North Korea's brinkmanship diplomacy has continued to disturb the world with its seemingly reckless missile testing, as the country's leader, Kim Jong-Il, is rumored to be terminally ill with pancreatic cancer. North Korea appears to be in a state of serious internal crisis not only because its dictatorial system, albeit skillful and ruthless leadership, is inherently unstable, if not skillful and ruthless leadership, but also because the main pillar of Kim Jong-Il's legitimacy is rapidly eroding due to both mass starvations and the exodus of grassroots and mass exodus of the North Korean people into nearby regions. The main objective of this book is to explore the probability of North Korea's implosion, and second to search for a feasible way for Korean reunification as a possible consequence of a big bang event on the peninsula. The geopolitics of the Korean Peninsula is historically very complicated as Korea is bordered and s- rounded by four big powers; namely, China, Russia, Japan, and the United States. Each country has its own varying degrees of political, economic, and military stakes with respect to the Korean Peninsula. Thus, the Land of the Morning Calm has remained divided since 1945 mainly as a result of the domain war among these super powers. As the North nears a turning point, however, there is a new possibility for the two Koreas to reunite if the international environments work in their favor, and if both countries are well prepared to assume reunification.

The Devil's Punchbowl

From Christobel Kent—whose psychological thrillers have been called “terrifyingly good,” “perfectly paced,” “addictive,” “tense, dense, extremely well-plotted and beautifully written”—a new nerve-racking novel about a disappeared barmaid and the friend who will do anything to find her. When Beth disappears, everyone says she’s run off with another man. She’s just a fly-by-night party girl who can’t be trusted. But Natalie, her best friend, doesn’t believe it, not at all. She’s sure something more sinister is going on. So sure that proving it just might kill her . . . Meanwhile, Victor, one of Beth’s and Nat’s favorite bar patrons, has fallen and ended up in the hospital. When he hears that Beth is gone, he doesn’t buy it either. And slowly, a hazy memory comes back to him. Something menacing . . . something important . . . something just out of his grasp . . . As Nat tries to piece together the events—and people—in Beth’s life, it becomes more difficult to discern who can and can’t be trusted. The little town in the English countryside takes on an ominous air, with a threat behind every corner,

outside every window. And someone is always watching . . . Kent's most recent novel, *The Loving Husband*, was an international bestseller, and it is in no way hyperbole to declare *The Day She Disappeared* her very best. It is as brutally unsettling as *The Loving Husband*, but even more intricate and surprising; as claustrophobic and atmospheric as *The Crooked House*, but even more heartbreaking in its truths. Kent has been compared to such masters as Daphne du Maurier and P. D. James. With *The Day She Disappeared*, a new crop of writers will be compared to Christobel Kent.

Researched and written in Japan, with the full co-operation of the factory, here, in definitive detail, is the complete story of the first generation of Mazda's MX-5 - the car that re-invented the affordable lightweight roadster, a species that many thought was extinct as the 1990s drew near. Immediately successful, the MX-5, also known as the Miata or Eunos Roadster, spawned many imitators, but remains the world's biggest selling sports car. The series has now been in production for well over 20 years, and new generations continue to follow the concept of the original, much to the delight of fans and enthusiasts all over the world.
