The HealerMedicine Man

The Healer

An introduction to the author's healing work, which combines modern Western holistic practice with the ancient wisdom of Eastern philosophy. Temple uses a dowsing pendulum to ask questions about a patient's illness and then applies the appropriate healing element such as a stone, tree or plant containing the necessary DNA for that patient.

Medicine Man

The author shares in greater detail his healing techniques, offering the reader the opportunity to heal himself and others. Whilst continuing with his healing work, Jack Temple sees the need to pass on all his knowledge and experience so that it can be used by all who are drawn to his healing work.
