First Field Guide to Mushrooms of Southern Africa

Greater southern Africa has a wealth of mammal species, almost 400 - all of which are covered in this fully revised, comprehensive field guide. While the term 'African mammals' might conjure up the more celebrated species, such as elephant, lion, leopard or rhino, it is in fact the smaller animals - such as shrews, genets and bats - that comprise the bulk of the region's mammal species. Often overlooked but included here, are also the marine mammals - seals, whales and dolphins - that are found in our oceans. This new edition of Field Guide to Mammals of Southern Africa has been expanded to include species found in Angola, Zambia and Malawi. It has also been extensively revised to include the most recent research in terms of new findings and new taxonomy. Up-to-date information, revised distribution maps and new images (where available) have been combined in a modern, full-colour layout. Colour coding is used to group families, and spoor and size icons are included for quick reference with each mammal entry. Skull photographs have been grouped at the back of the book for easy comparison. In addition to detailed descriptions of each species, the text offers insight into key identification characters, typical behaviour, preferred habitat, food choice, reproduction and longevity.

from the Waterberg, was published in 2008. He has also co-authored *San Rock Art: A Field Guide* (2011). He lives in the eastern Waterberg with his wife Sarah and his two children, Kellen and Savannah. Tony Reumerman was born and raised on the Highveld of South Africa and from an early age developed an interest in bird, insect and plant life. He was schooled at St. John Bosco College in Daleside where his interest in natural history unfolded, becoming an obsession during his years as a soldier and later as a microbiology student. Excursions into wildlife areas in southern Africa became so regular that he decided to pursue his passion and work as a field guide. He was to spend eight years guiding, managing and training other guides at Sabi Sabi Game Reserve in the Kruger region before moving, in 2000, to the Okavango where he joined Wilderness Safaris. He heads up the training team and has an avid interest in mammal behaviour, photography, botany and ornithology. Tony is based in Maun where he lives with his wife Andrea and son Aidan.
