This kind of investment should have some history or record of expenses and up-keep. This book is your record keeping system for your vehicle. You will record your vehicle's repairs, preventative maintenance, major repairs, accidents, insurance information, favorite places for service, and even be able to log trips. Your Vehicle Care Manual has to be kept in your car or truck so it is readily available for you when needed. When selling or trading your vehicle, having a documented record of your vehicles history will be an advantage to the new owner or dealer.
