Guide to Managerial Communication

The Joint Commission Guide to Improving Staff Communication

Go beyond spreadsheets and tables and design a data presentation that really makes an impact. This practical guide shows you how to use Tableau Software to convert raw data into compelling data visualizations that provide insight or allow viewers to explore the data for themselves. Ideal for analysts, engineers, marketers, journalists, and researchers, this book describes the principles of communicating data and takes you on an in-depth tour of common visualization methods. You'll learn how to craft articulate and creative data visualizations with Tableau Desktop 8.1 and Tableau Public 8.1. Present comparisons of how much and how many Use blended data sources to create ratios and rates Create charts to depict proportions and percentages Visualize measures of mean, median, and mode Lean how to deal with variation and uncertainty Communicate multiple quantities in the same view Show how quantities and events change over time Use maps to communicate positional data Build dashboards to combine several visualizations

Communicating for Managerial Effectiveness

Business Driven Information Systems discusses various business initiatives first and how technology supports those initiatives second. The premise for this contemporary approach is that business initiatives should drive technology choices. Every discussion first addresses the business needs and then addresses the technology that supports those needs. This text provides the foundation that will enable students to achieve excellence in business, whether they major in operations management, manufacturing, sales, marketing, finance, human resources, accounting, or virtually any other business discipline. Business Driven Information Systems is designed to give students the ability to understand how information technology can be a point of strength for an organisation. BDIS 1e won the Australian Publishing Association award for Best Tertiary Teaching & Learning Package (Adaptation) of 2010. It has been described as "valuable student resource", which presents a "refreshing perspective" in which IT is "neatly and comprehensively integrated" throughout the textbook.

Writing Business Letters and Reports

If approximately 70 percent of all businesses are family businesses, and two out of three don't survive to the next generation, what can you do to make sure your business will survive and thrive? Dirty Little Secrets of Family Business comes clean with much-needed info on nitty-gritty issues such as entitlement; letting employees (even family members) go when they just aren't working out; compensation; including your kids in the business (when to bring them in, helping them move up, and prepping them to take over); shareholder agreements; selecting the next leader; deciding whether to keep the business or sell it; exit strategies for outgoing leaders; money matters; succession planning; communication; conflict resolution; establishing an effective board; and transitioning to the next generation. Readers can apply the numerous ideas and tips in this engaging guide to address any family business situation. Written for current and next-generation owners and utilizing multiple, firsthand stories of family business dos and don'ts, Dirty Little Secrets of Family Business gives you the top success strategies that you can use to build a better functioning family business. Acknowledging that every family is unique and a cookie-cutter approach is not the answer, experienced family business consultant Henry Hutcheson presents a deeper look at the underlying

This new edition of the Care of the Critically Ill Surgical Patient (CCrISP) course manual has been fully updated and revised by a multidisciplinary team of surgeons and anaesthetists. It remains true to the original aims of the course: to encourage trainees to take responsibility for critically ill patients, to predict and prevent problems that patients might encounter while in hospital, to function well within the surgical team and communicate effectively with colleagues from other disciplines. CCrISP is a valuable adjunct to traditional ward training and continues to provide young surgeons with the structure and confidence they require to safely and effectively care for their patients on the ward and in theatre. Designed to develop skills that are necessary in the management of critically ill patients, CCrISP integrates knowledge, practical skills, communication and leadership.

Book & CD. The ability to communicate well is a key marker of success in any environment, particularly in the world of work. This book is based on the widely used and respected "The Communication Handbook", written by a team of dedicated communicators and higher education specialists. Although the material has been substantially reworked and expanded, the focus remains on different forms of communication. The emphasis is placed on writing as a communication tool, particularly within the business environment. To support this, each chapter contains numerous exercises to enable the student to practise the skills learnt. An exciting addition to this text is the inclusion of online interactive exercises for students. The drilling exercises will enable students to reinforce the principles that have been explained and tested in the book, but in a fun, interactive and learning-enabled way. Lecturers can use the range of exercises to ensure that students are prepared before class and to reinforce the theories and techniques taught in the classroom. (The package is being piloted at a major South African university). The authors draw from substantial experience in the classroom and from close contact with business and industry. For that reason a student working through this book will be well prepared to communicate with success in the business environment.

The 13 chapters in this volume explore what is known and what still needs to be learned about the complex relationships between speaking and writing. The first chapter in the book provides a detailed overview of linguistic studies of oral and written language relationships. The next three chapters focus on the relationships between children's oral and written language skills and what these relationships imply about the teaching of writing and reading. Chapters five and six consider oral and written language in a societal context, while chapters seven, eight, and nine are concerned with methodological issues in the study of speaking-writing relationships, each suggesting a

way to broaden the understanding of these relationships. The next two chapters broaden the understanding of oral-written relationships by considering two special groups of individuals who often struggle to learn English--speakers of other languages and the profoundly deaf. The final two chapters focus on pedagogy, such as integrating speaking and writing in a business communications course. (RL)
