History of Niagara (in Part)

In any career in business, chances are that the time will come when someone will ask you to do a strategy for something. Too often, this will be a cue for stress at work and sleepless nights. What You Need to Know about Strategy shows that it doesn't have to be like this. Taking you step-by-step through the basics of what you need to know to come up with a great strategy, it shows: That getting the right answers depends on asking the right questions Why priorities matter How to map out your internal and external situation How to deal with uncertainty How to make tough choices What your brain does while you're doing strategy By cutting out the theory, and focusing on the things you need to know and do to come up with a killer strategy, this book means that you never need to panic again.

Gimmicks Make Money in Retailing

It's Hard to Hug a Cow is about a Registered Red Angus cow that is not just seen through the eyes of a human as a milk producing, profit making animal but as a friend. The book starts out with realistic pencil drawings going to cartoon drawings with comedic intent during the anticipated act of hugging this adorable critter. This is a fun book for those who love farm animals not to mention the Registered Red Angus raisers. P.S. My friends call me the Dr. Seuss of cows!

F20 Catalog

Biology of Termites, Volume I presents the anatomical, physiological, biochemical, and behavioral laboratory and field studies of termite species. Although termites have been associated mainly with damage, only less than 10% of the species have actually been recorded as pests, obscuring their important ecological role in the breakdown of vegetative matter and their variety and complexity of structure, physiology, social behavior, caste differentiation and regulation, and other aspects of their biology. After briefly describing the social organization, classification, and research history of termites, the book discusses the external morphology of these species and the similarities and differences between the various groups and the different castes. The subsequent chapters cover the internal anatomy of termites, including their digestive physiology, exocrine and endocrine glands, reproductive and nervous systems, and sense organs. Other chapters deal with the social behavior and communication in the termites and the termite colonizing flights and associated activities. The book also examines caste differentiation in the three lower termite families, namely, Hodotermitidae, Kalotermitidae, and Rhinotermitidae. This volume includes discussions on the rearing, feeding, and biochemistry of termites; the radioisotopes for feeding studies; and the moisture requirements for termite survival. The concluding chapters deal with the introduction or interception of termites by humans and their association with fungi, as well as the relationships of termite hosts with termitophiles. Termite biologists, zoologists, botanists, ecologists, behaviorists, biochemists, endocrinologists, and economic entomologists will find this volume invaluable.

What You Need to Know about Strategy

This collection examines anti-corruption campaigns and argues that they have often resulted in perverse and unintended consequences. The book examines how corruption has been addressed (and sometimes tolerated) in Africa, Asia, Latin America and East & Central Europe to interrogate government policy and question development discourse and practice.

A Poisoned Season

John Deere Tractors and Equipment: 1960-1990

Plow Peddler

Bearings and Seals

Human and animal power; Mechanical power; Agricultural production systems; Tillage; Planting; Fertilization; Weed control; Insect and predator control; Harvesting; Grain drying and storage; Transport; Social consequences; Machinery economics.

The Militia of the Battle of the Châteauguay

Prairie Farmer

The Calvary Road and Be Filled Now

This work investigates women's economic, social, political and cultural history, encompassing all ethnic and racial groups and religions. It provides a general introduction to the history of women in industrializing America. Both a history of women and a history of the United States, its chronology is shaped by economic stages and political events.

The Oxford Companion to Chess

Fire in the United States

Arise Ye Starvelings

"Bovine Medicine, 3rd Edition, offers practicing large animal veterinarians and veterinary students the most comprehensive reference to the core aspects of contemporary cattle health and husbandry available today"--Provided by publisher.

The Poor and the Powerless

Handy Farm Devices and how to Make Them

The Chinese

London's social season is in full swing, and Victorian aristocracy is atwitter over a certain gentleman who claims to be the direct descendant of Louis XVI and Marie Antoinette. Adding to their fascination with all things French, an audacious cat burglar is systematically stealing valuable items that once belonged to the ill-fated queen. But things take a dark turn. The owner of one of the pilfered treasures is found murdered after the theft is reported in the newspapers, and the mysterious thief develops a twisted obsession with Lady Emily Ashton. It takes all of Lady Emily's wit and perseverance to unmask her stalker and ferret out the murderer, while faced with a brewing scandal that threatens both her reputation and her romance with the dashing Colin Hargreaves.

