This proven, introductory chemistry text has been thoroughly enhanced to prepare your students for a general chemistry or general, organic, and biological chemistry course. With a logical organization and balanced treatment of concepts and practical applications, Chemistry: A First Course fosters a solid understanding of chemistry basics, rather than just memorization of facts. Throughout the text, concepts are reinforced by referring to material previously discussed. This respected author team's lively, conversational, and highly descriptive writing style will quickly engage your students and draw them into the world of chemistry.

Homework Helpers: Chemistry is a user-friendly review book that will make every student—or parent trying to help their child feel like he or she has a private Chemistry tutor. Concepts are explained in clear, easy-to-understand language, and problems are worked out with step-by-step methods that are easy to follow. Each lesson comes with numerous review questions and answer keynotes that explain each correct answer and why it's correct. This book covers all of the topics in a typical one-year Chemistry curriculum, including: A systematic approach to problem solving, conversions, and the use of units. Naming compounds, writing formulas, and balancing chemical equations. Gas laws, chemical kinetics, acids and bases, electrochemistry, and more. While Homework Helpers: Chemistry is an excellent review for any standardized Chemistry test, including the SAT-II, its real value is in providing support and guidance during the year's entire course of study.
