The Second Edition of *Theoretical Frameworks in Qualitative Research*, by Vincent A. Anfara, Jr. and Norma T. Mertz, brings together some of today's leading qualitative researchers to discuss the frameworks behind their published qualitative studies. They share how they found and chose a theoretical framework, from what discipline the framework was drawn, what the framework posits, and how it influenced their study. Both novice and experienced qualitative researchers are able to learn first-hand from various contributors as they reflect on the process and decisions involved in completing their study. The book also provides background for beginning researchers about the nature of theoretical frameworks and their importance in qualitative research; about differences in perspective

The World Health Organization estimates that 25 percent of common cancers can be prevented through regular physical activity and weight control. Common cancers linked to overweight/obesity and a sedentary lifestyle include breast, colon, endometrium, pancreas, renal, esophageal, and several others. There are several plausible mechanisms linking lack of physical activity and increased adiposity to cancer risk, supported by results from animal experiments and human intervention studies.

Ordinary Mind

The original *The Road Less Travelled* spent more than ten years on the bestseller lists and is one of the biggest-selling self-help books of all time. In this wonderfully wise and accessible sequel M. Scott Peck delves more deeply into the issues that confront and challenge all of us in the modern world: blame and forgiveness; sexuality and spirituality; death and the meaning of life; families and relationships; accepting responsibility and growing up. Writing throughout with insight and sensitivity, he draws on his own extensive experience -- both professional and personal -- to challenge false assumptions, suggest a way forward and demonstrate that personal change is always possible, no matter how difficult and complex the journey.

Golf and the Spirit

An Australian man, Adam White, finds himself in London working for an unidentified international organisation, work that brings him into intimate contact with good and evil, with life and death itself. His own life hangs in the balance. Can good ultimately triumph over evil? Can a good man do evil things? Does redemption lie at the end of the road less travelled?

A horn is an instrument either for protection or destruction. The "horn" in the Horn of Africa has for so long turned inward, and on its people, thus victimizing those it was supposed to defend. The ensuing internecine bloodletting has thrown the region into an abyss out of which it is still struggling to emerge. Much of the story of this abyss is captured in social, political, economic, and literary treatises written by indigenous and international experts. Rarely, however, has there been a single volume that brings together keen analyses of the expressive arts of Djibouti, Eritrea, Ethiopia, Somalia, and Sudan. *The Road Less Traveled* is the first book of its kind. It brings together in the same volume essays on the literatures of the Horn of Africa written by renowned regional and international scholars. All the countries in the region, their major writers, and the genres through which the people in the Horn express themselves are given careful attention. The volume also includes essays that traverse borders, and/or transgress generic delineations/delimitations. The essays in the volume attest to a simple fact, namely, that through the arts humans weave a labyrinthine system of symbolic representations that bear witness to lives lived or imagined. And while in the Horn of Africa catastrophes may abound, the calamity that besets this region can equally be explained through its antiphony: the perseverance and cosmic, albeit cautious, optimism of its people. A horn, after all, is also a way of making music.

My Life with Ndoto

Global economic activity is picking up with a long-awaited cyclical recovery in investment, manufacturing, and trade, according to Chapter 1 of this World Economic Outlook. World growth is expected to rise from 3.1 percent in 2016 to 3.5 percent in 2017 and 3.6 percent in 2018. Stronger activity, expectations of more robust global demand, reduced deflationary pressures, and optimistic financial markets are all upside developments. But structural impediments to a stronger recovery and a balance of risks that remains tilted to the downside, especially over the medium term, remain important challenges. Chapter 2 examines how changes in external conditions may affect the pace of income convergence between advanced and emerging market and developing economies. Chapter 3 looks at the declining share of income that goes to labor, including the root causes and how the trend affects inequality. Overall, this report stresses the need for credible strategies in advanced economies and in those whose markets are emerging and developing to tackle a number of common challenges in an integrated global economy.

This ambitious volume chronicles and analyzes from a critical globalization perspective the social, economic, and political changes sweeping across Latin America from the 1970s through the present day. Sociologist William I. Robinson summarizes his theory of globalization and discusses how Latin America's political economy has changed as the states integrate into the new global production and financial system, focusing specifically on the rise of nontraditional agricultural exports, the explosion of maquiladoras, transnational tourism, and the export of labor and the import of remittances. He follows with an overview of the clash among global capitalist forces, neoliberalism, and the new left in Latin America, looking closely at the challenges and dilemmas resistance movements face and their prospects for success. Through three case studies—the struggles of the region's indigenous peoples, the immigrants rights movement in the United States, and the Bolivarian Revolution in Venezuela—Robinson documents and explains the causes of regional socio-political tensions, provides a theoretical framework for understanding the present turbulence, and suggests possible outcomes to the conflicts. Based on years of fieldwork and empirical research, this study elucidates the tensions that globalization has created and shows why Latin America is a battleground for those seeking to shape the twenty-first century's world order.

