Construction Accounting and Financial Management

Intermediate Accounting: IFRS Edition provides the tools global accounting students need to understand IFRS and how it is applied in practice. The emphasis on fair value, the proper accounting for financial instruments, and the new developments related to leasing, revenue recognition, and financial statement presentation are examined in light of current practice. Global Accounting Insights highlight the important differences that remain between IFRS and U.S. GAAP, and discuss the ongoing joint convergence efforts to resolve them. Comprehensive, up-to-date, and accurate, Intermediate Accounting: IFRS Edition includes proven pedagogical tools, designed to help students learn more effectively and to answer the changing needs of this course.

Managerial Accounting

An accountant's practice depends on making difficult decisions. To achieve the best results, individual accountants and

accounting firms need a clear understanding of the ethical duties and decision-making involved in the four major functions of modern accounting—auditing, management accounting, tax accounting, and consulting—as well as a strong sense of ethical conduct to guide the certification and validation of reliable financial records. Now in its third edition, *Accounting Ethics* is a thorough and engaging exploration of the ethical issues that accountants encounter in their professional lives. Since the publication of the first edition in 2002, *Accounting Ethics* has become an indispensable resource for accounting courses and certification programs worldwide, known for its focus on real-world application, practical advice, reader-friendly guidance, and its insight into the effects of global change on the profession. Together with coverage of the contemporary regulatory environment—including the Sarbanes-Oxley Act, the Public Company Accounting Oversight Board, and the Dodd-Frank Wall Street Reform and Consumer Protection Act—this revised edition features expanded pedagogical resources such as new end-of-chapter case studies and discussion questions, and includes the updated AICPA Code of Conduct. Concise and dependable, *Accounting Ethics* sustains its reputation as an authoritative resource for practicing accountants, new professionals, students of accounting, and those who are considering the profession.

Managerial Accounting

Introduction to Managerial Accounting, 4/e by Brewer/Garrison/Noreen is based on the market-leading text, *Managerial Accounting*, by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

Accounting

The emphasis of *MANAGERIAL ACCOUNTING, 6e* is on teaching students to use accounting information to best manage an organization. In a practice Hilton pioneered in the first edition, each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. Known for balanced examples of Service, Retail, Nonprofit and Manufacturing companies, Hilton offers a clear, engaging writing style that has been praised by instructors and students alike. As in previous editions, there is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting and performance evaluation.

Unlike any other text, Ingram presents managerial accounting as a crucial communication tool for management decision making. Additionally, students learn that service-oriented and product-oriented organizations apply similar approaches to

gain accurate, timely information. Throughout the book, managerial accounting is viewed as a key component of multi-disciplinary management-with accountants working as part of a team to resolve questions of costing, pricing, and production.

Advanced Management Accounting

Accounting besides providing data for published financial statements for external users, is an important source of financial information for internal decision making. This book, in addition to explaining the way in which accounting information can be used by the manager in performing his managerial functions of planning and control, also shows the utility of accounting information in solving routine problems. The main focus of the book is on managerial decision making. The objective is to train the reader in the systems of Management and Cost Accounting and also develop his skills in interpreting and analyzing accounting statements and data. Though primarily meant for students of Management, Chartered Accounting and Cost and Management Accountancy courses, it will also be helpful to business managers who want to hone their decision-making skills. In the third edition of Management Accounting: A planning and Control Approach, most of the chapters have been updated and rearranged. A large number of new illustrations and problems, adapted from professional examinations, have been added.

Cornerstones of Managerial Accounting

Focusing squarely on the needs of business and management students, Managerial Accounting for Business Decisions sets management accounting into a real world context, helping students to apply the theories they learn to management situations. This book will assist the reader in understanding the principles of management accounting and to master the numerical aspects of the subject. Suitable for any student taking a first course in management accounting.

Accounting Ethics

Managerial Accounting for Managers, 3rd edition by Noreen/Brewer/Garrison is based on the market-leading managerial accounting solution, Managerial Accounting, by Garrison, Noreen and Brewer. The Noreen solution presents integrated and proven solutions designed to help attain course goals of student readiness, comprehension of content, and application of key concepts in the managerial accounting course, while addressing the needs of instructors who do not wish to teach the financial accounting-oriented content that is included in the Garrison solution. Of the three programs in the Garrison franchise (the Brewer solution, the Garrison solution, and the Noreen solution), the Noreen solution is the most pure management accounting content. The other two programs contain greater coverage of financial accounting topics. Managerial Accounting for Managers 3e is geared towards professors who love Garrison's market-leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization, however, the job-order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting—planning, control, and decision making. McGraw-Hill's Connect Plus Accounting offers a complete digital

solution combines all the great features of Connect Accounting, along with access to an online version of Managerial Accounting for Managers 3e, so that students can easily refer back to the text for review and guidance. This media rich eBook links directly to tutorials and online resources and offers additional functionality like taking notes and highlighting key passages for reviewing later. Contained within Connect Plus Accounting is McGraw-Hill's adaptive learning system, LearnSmart, which is designed to help students learn faster, study more efficiently, and retain more knowledge for greater success. In addition, Interactive Presentations deliver learning objectives in an interactive environment, giving students access to course-critical content anytime, anywhere. Guided Examples provide students with narrated and animated, step-by-step walkthroughs of algorithmic versions of assigned exercises.

Managerial Accounting for Undergraduates
