transfer of understanding. How do social studies teachers maximize instruction to ensure students are prepared for an informed civic life? This book shows how the field is more than simply memorizing dates and facts—it encapsulates the skillful ability to conduct investigations, analyze sources, place events in historical context, and synthesize divergent points of view. Best practices for applying visible learning are presented through:

- A scaffolded approach including surface-level learning, deep learning, and transfer of learning
- Examples of strategies, lessons, and activities best suited for each level of learning
- Planning tools, rubrics, and templates to guide instruction

### **Legend**

A classic tale by Newbery Medalist Kate DiCamillo, America's beloved storyteller. One summer's day, ten-year-old India Opal Buloni goes down to the local supermarket for some groceries – and comes home with a dog. But Winn-Dixie is no ordinary dog. It's because of Winn-Dixie that Opal begins to make friends. And it's because of Winn-Dixie that she finally dares to ask her father about her mother, who left when Opal was three. In fact, as Opal admits, just about everything that happens that summer is because of Winn-Dixie. Featuring a new cover illustration by E. B. Lewis and an excerpt of Kate DiCamillo's newest novel, *Raymie Nightingale*.

The new kid in school needs a new name! Or does she? Being the new kid in school is hard enough, but what about when nobody can pronounce your name? Having just moved from Korea, Unhei is anxious that American kids will like her. So instead of introducing herself on the first day of school, she tells the class that she will choose a name by the following week. Her new classmates are fascinated by this no-name girl and decide to help out by filling a glass jar with names for her to pick from. But while Unhei practices being a Suzy, Laura, or Amanda, one of her classmates comes to her neighborhood and discovers her real name and its special meaning. On the day of her name choosing, the name jar has mysteriously disappeared. Encouraged by her new friends, Unhei chooses her own Korean name and helps everyone pronounce it—Yoon-Hey.

The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. And don't miss *On the Come Up*, Angie Thomas's powerful follow-up to *The Hate U Give*.

### **Carve the Mark**

A paradigm-shifting study of neurodivergent women—those with ADHD, autism, synesthesia, high sensitivity, and sensory processing disorder—exploring why these traits are overlooked in women and how society benefits from allowing their unique strengths to flourish. As a successful Harvard and Berkeley-educated writer, entrepreneur, and devoted mother, Jenara Nerenberg was shocked to discover that her “symptoms”—only ever labeled as anxiety—were considered autistic and ADHD. Being a journalist, she dove into the research and uncovered neurodiversity—a framework that moves away from pathologizing “abnormal” versus “normal” brains and instead recognizes the vast diversity of our mental makeups. When it comes to women, sensory processing differences are often overlooked, masked, or mistaken for something else entirely. Between a flawed system that focuses on diagnosing younger, male populations, and the fact that girls are conditioned from a young age to blend in and conform to gender expectations, women often don’t learn about their neurological differences until they are adults, if at all. As a result, potentially millions live with undiagnosed or misdiagnosed neurodivergences, and the misidentification leads to depression, anxiety, low self-esteem, and shame. Meanwhile, we all miss out on the gifts their neurodivergent minds have to offer. *Divergent Mind* is a long-overdue, much-needed answer for women who have a deep sense that they are “different.” Sharing real stories from women with high sensitivity, ADHD, autism, misophonia, dyslexia,

SPD and more, Nerenberg explores how these brain variances present differently in women and dispels widely-held misconceptions (for example, it's not that autistic people lack sensitivity and empathy, they have an overwhelming excess of it). Nerenberg also offers us a path forward, describing practical changes in how we communicate, how we design our surroundings, and how we can better support divergent minds. When we allow our wide variety of brain makeups to flourish, we create a better tomorrow for us all.

People think they ran away. Danny knows better. Because now the beast is after him. From the Hardcover edition.