Freedom from Stress

An alphabetical guide to the game of chess includes entries for famous players, named openings, laws, strategies, chess and computers, chess in art and literature, and the origins of the board and pieces

Third World Women and the Politics of Feminism

Examines the common characteristics in the message of the Old Testament prophets

Customs in Common

Biology of Termites

Field Guide to the Common Grasses of Oklahoma, Kansas, and Nebraska

An understanding of the developments in classical analysis during the nineteenth century is vital to a full appreciation of the history of twentieth-century mathematical thought. It was during the nineteenth century that the diverse mathematical formulae of the eighteenth century were systematized and the properties of functions of real and complex variables clearly distinguished; and it was then that the calculus matured into the rigorous discipline of today, becoming in the process a dominant influence on mathematics and mathematical physics. This Source Book, a sequel to D. J. Struik's Source Book in Mathematics, 1200-1800, draws together more than eighty selections from the writings of the most influential

mathematicians of the period. Thirteen chapters, each with an introduction by the editor, highlight the major developments in mathematical thinking over the century. All material is in English, and great care has been taken to maintain a high standard of accuracy both in translation and in transcription. Of particular value to historians and philosophers of science, the Source Book should serve as a vital reference to anyone seeking to understand the roots of twentieth-century mathematical thought.

The Message of the Prophets

An ability to speak Jamaican Standard English is the stated requirement for any managerial or frontline position in corporate Jamaica. This research looks at the phonological variation that occurs in the formal speech of this type of employee, and focuses on the specific cohort chosen to represent Jamaica in interactions with local and international clients. The variation that does emerge, shows both the presence of some features traditionally characterized as Creole and a clear avoidance of other features found in basilectal and mesolectal Jamaican. Some phonological items are prerequisites for “good English” - variables that define the user as someone who speaks English - even if other Creole variants are present. The ideologies of language and language use that Jamaican speakers hold about “good English” clearly reflect the centuries-old coexistence of English and Creole, and suggest local norms must be our starting point for discussing the acrolect.

The Forklift Manual

Profusely illustrated with 415 color photographs, line drawings, and distribution maps, this practical guide describes 70 of the most common central North American grasses within the states of Oklahoma, Kansas, and Nebraska.

Acquisition of Jamaican Phonology

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Creative Dimensions of Teaching and Learning in the 21st Century

The years 1676 and 1774 marked two turning points in the social and legal treatment of madness in England. In 1676, London's Bethlehem Hospital expanded in grand new premises, and in 1774 the Madhouses Act attempted to limit confinement of the insane. This study explores almost a century of the English history of madness through the texts of five poets who were considered mentally troubled according to contemporary standards: James Carkesse, Anne Finch, William Collins, Christopher Smart and William Cowper were hospitalized, sequestered or exiled from society. Their works cope with representations of insanity, medical definitions or practices, imputed illness, and the judging eye of the 'sane other', shedding new light on the dis/continuities in the notion of madness of this period.

A Source Book in Classical Analysis

Creative Dimensions of Teaching and Learning in the 21st Century appeals to educators across disciplines teaching at every age level who are challenged daily to develop creative practices that promote innovation, critical thinking and problem solving. The thirty-five original chapters written by educators from different disciplines focus on theoretical and practical strategies for teaching creatively in contexts ranging from mathematics to music, art education to second language learning, aboriginal wisdom to technology and STEM. They explore and illustrate deep learning that is connected to issues vital in education - innovation, identity, engagement, relevance, interaction, collaboration, on-line learning, dynamic assessment, learner autonomy, sensory awareness, social justice, aesthetics, critical thinking, digital media, multi-modal literacy and more.

Children of Lazarus

The acrolect in Jamaica

An epic and intimate firsthand account of a true American hero's daring journey into the heart of the Amazon forest in the nineteenth-century. "Meticulously researched, elegantly argued and deeply humane," Customs in Common describes the complex culture from which working class institutions emerged in England—a panoply of traditions and customs that the new working class fought to preserve well into Victorian times (The New York Times Book Review). This remarkable sequel to E. P. Thompson's influential, landmark volume of social history, The Making of the English Working Class, investigates the gradual disappearance of a range of cultural customs against the backdrop of the great upheavals of the eighteenth century. As villagers were subjected to a legal system increasingly hostile to custom, they tried both to resist and to

preserve tradition, becoming, as Thompson explains, “rebellious, but rebellious in defence of custom.” Although some historians have written of riotous peasants of England and Wales as if they were mainly a problem for magistrates and governments, for Thompson it is the rulers, landowners, and governments who were a problem for the people, whose exuberant culture preceded the formation of working-class institutions and consciousness. Essential reading for all those intrigued by English history, *Customs in Common* has a special relevance today, as traditional economies are being replaced by market economies throughout the world. The rich scholarship and depth of insight in Thompson’s work offer many clues to understanding contemporary changes around the globe. “By providing a fuller sense of the way of life capitalism destroyed, *Customs in Common* helps us understand why the resistance to it was so protracted and tenacious . . . [This] long-awaited collection . . . is a signal contribution . . . [from] the person most responsible for inspiring the revival of American labor history during the past thirty years.” —*The Nation* “This book signals the return to historical writing of one of the most eloquent, powerful and independent voices of our time. At his best he is capable of a passionate, sardonic eloquence which is unequalled.” —*The Observer*

