An informative, go-to guide on common plastic surgery principles and practices
Plastic Surgery: A Practical Guide to Operative Care by Bruce Mast fills the gap between existing pocket handbooks and encyclopedic library shelf editions. Face of the Future

Your face defines you. It influences how people perceive you at work, at play, and even at home. But what if something about your face doesn't make you feel like the real you? In *The Park Avenue Face*, dual board-certified facial plastic and reconstructive surgeon Dr. Andrew Jacono reveals how to achieve flawless, undetectable plastic surgery so you can fix what you don't like, restore what you've lost, or prevent signs of aging. From his elite Park Avenue aesthetic surgery center, Dr. Jacono has enhanced tens of thousands of faces not by prescribing an arbitrary standard of beauty, but by amplifying each patient's individual beauty for totally natural results. A global authority in advanced facial plastic surgery, he has presented clinical research and conducted live surgery in front of peer audiences at over 100 plastic surgery symposiums around the world, including at Harvard, Yale and Stanford Universities. Now, he's ready to share his expertise with you. High-end Park Avenue clients want to fight the signs of aging while highlighting their best features. They want lips that look like their own lips, eyes that look like their own eyes. They want facial features in line with their ethnicities. Park Avenue clients want to look powerful yet approachable, wise yet fresh, and above all, natural. With Dr. Andrew Jacono's advice, you can have the Park Avenue Face no matter who you are or where you live. *The Park Avenue Face* also highlights a trend unique to the United States—a distinct difference between conceptions of beauty on the west coast versus the east coast. Where the West Coast Style is often about changing your personal signature, the East Coast Style prioritizes maintaining your personal signature. Through this up-close look at coastal trends, the reader will learn how to define and achieve a natural look—a face that reflects the person they have always been, and the person they strive to be, not someone

they don't recognize in the mirror. If you want a face with character and depth that looks ageless and don't want a stretched, artificial or generic look, Dr. Jacono will show you how to get there. If you are considering any kind of facial enhancement, from minor and non-invasive treatments such as simple injections or a laser treatment to more involved surgical procedures such as a full-on facelift, this is your resource. The Park Avenue Face will show you how to avoid the quacks, the fads, the financial waste, and the dangers. Dr. Jacono will help you determine how you want to look and how best to get there. Featuring fascinating patient anecdotes, dozens of before-and-after photographs showing what the various procedures can accomplish and line drawings by veteran medical illustrator William Winn, this comprehensive guide will fully prepare you to step into a doctor's office and discuss your facial enhancement options. You'll know how each treatment works, how long you will take to recover, and how much change you can expect. If there is something about your face you think is holding you back—decide if making a change is right for you. Let The Park Avenue Face guide you to becoming your best you.

A riveting debut novel set in contemporary Seoul, Korea, about four young women making their way in a world defined by impossible standards of beauty, after-hours room salons catering to wealthy men, ruthless social hierarchies, and K-pop mania "Powerful and provocative . . . a novel about female strength, spirit,

resilience—and the solace that friendship can sometimes provide.”—The Washington Post NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Time • NPR • Esquire • Bustle • BBC • New York Post • InStyle Kyuri is an achingly beautiful woman with a hard-won job at a Seoul “room salon,” an exclusive underground bar where she entertains businessmen while they drink. Though she prides herself on her cold, clear-eyed approach to life, an impulsive mistake threatens her livelihood. Kyuri’s roommate, Miho, is a talented artist who grew up in an orphanage but won a scholarship to study art in New York. Returning to Korea after college, she finds herself in a precarious relationship with the heir to one of the country’s biggest conglomerates. Down the hall in their building lives Ara, a hairstylist whose two preoccupations sustain her: an obsession with a boy-band pop star, and a best friend who is saving up for the extreme plastic surgery that she hopes will change her life. And Wonna, one floor below, is a newlywed trying to have a baby that she and her husband have no idea how they can afford to raise in Korea’s brutal economy. Together, their stories tell a gripping tale at once unfamiliar and unmistakably universal, in which their tentative friendships may turn out to be the thing that ultimately saves them.
