, conferences, and more. This latest edition covers over 4,700 funding sources from all levels of government, corporations, and foundations. Three indexes subject, program type, and geographic help you identify the right program quickly. Each record includes: - Grant title - Description - Requirements - Amount - Application deadline - Contact information (phone, fax, and email) - Internet address - Sponsor name and address - Samples of awarded grants (when available)

European Directory of Bioethics

Peterson's Graduate Programs in Biomedical Engineering & Biotechnology, Chemical Engineering, and Civil & Environmental Engineering contains a wealth of information on colleges and universities that offer graduate degrees in these cutting-edge fields. The institutions listed include those in the United States, Canada, and abroad that are accredited by U.S. accrediting bodies. Up-to-date data, collected through Peterson's Annual Survey of Graduate and Professional Institutions, provides valuable information on degree offerings, professional accreditation, jointly offered degrees, part-time and evening/weekend programs, postbaccalaureate distance degrees, faculty, students, degree requirements, entrance requirements, expenses, financial support, faculty research, and unit head and application contact information. Readers will find helpful links to in-depth descriptions that offer additional detailed information about a specific program or department, faculty members and their research, and much more. In addition, there are valuable articles on financial assistance, the graduate admissions process, advice for international and minority students, and facts about accreditation, with a current list of accrediting agencies.

Corporate Giving Directory

1990: Includes U.S. and Canadian titles as well as foreign language titles with

information on price, frequency, and publisher name/address.

BoogarLists | Directory of Bio-Life Sciences Venture Capital

Contains more than 700 listings of health-related resources found on the Internet (in 1996) including tutorials, search tools, indexes of resources, directories, and instruction from health-related agencies, associations, hospitals, institutes, libraries, medical centers, medical schools, nursing schools, societies, and mailing lists. Subject areas include Allied Health, Dentistry, Diseases and Conditions, Education, Health Promotion, Medicine, Mental Health, Nursing, Public Health and more.

Federal Biotechnology Programs Directory

1996 Healthcare Internet Directory

"Contains descriptions of approximately 1200 Soviet biomedical institutions, including research, educational and service facilities, and learned societies". Broad arrangement by function. Entries include institution, address, divisions, and personnel. Miscellaneous indexes.

Directory of Biomedical and Health Care Grants

Now you can identify valuable links and contacts between your organization's leaders and the trustees, donors, officers, and directors of corporate foundations. This handy reference book provides complete profiles of the 1,000 largest corporate foundations and corporate direct giving programs in the U.S.-the funding sources that represent nearly \$5.6 billion in cash and nonmonetary support annually. Each company profiled makes contributions of at least \$200,000 annually, including nonmonetary support. Includes information on difficult-to-research direct giving programs that are not included on IRS Forms 990 or corporate annual reports. Listings include complete contact information, giving philosophy, application procedures, restrictions, and information on specific grants given. Fourteen indexes (eight devoted to corporations/foundations and six biographical) provide multiple access points to the data that helps you target specific philanthropic institutions and executives who can influence grant decisions. Corporate Giving Directory delivers the latest information on program priorities, giving preferences, evaluation criteria, corporate and foundation officers and directors, and all the other data you need to help your nonprofit organization gain a crucial edge as corporate philanthropy budgets tighten.