Medieval English Nunneries

The *Calvary Road* is the British evangelist, Roy Hession's best known book. It is a simple practical exposition of the essential role and the fruit of humility and repentance in the Christian life. It has changed lives and ministries. The chapters are: Brokenness; Cups Running Over; The Way of Fellowship; The Highway of Holiness; The Dove and the Lamb; Revival in the Home; The Mote and the Beam; Are You Willing to be a Servant?; The Power of the Blood of the Lamb; and Protesting Our Innocence? Christians of all persuasions appreciate the importance of being filled with the Holy Spirit. The Hessions write "the apostolic injunction, 'Be filled with the Spirit' (Eph. 5. 18) still stands binding on every believer, and he ignores it at the peril of missing the fruitfulness and joy which such fullness brings." This book describes the person of the Holy Spirit and how and why the Christian is to be filled with the Spirit.

Women in the United States, 1830-1945

It's Hard to Hug a Cow

From Stoke Mandeville to Stratford

Bovine Medicine

"Medieval English Nunneries" from Eileen Power. British economic historian and medievalist (1889-1940).

Corruption and Development

Looks at the history of colonialism in the Caribbean, examines current economic development strategies in Jamaica, Grenada, Guyana, Barbados, and Trinidad, and describes the prospects for the region

«Remov'd from human eyes»: Madness and Poetry 1676-1774

"The essays are provocative and enhance knowledge of Third World women's issues. Highly recommended . . ." --Choice " . . . the book challenges assumptions and pushes historic and geographical boundaries that must be altered if women of all colors are to win the struggles thrust upon us by the 'new world order' of the 1990s." --New Directions for Women "This surely is a book for anyone trying to comprehend the ways sexism fuels racism in a post-colonial, post-Cold War world that remains dangerous for most women." --Cynthia H. Enloe " . . . provocative analyses of the simultaneous oppressions of race, class, gender and sexuality . . . a powerful collection." --Gloria Anzaldúa " . . . propels third world feminist perspectives from the periphery to the cutting edge of feminist theory in the 1990s." --Aihwa Ong " . . . a carefully presented wealth of much-needed information." --Audre Lorde " . . . it is a significant book." --The Bloomsbury Review " . . . excellent . . . The nondoctrinaire approach to the Third World and to feminism in general is refreshing and compelling." --World Literature Today " . . . an excellent collection of essays examining 'Third World' feminism." --The Year's Work in Critical and Cultural Theory These essays document the debates, conflicts, and contradictions among those engaged in developing third world feminist theory and politics. Contributors: Evelyne Accad, M. Jacqui Alexander, Carmen Barroso, Cristina Bruschini, Rey Chow, Juanita Diaz-Cotto, Angela Gilliam, Faye V. Harrison, Cheryl Johnson-Odim, Chandra Talpade Mohanty, Ann Russo, Barbara Smith, Nayereh Tohidi, Lourdes Torres, Cheryl L. West, & Nellie Wong.

Dibble Sticks, Donkeys, and Diesels

The Tragedy of Morant Bay

As Aristotle once said, "If you would understand anything, observe its beginning and its development." When Dr Ian Brittain started researching the history of the Paralympic Games after beginning his PhD studies in 1999, it quickly became clear that there was no clear or comprehensive source of information about the Paralympic Games or Great Britain's participation in the Games. This book is an attempt to document the history of the summer Paralympic Games and present it in one accessible and easy-to-read volume. From the outset, it should be made very clear that this book is not meant to be an academic text. It has always been the author's intention that it should be a resource for anyone with an interest in the Paralympic Games, their history, or Great Britain's participation in the Games. Through twelve years of research, the author has brought together all of the facts, figures, and interesting stories that have occurred in the development of the summer Games-from their roots at Stoke Mandeville Hospital in the United Kingdom to the global mega-event they have become today. This is the first publication to include images of posters, winner's medals, and other artefacts connected with the Games-some of which have never been seen in print. Every endeavour has been made to include all relevant information, and this text serves as an ideal starting point from which future researchers and historians may begin. As we have noticed recently with the increased documentation of Olympic history, it is the author's hope that this text will inspire others to contribute to a more complete history of the Paralympic Games. A more complete history may lead to a better understanding of the importance of the Paralympic Games and their impact upon the lives of people with disabilities.
