In its more than 65 years of existence, the International Monetary Fund has evolved from a small, obscure international agency, with new and uncertain responsibilities, into a powerful institution that today has assumed center stage in the international monetary system. It is a remarkable story of how an institution has developed and adapted itself to an evolving world and a changing membership in ways that perhaps no other international agency has been forced or able to do. The third edition of the Historical Dictionary of the International Monetary Fund provides a comprehensive overview of the fund, including a chronology, an introductory essay, appendixes, a bibliography, and over 300 cross-referenced dictionary entries on the organizations, significant leaders, founders, and members. This book is an excellent access point for students, researchers, and anyone wanting to know more about the International Monetary Fund.

Mauritania is bordered by Senegal in the south, Mali in the east, Algeria in the far northeast, and the disputed territory of Western Sahara to the north. Comprised mostly of vast stretches of desert, this young country has escaped the ravages of the violent interstate and civil conflicts that have so bedeviled Africa. Mauritanian society possesses ancient antecedents and a universal religious faith that has been practiced over several centuries. These characteristics have given the country a sometimes fragile but relatively resilient sense of national identity, which has survived into the 21st century in the face of

powerful political, regional, ethnic/racial, and tribal rivalries since its independence in 1960. An economy largely centered on the export of raw materials, a weak agricultural sector, and a harsh climate in most areas further add to the challenges confronting all Mauritians. The third edition of the Historical Dictionary of Mauritania through its chronology, introductory essay, maps, bibliography, and hundreds of cross-referenced dictionary entries on important persons, places, events, institutions, and significant political, economic, social, and cultural aspects provides an important reference on Mauritania.

Cameroon is a country endowed with a variety of climates and agricultural environments, numerous minerals, substantial forests, and a dynamic population. It is a country that should be a leader of Africa. Instead, we find a country almost paralyzed by corruption and poor management, a country with a low life expectancy and serious health problems, and a country from which the most talented and highly educated members of the population are emigrating in large numbers. Although Cameroon has made economic progress since independence, it has not been able to change the dependent nature of its economy. The economic situation combined with the dismal record of its political history, indicate that prospects for political stability, justice, and prosperity are dimmer than they have been for most of the country's independent existence. The fourth edition of the Historical Dictionary of the Republic of Cameroon has been updated to reflect advances in the study of Cameroon's history as well as to provide coverage of the years since the last edition. It relates the turbulent history of Cameroon through a chronology, an introductory essay, a bibliography, and over 600 cross-referenced dictionary entries on significant persons, events, places, organizations, and other aspects of Cameroon history from the earliest times to the present.

Originally formed to harbor freed slaves and Americans returning to Africa, Liberia once was a land of hope. That was shattered by a long Civil War that shook its very foundation. Today's Liberia is glimpsed in this second edition. Building on the first edition, this updated volume focuses on the personalities, from the founders of Liberia, to the soldiers who are responsible simultaneously for destruction and the hope of stability. Along with these people, various social and ethnic groups, political parties and labor movements, economic entities and natural resources are profiled in this updated work. A new chronology of Liberia is included, and a selected bibliography suggests further readings for the scholar.

Medieval Christian Nubia is often a neglected period of medieval African history. Because meaning is determined largely by context this work traces the Greco-Roman, Meroitic and Jewish precursors. The regional, historical and theological schisms within Christianity are also a highlight. The dynamics of the three Nubian kingdoms of Nobatia, Mukurra, and Alwa are the centerpiece of this book that covers mural arts, architecture, and the names of the leading kings and bishops. Another strength of the book is the analysis of the 700-year baqt peace treaty between Christian Nubia and Islamic Egypt; this is considered to be the longest lasting treaty in diplomatic history. The complex transition from Christianity to Islam in the 14th century is analyzed in great personal, political, and military detail. Historical Dictionary of Medieval Christian Nubia contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 200 cross-referenced entries on politics, economy, foreign relations, religion, and culture of the medieval Nubians. This book is an excellent resource for students, researchers, and anyone wanting to know more about Medieval Christian Nubia.

