iMovie '11 in no time. Whether you're a beginner taking video clips with your iPhone or a real video fanatic, you'll learn how to use iMovie by following easy step-by-step lessons that will become increasingly sophisticated along with your skill level. This book emphasizes hands-on training. Each exercise is designed to help you learn the application as you use it, starting with the basic interface and moving on to trailers, advanced editing, effects, and sharing techniques. If you're new to iMovie, it will be helpful for you to start at the beginning and progress through each lesson in order, since each lesson builds on information learned in the previous ones. If you're already familiar with iMovie, you can start with any section and focus on that topic. The end of the book includes bonus lessons for iDVD and iWeb, where you'll build a DVD and an elegant website using the movies you've created in iMovie.
