The Ride of My Life

Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive

delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the

album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of “Sexual Healing”—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff’s clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You’ll Never Eat Lunch in this Town Again* of the music industry.

Haynes has discovered all the problems that motorcycle owners could possibly encounter when rebuilding or repairing their bikes. Documenting the most common DIY fixes with hundreds of illustrations and step-by-step instructions, this compendium of repair, modification and troubleshooting advice is applicable to all domestic and import marques.

Building Handbook

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

This book explores the battleground between neoliberal capitalist development processes in Latin America and the challenges to these systems that can be found through innovative community-driven buen vivir/vivir bien initiatives. In the current climate of worldwide capitalist development, Latin America is caught between left-leaning proposals for progressive policies towards a more inclusive form of development, and the re-emergence of harsh austerity measures, neoliberal reforms and right-wing populism. Divided into two parts, this book first provides a retrospective analysis of the advance of resource-seeking 'extractive' capital across the continent since the 1990s. The second part goes on to focus on forward-looking challenges to neoliberal capitalist development, focusing in particular on

the indigenous notion of buen vivir/vivir bien – the concept of ‘living well’ in social solidarity and harmony with nature. Drawing on cases in Mexico and Venezuela, the book argues that it will be through these new approaches to social change that we will move beyond development as we know it towards a more inclusive form of ‘postdevelopment’. Looking hopefully towards this future of development, this collection offers an essential analysis of the vortex of social change currently consuming Latin America and will be key reading for advanced scholars and researchers in the fields of Development Studies, Latin America Studies, Politics, and Social Change.

I had seriously reached a point in my life where I wasn't scared of anything. Panic was replaced by awww, shit, how can I fix this before I hit the ground? Childhood for Mat Hoffman was packed with hazardous behavior and a constant searching for a new rush: sliding down the laundry chute, blatantly misusing a trampoline, leaping off the roof holding an umbrella, executing a two-story bomb drop into a swimming pool on a bike, and more. After experimenting with his bike on a plywood ramp at age eleven, Mat found his true calling. He became addicted to

aerials. By the time he was fourteen years old, Mat had earned national notoriety with his ramp skills and landed a factory sponsorship from Skyway Recreation. He was consumed by a love of bike riding, a passion that took him around the globe and beyond the limits of what people said was possible. Always pushing for more height or another way to turn air into art, he's shattered world records, conventional wisdom, and his own body in a quest to experience all that life has to offer. The price? More than a dozen major surgeries, fifty broken bones, countless concussions and knockouts -- Mat's sacrifices are evident in a medical file that's 400 pages thick. When the boom years of BMX freestyle bottomed out during a bike industry recession in the late 1980s, Mat's enthusiasm never wavered. To save his sport, he bought a semi truck when he was seventeen and became his own sponsor, spreading the word one demo at a time. He and his friends formed Hoffman Bikes and began running bike stunt contests. It was an era of progress for Mat as a rider, as he unveiled jawdropping tricks like the no-handed 540, backflip fakie, and flair, and became the first rider in action sports to pull a 900. In *The Ride of My Life*, Mat takes readers on his humorous, hardcore, harrowing journey to the top as a bike stunt pioneer, ten-time world champion, video game superstar, X Games ambassador, recreational ninja, and the most innovative rider to ever hit a ramp. He shares stories of the wild experiences he's had while touring with some of the best riders around -- Dennis McCoy, Dave Mirra, Rick Thorne, Kevin Robinson, Mike "Rooftop" Escamilla, and many others. Spanning two decades of action sports history, as Mat crosses paths with high-risk heroes like Tony Hawk,
