British Qualifications

What is the difference between an academic and professional qualification? Who should get a professional qualification? Did you know that some professions can not be legally practised with a degree alone? Why get a UK qualification? Is it expensive to gain a British qualification? What is a chartered institute or society, and is it better than a non-chartered body? What is the difference between a professional body and a trade union? These are all questions answered in this book which is designed to help individuals choose a career path and the right

professional organisation. In today's world it isn't enough to have a qualification, you need to be able to meet with peers and use the valuable networks that are already in place to foster your profession. Your Professional Qualification provides a comprehensive survey of the qualifications available in the UK along with guidance on where they lead, entry requirements, where to apply and where to study. Derived from the vast and authoritative British Qualifications database, this important publication provides the first easily accessible guide to qualifications and how to get them in the UK. Built around a comprehensive directory of professional qualifying bodies each professional area is described in depth and its qualifications identified and explained. The book is supported by a simple website, which ensures purchasers of the book are kept up-to-speed with new developments.

The theme selected for the 2019 EuroCALL conference held in Louvain-la-Neuve was 'CALL and complexity'. As languages are known to be intrinsically and linguistically complex, as are the many determinants of learning (additional) languages, complexity is viewed as a challenge to be embraced collectively. The 2019 conference allowed us to pay tribute to providers of CALL solutions and to recognize the complexity of their task. We hope you will enjoy reading this volume as it offers a rich glimpse into the numerous debates that took place during EuroCALL 2019. We look forward to continuing those debates and discussions with you at the next EuroCALL conferences!

Written by one of the foremost historians of Chinese institutions, this book focuses on China's civil service examination system in its final and most elaborate phase during the Ch'ing dynasty. All aspects of this labyrinthine system are explored: the types of questions, the style and form in which they were to be answered, the problem of cheating, and the psychological and financial burdens of the candidates, the rewards of the successful and the plight of those who failed. Drawing on a wide range of sources, including Chinese novels, short stories, and plays, this thought provoking and entertaining book brings to vivid life the testing structure that supplied China's government bureaucracy for almost fourteen

hundred years. "Professor Miyazaki's informative work is concerned with a system. . . that was, in effect, . . . the basic institution of Chinese political life, the real pillar which supported the imperial monarchy, the effective vehicle for the aspirations and ambitions of the ruling class. Imperial China without the examination system for the past thousand years and more would have developed in an entirely different way and might not have endured as the continuing form of government over a huge empire."--Pacific Affairs "The most comprehensive narrative treatment in any language of [this] enduring achievement of Chinese civilization."--American Historical Review