Juba to Jive

Guinea-bissau, formerly Portuguese Gunea, is one of West Africa's smallest nations, but its history is unusually rich. The three major ethnic groups of West Africa -- Fula, Mande, and Senegambians -- are all represented there. The major regional kingdom of Kaabu was centered on the upper Guinea coast and was the site of the first meeting between Europeans and sub-Saharan Africans in the great age of Portuguese maritime discovery and expansion. In the twentieth century, the protracted war of national liberation, led by the famous Amilcar Cabral and fought on Guinean soil, contributed to the collapse of Portuguese colonial facism in Lisbon. The first edition of this historical dictionary (1979) covered the two nations, Guinea and Cape Verde, then joined politically after a decade of armed struggle. When a military coup separated these nations after 1980, the second edition (1988) responded with an individual volume for each nation. Richard Lobban has been joined in this third edition by Peter Karibe Mendy, Guinea's leading researcher. The two combine expertise in the fields of history and anthropology and have greatly expanded coverage of precolonial and resistance history, women and health, ethnomusicology, and economic development as well as adding events and individuals from contemporary multi-party campaigns and democratic elections. Superb maps illustrate changes in Guinean curltues and history. This is the primary resource for this important area, and includes a carefully selected bibliography that will provide guidance for further study. Reviews of the previous edition:

The third edition focuses on the period following the rise of Islam in the Sudan in the 14th century (the earlier period will appear in a forthcoming volume on Ancient Nubia), with extensive coverage of political events since the civil war and establishment of Islamic Shari'a law in 1983 and the radical Islamic movements of the 1990s. In addition to the dictionary itself, a chronology, maps, and lengthy (44-page) introduction to the history of the Sudan are provided. Two of the authors teach anthropology at Rhode Island College, the third teaches African and Middle Eastern History at St. Norbert College. Annotation copyrighted by Book News, Inc., Portland, OR.

Although the history of librarianship as an organized profession dates only as far back as the mid-19th century, the history of libraries is much older, and people have been engaged in pursuits that we recognize as librarianship for many thousands of years. This book traces librarianship from its origins in ancient times through its development in response to the need to control the flood of information in the modern world to the profound transformations brought about by the new technologies

Guinea-Bissau is a small country in West Africa, and yet it managed to wrest its independence from Portugal back in 1973, at the cost of a long and bitter struggle against seemingly implacable odds. This was a time to be proud of, and there was also a moment about two decades ago, when it looked like a trendsetter for democracy. Since then things have gone seriously wrong, with a collapsing infrastructure, a dilapidated economy and a political stage prone to military coups d'états. This fourth edition of Historical Dictionary of Guinea-Bissau tells the long and sometimes unpleasant story. However, like all the country historical dictionaries, it tells it several times and in several ways. First, the chronology traces the history of what became Guinea-Bissau, and this over a period of centuries and not just decades. Then the introduction recounts that history again, providing more insight and understanding, and conveys a good idea of how things are going now. The details follow in the dictionary section with entries on important persons, places, institutions, and events among other things. And the bibliography points to further reading.

Since 1619, when Africans first came ashore in the swampy Chesapeake region of Virginia, there have been many individuals whose achievements or strength of character in the face of monumental hardships have called attention to the genius of the African American people. This book attempts to distill from many wonderful possibilities the 100 most outstanding examples of greatness. Pioneering scholar of African American Studies Molefi Kete Asante has used four criteria in his selection: the individual's significance in the general progress of African Americans toward full equality in the American social and political system; self-sacrifice and the demonstration of risk for the collective good; unusual will and determination in the face of the greatest danger or against the most stubborn odds; and personal achievement that reveals the best qualities of the African American people. In adopting these criteria Professor Asante has sought to steer away from the usual standards of popular culture, which often elevates the most popular, the wealthiest, or the most photogenic to the cult of celebrity. The individuals in this book - examples of lasting greatness as opposed to the ephemeral glare of celebrity fame - come from four centuries of African American history. Each entry includes brief biographical information, relevant dates, an assessment of the individual's place in African American history with particular reference to a historical timeline, and a discussion of his or her unique impact on American society. Numerous pictures and illustrations will accompany the articles. This superb reference work will complement any library and be of special interest to students and scholars of American and African American history.