### **The Divergent Companion**

New faith communities are appearing across the U.S.. Many of them bear little resemblance—on the surface—to ‘church’ in its conventional form. But when we look a little deeper we see striking continuity with the most deeply rooted practices of the Christian faith in community. What are those practices? What do these unconventional, alternative faith communities look like? How are they, perhaps, indicators of a hopeful new future for the church? And what can we learn from them? Authors Kara Brinkerhoff and Tim Shapiro spent more than a year researching and exploring these questions, closely examining the life of a dozen alternative faith communities across the country. They include new

monastic communities, food-oriented communities, affinity group communities, house churches, hybrid churches and others. They are creative, ingenious, innovative, clever, dynamic and transformative. But they represent human expressions of activities that have always been part of human religious congregations: hospitality, learning, storytelling, care, leadership, worship and honoring place. This fascinating book goes beyond simply analyzing current trends. It reveals how innovative Christians are engaging in time-honored practices, creating new types of communities, which will shape the church to come. Further, it shows us how we too might innovate while holding true to the essential practices of our gathered faith. This is an instructive picture of Christian community, past, present and future.

About the Novel: Divergent is a story about a dystopian society where members fall within a particular faction and one girl who falls among many. Beatrice Prior was born in the Abnegation faction. This faction believes in selflessness among everything else. But Beatrice never felt that she fit in. During testing, Beatrice discovers that she exhibits tendencies from three different factions: Abnegation, Erudite and Dauntless. This is unheard of and she is warned never to reveal that she is Divergent. At the choosing ceremony, Beatrice decides to become Dauntless, and changes her name to Tris. During the initiation process into this new faction, Tris learns more about herself and what it means to be Divergent, including the dangers that come with it. She soon discovers a plot hatched by the Erudite that threatens the very fabric of their peaceful society. Divergent is a tale of self-discovery, survival, and standing up for what you believe in. All of our content is aligned to your State Standards and are written to Bloom's Taxonomy.

What are "essential questions," and how do they differ from other kinds of questions? What's so great about them? Why should you design and use essential questions in your classroom? Essential questions (EQs) help target standards as you organize curriculum content into coherent units that yield focused and thoughtful learning. In the classroom, EQs are used to stimulate students' discussions and promote a deeper understanding of the content. Whether you are an Understanding by Design (UbD) devotee or are searching for ways to address standards—local or Common Core State Standards—in an engaging way, Jay McTighe and Grant Wiggins provide practical guidance on how to design, initiate, and embed inquiry-based teaching and learning in your classroom. Offering dozens of examples, the authors explore the usefulness of EQs in all K-12 content areas, including skill-based areas such as math, PE, language instruction, and arts education. As an important element of their backward design approach to designing curriculum, instruction, and assessment, the authors

- \*Give a comprehensive explanation of why EQs are so important;
- \*Explore seven defining characteristics of EQs;
- \*Distinguish between topical and overarching questions and their uses;
- \*Outline the rationale for using EQs as the focal point in creating units of study; and
- \*Show how to create effective EQs, working from sources including standards, desired understandings, and student misconceptions.

Using essential questions can be

and the Meaning of Living. Schumacher writes about man's relation to the world. man has obligations -- to other men, to the earth, to progress and technology, but most importantly himself. If man can fulfill these obligations, then and only then can he enjoy a real relationship with the world, then and only then can he know the meaning of living. Schumacher says we need maps: a "map of knowledge" and a "map of living." The concern of the mapmaker--in this instance, Schumacher--is to find for everything its proper place. Things out of place tend to get lost; they become invisible and their proper places end to be filled by other things that ought not be there at all and therefore serve to mislead. A Guide for the Perplexed teaches us to be our own map makers. This constantly surprising, always stimulating book will be welcomed by a large audience, including the many new fans who believe strongly in what Schumacher has to say.

In *Whistling Vivaldi*, described as a 'beautifully-written account' of the relationship between stereotypes and identity, Claude Steele offers a vivid first-person detailing of the research that brought him to his groundbreaking conclusions. Through the telling of dramatic personal stories, Dr. Steele shares the process of constructing and completing experiments and statistical studies that show that exposing subjects to stereotypes - merely reminding a group of female math majors about to take a math test, for example, that women are considered naturally inferior to men at math - impairs their performance in the area affected by the stereotype. Steele's conclusions shed new light on a host of American social phenomena, from the racial and gender gaps in standardized test scores to the belief in the superior athletic prowess of black men. As Homi Bhabha states, 'Steele's book is both urgent and important in understanding the tyranny of the stereotype and liberating ourselves from its derogatory, one-dimensional vision.' *Whistling Vivaldi* presents a new way of looking at identity and the way it is shaped by social expectations, and, in Richard Thompson Ford's words, 'offers a clear and compelling analysis and, better still, straightforward and practical solutions.'