Red Sands, the follow-up to Caroline Eden's multi-award-winning Black Sea, is a reimagining of traditional travel writing using food as the jumping-off point to explore Central Asia. In a quest to better understand this vast heartland of Asia, Caroline navigates a course from the shores of the Caspian Sea to the sun-ripened orchards of the Fergana Valley. A book filled with human stories, forgotten histories and tales of adventure, Caroline is a reliable guide using food as her passport to enter lives, cities and landscapes rarely written about. Lit up by emblematic recipes, Red Sands is an utterly unique book, bringing in universal themes that relate to us all: hope, hunger, longing, love and the joys of eating well on the road.

Interpretative Qualitative Research: Agency, Subjectivity, and Experience frames the concerns and processes of standard analytic induction, ethnomethodology, and symbolic interaction in terms of cutting-edge issues for contemporary qualitative research. It is the first book to demonstrate how interpretive paradigms for qualitative data analysis produce research findings that are rooted to significantly different understandings of personal agency and social structures; subjectivity and identity; and, the nature of human experience. Specifically, the book explores the analytical process, interpretative power, and political effects of these three styles of interpretative research. The result is a rich, pedagogical resource that explores not only how data is interpreted but also the kinds of problems, solutions, and questions that can be investigated.

A story of love, loss, and Land Rovers. Travel from Cape Town to Northern Kenya and back with the author and her husband in a 1973 Series III Land Rover, a quintessential African overland safari vehicle that screams adventure with every bump in the road and every broken leaf spring, . Their yearlong, 48,000 kilometer journey in Ndoto (Swahili for dream) takes them through South Africa's national parks and into Mugabe's Zimbabwe. They travel over the Kalahari in Botswana, and into the deserts and dunes of Namibia. Traveling up the Great North Road from Zambia to Tanzania, they dodge potholes, people, and sometimes Police. Dangerously lost in Burundi, they manage at last, after their gear stick shears off one day and the transmission dies the next, to summit the road to post-genocide Rwanda. Uganda brought more adventure and challenges when the author has to drive up an escarpment through Queen Elizabeth National Park--in reverse. War prevents the couple from entering South Sudan, the newest country in the world and their northernmost goal of the trip. Kenya is highlighted by memories of pomegranates and a visit to Lamu, an island that feels stuck, beautifully, in time. They are driven from from the pristine beaches of Malawi by monsoon rains and insect invasions and the author is brought to her knees in Mozambique after too much Peri-Peri and civil war conflict. Along the way, Ndoto is attacked by a honey badger, described as "Strong!" (even when she was limping) by almost everyone, including bribe-seeking police and more mechanics than the author can count. Not only will you feel you are along for the ride in this funny, insightful, and touching story, O'Kane also offers practical tips for overlanding, and shares how you can live your Safari Jema, your own good journey

People of the Lie

Now featuring a new introduction by Dr. M. Scott Peck, the twenty-fifth anniversary edition of the classic bestseller *The Road Less Traveled*, celebrated by *The Washington Post* as "not just a book but a spontaneous act of generosity." Perhaps no book in this generation has had a more profound impact on our intellectual and spiritual lives than *The Road Less Traveled*. With sales of more than seven million copies in the United States and Canada, and translations into more than twenty-three languages, it has made publishing history, with more than ten years on the *New York Times* bestseller list. Written in a voice that is timeless in its message of understanding, *The Road Less Traveled* continues to help us explore the very nature of loving relationships and leads us toward a new serenity and fullness of life. It helps us learn how to distinguish dependency from love; how to become a more sensitive parent; and ultimately how to become one's own true self. Recognizing that, as in the famous opening line of his book, "Life is difficult" and that the journey to spiritual growth is a long one, Dr. Peck never bullies his readers, but rather guides them gently through the hard and often painful process of change toward a higher level of self-understanding.

Exploring the Road Less Travelled

Red Sands

Confronting and solving problems is a painful process which most of us attempt to avoid. Avoiding resolution results in greater pain and an inability to grow both mentally and spiritually. Drawing heavily on his own professional experience, Dr M. Scott Peck, a psychiatrist, suggests ways in which facing our difficulties - and suffering through the changes - can enable us to reach a higher level of self-understanding. He discusses the nature of loving relationships: how to distinguish dependency from love; how to become one's own person and how to be a more sensitive parent. This is a book that can show you how to embrace reality and yet achieve serenity and a richer existence. Hugely influential, it has now sold over ten million copies - and has changed many people's lives round the globe. It may change yours.

The Road Less Traveled

Every year, millions of people visit the top tourist destinations in California and Nevada but often come away disappointed because of the crowds and congestion. This unique guide skips the usual tourist traps and focuses instead on out-of-the-way places that are just as fascinating and picturesque, but far less crowded and much more friendly. With wry humor, veteran travel writers Don and Betty Martin guide drivers to novel attractions along scenic routes, from a perfectly preserved 1930s beach resort to undiscovered wine country and uncrowded national parks. Along the way, they identify intriguing towns, museums, restaurants, and campgrounds and pinpoint the best hikes, bike rides, fishing spots, and rafting sites. For a Western driving vacation with lots of charm, this is an indispensable guide.
