Johnson's Psychiatric-mental Health Nursing

This text looks at developments in neurological surgery against a socioeconomic background.

Journal of the American Society of CLU & ChFC.

This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare's A Comedy of Errors. Miola's edited work also features a comprehensive critical history, coupled with a full bibliography and photographs of major productions of the play from around the world. In the collection, there are five previously unpublished essays. The topics covered in these new essays are women in the play, the play's debt to contemporary theater, its critical and performance histories in Germany and Japan, the metrical variety of the play, and the distinctly modern perspective on the play as containing dark and disturbing elements. To compliment these new essays, the collection features significant scholarship and commentary on The Comedy of Errors that is published in obscure and difficult accessible journals, newspapers, and other sources. This collection brings together these essays for the first time.

The Ethical Way

This comprehensive, revised text discusses psychiatric nursing through an adaptation and growth framework integrating the nursing process. This edition emphasizes psychiatric mental health nursing more from in-patient care to community-based care. Major disorders are addressed, as well as treatments and psychiatric topics throughout the lifespan. Other features include its visual and readable presentation and numerous pedagogical tools, such as learning objectives and therapeutic dialogues. New to this edition are: clinical examples at the beginning of every disorder; reflection and critical thinking questions; nursing care plans; historical capsule; nursing practice implications; key terms and more. A Study Guide accompanies the text. For more information, visit <http://connection.lww.com/go/mohr>.

The Psychiatrist's Managed Care Primer

Geriatric Psychiatry, An Issue of Clinics in Geriatric Medicine,

Because an increasing number of patients are covered through managed care plans, psychiatrists need to understand the managed care system in order to answer their patients' questions and ensure the continued prosperity of their practices. To

assist clinicians in these challenging times, The Psychiatrist's Managed Care Primer arms psychiatrists with the information and tools they need to flourish within the managed care environment while simultaneously delivering quality patient care. This monograph provides an overview of the evolution of this industry; detailed explanations of current managed care models, operations, and anticipated trends; and practical advice on key problem areas. It focuses on the pressing issues of utilization management and capitation as well as important regulatory, ethical, and legal issues psychiatrists confront under this system. The potential impact that managed care systems have on their patient referrals, clinical decision-making autonomy, and income is also examined closely. Equipped with the sophisticated understanding of managed care supplied by this primer, psychiatrists can make the important decisions that will ensure the survival of their practice.

The Managed Care Answer Book for Mental Health Professionals

Managed Care shows how agency executives, staff, and trustees of nonprofit organizations can prepare for, survive, and even prosper during the transition to a managed care system. It takes the mystery out of managed care and quells the anxiety of executives by showing the practical steps they can take to ease the transition. It also helps executives regain a sense of optimism for their agency's future in the managed care environment.

The Nonprofit Manager's Resource Directory

This imaginative book is a fictionalized account of clinician Dr. Evelyn Bloom and businessman Adam Wilder who attempt to run a start-up managed behavioral healthcare company in a highly ethical manner. Each example in the book offers an understanding of the complex legal and ethical challenges that are inherent in the managed behavioral health care environment.
