The New York Times, USA Today, Wall Street Journal, and Publishers Weekly bestseller from a presidential candidate for the 2016 election! In God, Guns, Grits and Gravy, Mike Huckabee asks, "Have I been taken to a different planet than the one on which I grew up?" The New York Times bestselling author explores today's fractious American culture, where divisions of class, race, politics, religion, gender, age, and other fault lines make polite conversation dicey, if not downright dangerous. As Huckabee notes, the differences of opinion between the "Bubble-villes" of the big power centers and the "Bubba-villes" where most people live are profound, provocative, and sometimes pretty funny. Where else but in Washington, D.C. could two presidential golf outings cost the American taxpayers \$2.9 million in travel expenses? Government bailouts, politician

pig-outs, and popular culture provocations from Jay-Z and Beyoncé to Honey Boo-Boo to the Duck Dynasty's Robertson family. Gun rights, gay marriage, the decline of patriotism, and the mainstream media's contempt for those who cherish a faith-based life. The trouble with Democrats, the even bigger trouble with Republicans, our national security complex, and how our Constitution is eroding under our noses. Reflections on our way of life as it once was, as it is, and as it might become these subjects and many more are covered with Mike Huckabee's signature wit, insight, and honesty.

THE LEADING ORATORS OF TWENTY-FIVE CAMPAIGNS, From the First Presidential Canvass TO THE PRESENT TIME

Twenty-Five Years in the Fourth Grade

A central player in every major church-state-separation battle for decades, the Rev. Barry W. Lynn understands the complexities of this divisive issue like few others. As a long-time activist, a civil rights lawyer, and an ordained minister in the United Church of Christ, he offers a perspective and experience on church-state controversies. In this book, he has compiled his writings from various sources to explore the many ways religious extremists have attempted to erode individual liberties. Lynn concludes that the ultimate goal of these extremist forces, consisting mainly of the Protestant Religious Right and the Roman Catholic hierarchy, is the creation of a corporate theocracy, a decidedly undemocratic system of government in which nonconservative Christians, along with humanist, feminists, and the LGBTQ community, are relegated to second-class status in America"

In this ecumenically appealing book of faith planting and nurturing, by Dr. Joe Borowitz, I see a dance between Joe as a Sunday schoolteacher, other Sunday schoolteachers, and Sunday school students, their parents and the Church. Beginning on the personal level, Joe reaches out to the inter-personal. He privileges the personal level that emerges as author, professor, and moralist and shares suitable stories and life events. How powerful personal experiences can be! Dr. Joe underscores the primacy of God in human life, arguing that people function better when they have God at the center of their lives. He reminds us that the Resurrection is the most important event in human life. The Holy Spirit, he calls a superior "life force" that enlivens and sustains us. That all should welcome this book is thus obvious. To veteran teachers it will give a nostalgic feeling and satisfaction; to students in Sunday school and their parents, it will give a sense of dedication and direction as they embrace this journey of faith; and to the general reader both catholic and non-catholic it will bring to mind the place of CCD or Sunday school in faith planting. Rev. Dr. Cajetan Ebuziem Priest Chaplain St. Elizabeth Regional Health Lafayette, Indiana, USA.

This book, although it has been classified as an autobiography, is really a series of short stories that will leave you smiling. There are paragraphs in this book that are so candid and sometimes revealing, that my first reaction was Lou, your wife is going to kill you for saying that in print!!! Lou's story about the Russian girls is just one of those stories and is very funny. Don't think for a minute that this is just another autobiography. Lou begins by telling of life growing up as a young boy in Lower Manhattan in the 1920's and 1930s. Times were tough in those years and you had to be resourceful to stay alive and help put food on the table. As Lou states, "Everyone was just trying to make ends meet lots of poverty and hard times." If you're looking for tales like those portrayed in the movie 2009 Gangs of New York, forget it this is more like the perseverance portrayed in the 1939 Streets of New York with Jackie Cooper. Lou goes on to tell of his efforts to get into the U.S. Army during WWII; he was kept at bay by his loving mother for a while and was finally inducted and sent to Europe to fight. It is here that he meets the love of his life, Irene, in a small German village. She was a beautiful young girl, he was young and thunderstruck by her beauty and gentleness.

The Layman's Legacy, Or Twenty-five Sermons on Important Subjects

Conventional wisdom holds that America has been a Christian nation since the Founding Fathers. But in One Nation Under God, historian Kevin M. Kruse argues that the idea of "Christian America" is nothing more than a myth—and a relatively recent one at that. The assumption that America was, is, and always will be a Christian nation dates back no further than the 1930s, when a coalition of businessmen and religious leaders united in opposition to the FDR's New Deal. With the full support of Dwight Eisenhower in the 1950s, these activists—the forerunners of the Religious Right—propelled religion into

the public sphere. Church membership skyrocketed; Congress added the phrase "under God" to the Pledge of Allegiance and made "In God We Trust" the country's official motto. For the first time, America became a thoroughly religious nation. Provocative and authoritative, One Nation Under God reveals how the comingling of money, religion, and politics created a false origin story that continues to define and divide American politics today.

Growing out of the most radical fringes of the abolitionist movement, the Society for Universal Inquiry and Reform set out to inaugurate a new social order based on the principles of nonresistance. The Society founded eight utopian communities which, though short-lived, were the setting for the most radical questioning of antebellum American society. The members of the Society renounced all forms of coercive relationships. They attempted to live without government or private property and to model new visions of work, education, religion, economics, women's rights and roles, and community. This book tells the story of their impassioned attempt to transform the world and begin the "Government of God."

A central player in every major church-state-separation battle for decades, the Rev. Barry W. Lynn understands the complexities of this divisive issue like few others. As a long-time activist, a civil rights lawyer, and an ordained minister in the United Church of Christ, he offers a unique perspective and a wealth of experience on church-state controversies. In this lively book, he has compiled his writings from various sources to explore in depth the many ways religious extremists have attempted to erode individual liberties. The topics range from publicly-promoted prayer to efforts to undermine public education and replace it with taxpayer-subsidized vouchers for religious schools, interfering with end-of-life and reproductive rights, censorship, and belligerence directed against nonbelievers and minorities. Lynn concludes that the ultimate goal of these extremist forces—consisting mainly of the Protestant Religious Right and the Roman Catholic hierarchy—is the creation of a corporate theocracy, a decidedly undemocratic system of government in which nonconservative Christians, along with humanist, feminists, and the LGBTQ community, are relegated to second-class status in America.
