Programmed Study Guide for Introduction to Probability and Statistics

This introduction to criminology uses the ethics of social justice to confront traditional views of criminals. Key questions are addressed, including What is defined as criminal? How do we respond to crime? and Why do individuals behave in ways that reproduce social inequalities? Applied real-life scenarios address such realities as the prison experience, young men in the sex trade, race and crime in the media, and racial profiling. This text provides an alternative pedagogy for teaching criminology that discusses both the abstract theory and contemporary implications of the criminal justice system.

has a 15p. introduction (a "mini-chapter") that contains vignettes, photos, tables and graphs, end of chapter questions and Web-exercises and is followed by 3-4 supporting readings. The theory Section introductions will end with a concluding sub-section that focuses on policy and crime prevention. The theory Sections contain a unique table that compares and contrasts the theories presented in that Section. A "How to Read a Research Article" guide for students appears after the book's Introduction in Section 1, prior to the first reading. The guide refers students to portions of the first reading to illustrate key aspects of a research article. The readings are carefully selected, edited journal articles appropriate for an undergraduate audience. Additional readings will be found on the accompanying Study Site. Full ancillary package with IR CD for instructors and a comprehensive study site for students.

This book views peacemaking as a broad, encompassing process that is expressed in many different shapes and forms. It blends ancient-wisdom traditions, peacemaking criminology, and restorative justice principles as a way of intervening with offenders in both institutional and community-based settings. Philosophical and spiritual contexts for peacemaking are presented that form a foundation for understanding the potential for peacemaking in criminological thought, the criminal justice system, and society in general.

Introduction to Criminology, Why Do They Do It?, Second Edition, by Pamela J. Schram Stephen G. Tibbetts, offers a contemporary and integrated discussion of the key theories that help us understand crime in the 21st century. With a focus on why offenders commit crimes, this bestseller skillfully engages students with real-world cases and examples to help students explore the fundamentals of criminology. To better align with how instructors actually teach this course, coverage of violent and property crimes has been integrated into the theory chapters, so students can clearly understand the application of theory to criminal behavior. Unlike other introductory criminology textbooks, the Second Edition discusses issues of diversity in each chapter and covers many contemporary topics that are not well represented in other texts, such as feminist criminology, cybercrime, hate crimes, white-collar crime, homeland security, and identity theft. Transnational comparisons regarding crime rates and the methods other countries use to deal with crime make this edition the most universal to date and a perfect companion for those wanting to learn about criminology in context.
