Homeschool the right way from day one. Are you considering homeschooling for your family? Today, many parents recognize that their child's school options are limited, inadequate, or even dangerous, and an increasing number are turning to homeschooling. But where do you start and how do you ensure the highest-quality educational experience, especially in that pivotal first year? This comprehensive guide will help you determine the appropriate first steps, build your own educational philosophy, and discover the best ways to cater to your child's specific learning style, including:

- When, why, and how to get started
- The best ways to develop an effective curriculum, assess your child's progress, and navigate local regulations
- Kid-tested and parent-approved learning activities for all age levels
- Simple strategies for developing an independent child and strengthening family and social relationships
- And much, much more!

"To the thousands of requests we receive for help from families new to homeschooling, we will now recommend this warm and knowledgeable book. It will ensure that all families make it to the second year—including yours!" —Elizabeth Kanna, editor in chief, Homeschool.com "Linda Dobson addresses all the issues facing parents as they consider the task of homeschooling over other educational options. Those who wonder whether they

The First Year of Homeschooling Your Child

If you want to learn how to homeschool from someone who has real life experience homeschooling, then check out "How To Homeschool" by Jane Rodda. This is an excellent resource for parents. Whether you are merely considering the option, just starting out, or are an established homeschooler looking for advice and encouragement, this guide will suit your needs. Jane takes an honest look at the homeschooling issue and gives real life, practical advice on how to homeschool. She doesn't just give directions from the sidelines. She gives examples from her own experience as a homeschooling mother to four children. This guide examines several different areas of homeschooling, including: - Making the decision to homeschool - Scheduling - Choosing Your Curriculum - Legal Issues - Socialization The guide includes step-by-step instructions and pinpointed lists of both what to do and what not to do. Jane Rodda realizes that parents have a lot of issues to consider and experience, and helps to give accurate information without overloading you with details. She also realizes that there are several options available for parents who are looking to homeschool, and she addresses the many different options from an unbiased view point. She does share her own personal story, but does not try to sway your decision. Making the decision to homeschool

can be an exciting, yet somewhat frightening event. There are many questions to consider, and it is a decision that should not be made lightly. How to Homeschool Your Children helps take away the fear of homeschooling. Reading this guide will help you feel more prepared and confident to make the best decision for your family. This guide helps homeschooling become a rewarding and enriching experience for everyone. About the Expert Jane Rodda holds a Bachelor's Degree in Liberal Studies with a concentration in Psychology from Point Loma Nazarene University in San Diego, California. She currently lives in Nashville, Tennessee, but has previously lived and worked in several places in the United States. Jane has over twenty years experience working in Christian Day Camps. Her first job was as an assistant craft counselor, and through the years she worked her way up to eventually directing the camps, and then eventually pioneering a brand new day camp program which served a community desperately in need of programs for children. She wrote How To Start a Christian Day Camp because she passionately believes that Day Camps provide an excellent opportunity for churches to be able to reach several members of the community. Jane has seen camps meet the needs of parents, by providing something for their children; kids, by providing fun and exciting programs, and youth, by providing an opportunity to serve. Jane has learned a lot through all of her experiences, and she seeks to help others learn as well. Her hope is that churches or individuals will be encouraged and inspired to start Christian Day Camps and see the fun and exciting changes they can bring to a community. Connecting deeply with our kids can be difficult in our busy, technology-driven lives. Reading aloud offers us a chance to be fully present with our children. It also increases our kids' academic success, inspires compassion, and fortifies them with the inner strength they need to face life's challenges. As Sarah Mackenzie has found with her own six children, reading aloud long after kids are able to read to themselves can deepen relationships in a powerful way. Founder of the immensely popular Read-Aloud Revival podcast, Sarah knows first-hand how reading can

THE COLFAXES DIDN'T START TEACHING THEIR BOYS AT HOME TO GET THEM INTO HARVARD - BUT THAT'S WHAT HOMESCHOOLING ACCOMPLISHED! For over fifteen years, David and Micki Colfax educated their children at home. They don't think of themselves as pioneers, though that's what they became. Unhappy with the public schools, the Colfaxes wanted the best education possible for their four sons: a program for learning that met the evolving needs of each child and gave them complete control of how and what their children learned. The results? A prescription for excellence-Harvard educations for their sons Grant, Drew, and Reed. (Their fourth son is still too young for college.) Now the Colfaxes tell how all parents can become involved in homeschooling. In a straight-talking book that reads like a frank conversation among friends, they tell what they did and how they did it: their educational approaches, the lessons they learned, and what materials-books, equipment, educational aids-proved most useful over the years. Best of all, they show you how you can take charge of your children's education-in an invaluable sourcebook that will help you find a rewarding and successful alternative to our failing schools.

