Chemical and Biological Aspects of Pyridoxal Catalysis contains the proceedings of
the symposium of the International Union of Biochemistry, held in Rome in October

1962. The proceedings cover the lectures, discussions, and scientific papers on the many aspects of pyridoxal biochemistry. The book presents a wide range of topics of pyridoxal biochemistry, starting with a brief review of the history of the chemistry of vitamin B6 and pyridoxal-containing systems, and their significance in the understanding of the catalytic effects of pyridoxal. Structural features of glutamic aspartic transaminase; studies on leucine decarboxylase; cleavage of cystamine by diamineoxidase; and enzymatic steps in the degradation of vitamin B6 by bacteria are also discussed. The final chapter gives a brief survey of the developments in the study of catalytic functions and biological role of PLP enzymes. Biochemists, biologists, chemists, enzymologists, pharmacologists, and physicians will find this book invaluable.

Transportation Models

The books are prepared in accordance with the syllabus developed by the NCERT and adopted by the CBSE. Text is supported by suitable illustrations, Solved Problems, Theoretical Questions and Practical Exercises. There are over 40 exhibits to acquaint students with the various accounting treatments and formats. Revision One Day Before Examination, Important Theoretical Question Bank, Provisional Test Papers, Model Test Papers and Pre-Board Test Papers are given for revision.

This book reflects the current concerns of dialectologists, as they exploit methodological tools in the twin contexts of insights which derive from sociology via sociolinguistics, and their awareness of the interplay between synchronic variation and linguistic change.

Self Assessment Questions and Answers for Dental Assistants

Description: Intended primarily as a text for the undergraduate students of commerce, this book gives a comprehensive and indepth analysis of the concepts and principles underlying financial accounting. It also introduces the student to the tools and techniques essential for tackling real-life problems. The text discusses in detail final accounts, branch accounting, hire-purchase and instalment sales, partnership accounts, stock valuations, as well as other company accounts. The book would be of considerable help to the readers in preparing financial statements and would equip them with the necessary knowledge in understanding the financial performance and the financial position of an organization and communicate these to its stakeholders. Besides students of commerce, those

appearing for various professional examinations such as CA and ICWA foundation courses should find this student-friendly and accessible book extremely useful.
