Getting Into Medical School - Fastly

As a result, getting into med school has become harder and more competitive than ever. As if all that wasn't enough, the average age of applicants has changed, too. Traditionally, students will start applying to medical schools during their junior year of college. However, recent trends show that the average age of applicants is

around 24 years old.

Preparing for Medical School > Getting Organized

To get into medical school, you need to show your ability to research through extensive research projects. And to get into a top med school, you'll need to complete impressive research, beyond what students typically produce. Additionally, you should try to have published work that demonstrates your ability to do research.