Homeschooling Your Child with Sensory Needs

More than one million American children are schooled by their parents. As their ranks grow, home schoolers are making headlines by winning national spelling bees and excelling at elite universities. The few studies conducted suggest that homeschooled children are academically successful and remarkably well socialized. Yet we still know little about this alternative to one of society's most fundamental institutions. Beyond a vague notion of children reading around the kitchen table, we don't know what home schooling looks like from the inside. Sociologist Mitchell Stevens goes behind the scenes of the homeschool movement and into the homes and meetings of home schoolers. What he finds are two very different kinds of home education--one rooted in the liberal alternative school

Read Book Homeschooling Your Child Step By Step 100 Simple Solutions To Homeschooling Toughest Problems

movement of the 1960s and 1970s and one stemming from the Christian day school movement of the same era. Stevens explains how this dual history shapes the meaning and practice of home schooling today. In the process, he introduces us to an unlikely mix of parents (including fundamentalist Protestants, pagans, naturalists, and educational radicals) and notes the core values on which they agree: the sanctity of childhood and the primacy of family in the face of a highly competitive, bureaucratized society. Kingdom of Children aptly places home schoolers within longer traditions of American social activism. It reveals that home schooling is not a random collection of individuals but an elaborate social movement with its own celebrities, networks, and characteristic lifeways. Stevens shows how home schoolers have built their philosophical and religious convictions into the practical structure of the cause, and documents the political consequences of their success at doing so. Ultimately, the history of home schooling serves as a parable about the organizational strategies of the progressive left and the religious right since the 1960s. Kingdom of Children shows what happens when progressive ideals meet conventional politics, demonstrates the extraordinary political capacity of conservative Protestantism, and explains the subtle ways in which cultural sensibility shapes social movement outcomes more generally.

Suddenly Homeschooling

The truth is life is full of trials that threaten to consume us. The little things. The big things. The kid things. The relationship things. Little by little we are consuming ourselves with these "things" and we don't even know it. In fact, we are too busy trying to make it look better (ya know- on social media) and pretending that our lives look like everyone else's to even notice the truth about it all. But our negligence doesn't change the facts. We are consumed. Burned out. Stressed out. Unhealthy. And most of all unhappy. Day after day we get back on the hamster wheel chasing some "perfect life" that we are certain has to be out there. We keep pushing forward, doing more and more, and feeling disappointed that we can't seem to get there. But all of that is about to change. If you are willing to let it, that is. You see, there is a secret to not letting life consume you. There is a way to do it all and have it all. The trouble is, we are just a little confused about the definition of "all." We need to do a little re-defining and a little truth-claiming if we are going to fix this. So what do you say? Are you ready to become #NOTCONSUMED?

Homeschool Your Child for Free

A joyful and accessible approach to homeschooling that harnesses children's natural curiosity and makes learning a part of everyday life, whether they're in elementary or high school. Parents who are deeply invested in their children's education can be hard on themselves and their kids. When exhausted parents are living the day-to-day grind, it can seem impossible to muster enough energy to make learning fun or interesting. How do parents nurture a love of learning amid childhood chaos, parental self-doubt, the flu, and state academic standards? In this book, Julie Bogart distills decades of experience--homeschooling her five now grown children, developing curricula, and training homeschooling families around the world--to show parents how to make education an exciting, even enchanting, experience for their kids, whether they're in elementary or high school. Enchantment is about ease, not striving. Bogart shows parents how to make room for surprise, mystery, risk, and adventure in their family's routine, so they can create an environment that naturally moves learning forward. If a child wants to pick up a new hobby or explore a subject area that the parent knows little about, it's easy to simply say "no" to end the discussion and the parental discomfort, while dousing their child's curious spark. Bogart gently invites parents to model brave learning for their kids so they, too, can approach life with curiosity, joy, and the courage to take learning risks.

Blueprint Homeschooling

Millions of children take Ritalin for Attention-Deficit Hyperactivity Disorder. The drug's manufacturer, Novartis, claims that Ritalin is the "solution" to this widespread problem. But hidden behind the well-oiled public-relations machine is a potentially devastating reality: children are being given a drug that can cause the same bad effects as amphetamine and cocaine, including behavioral disorders, growth suppression, neurological tics, agitation, addiction, and psychosis. Talking Back to Ritalin uncovers these and other startling facts and translates the research findings for parents and doctors alike. An advocate for education not medication, Dr. Breggin empowers parents to channel distracted, disenchanting, and energetic children into powerful, confident, and brilliant members of the family and society.
