The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. This book will keep money in your pocket and add experience to your résumé, but more

important, it will help you get your Mopar back on the road! p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

PFC Bell, a newly-minted U.S. Army MP, quickly discovers that there's more than a war going on along QL 4, the main road from Saigon into the Mekong Delta. It's old-fashioned crime and corruption. He doesn't want to get involved, just serve out his time and go home, but life for an American MP in Vietnam in 1970 doesn't work that way. QL 4 leads Bell deep into a swamp of deception, mayhem, and death that insinuates its way both into towns the MPs patrol each day and into the old French villa where they live.

The Whore of Akron

A native son of Akron, Ohio, LeBron James seemed like a miracle heaven-sent by God to transform Cleveland's losing ways when he was drafted by the Cavaliers in 2003. But after seven years—and still no parade down Euclid Avenue—he left, announcing his move to South Beach on a nationally televised ESPN production with a sly title that echoed fifty years of misery. The Catch, The Drive, The Shot . . . The Decision. Out of James's treachery grew a monster. Scott Raab, a fifty-nine-year-old, 350-pound Jewish Santa Claus with a Chief Wahoo tattoo, would bear witness to LeBron's every move, and in so

doing would act as the eyes and ears of Cleveland itself. Crude but warmhearted, poetic but raving, hilarious, profane (and profound), *The Whore of Akron* is both a rabid fan's indictment of a traitorous athlete and the story of Raab's obsessive quest to reveal the "wee jewel-box" of LeBron James's soul.

Perfect for fans of The Mortal Instruments and Wicked Lovely. The Three Immortal Blades is an urban action-packed series that you won't be able to put down! Awarded 'Best New Author of 2015' by AusRomToday and as seen in UK Glamour Magazine. Discover why readers can't put this action-packed series down. Karla Gray is an ordinary seventeen year old. At least, that's what she thought until she met Lucas. When her body starts reacting in weird ways and shutting down to the point of death, she quickly learns that her kidnapper might be her only fighting chance to stay alive. Karla is a Shielder; an exceptional fighter born with the rare ability to project a Shield for protection. Without her family and surrounded by an unknown institute, Karla must learn to fight and defend herself against the Starkorfs who are hunting her. The war has been raging for centuries but Karla might be their last hope to end it all. Only if she can unravel the purpose of her curse and battle an unknown presence manipulating her thoughts; a mysterious woman who may be dormant for now, but has every intention of possessing Karla- mind, body, and soul. Within this new reality that Karla faces the search for the Three Immortal Blades begins.

The Contemporary Short Story

The practise of outlining principles for the conduct of US security policy in so-called doctrines is a characteristic feature of US foreign policy. From an international lawyer's point of view two aspects of these doctrines are of particular interest. First, to what degree are the criteria for the use of force, as laid down in these doctrines, consistent with the limitations for the use of force in international law? Second, which law-creating effects do these doctrines have? Furthermore, the legal nature of these doctrines remains uncertain. These matters are examined, beginning with the Monroe Doctrine of 1823 and taking into account the Stimson Doctrine of 1932, the doctrines of the Cold-War period and the Bush Doctrine of 2002. The Bush Doctrine in particular has generated controversies concerning its compatibility with Article 51 of the UN Charter, due to its principle of preventive self-defence.

David Vizard's How to Port and Flow Test Cylinder Heads

The Swedish scholar and prelate, Olaus Magnus (1490-1557), last Catholic archbishop of Uppsala, lived the latter half of his life in exile. His devotion to his country and his people never faltered, nor his determination to give them a glorious place on the European cultural map by his writings. On his justly famous Carta Marina, published in Venice in 1539, he promised a fuller account of the North and its marvels. This he accomplished in January 1555 when he issued from his own press in Rome his magnificent *Historia de gentibus septentrionalibus*. This quarto volume of 815 pages, divided into 22 books and a total of 778 chapters, was lavishly illustrated with some 480 woodcuts, most of them closely relevant to the technical matters discussed by the author. The book was an immediate success, and half a dozen editions appeared in the century after Olaus's death. It became even better known in an epitome published in Antwerp in 1558, which was also frequently reprinted and translated. This appeared in English in 1658, but it is only with the present version, complete with illustrations, that the whole work is made available to the English-reading world. It is indeed only the second full translation to appear in modern times, preceded a Swedish version published in four parts between 1909 and 1925. There is little history in the sense of chronological narrative in Olaus Magnus's *Historia*. It is rightly regarded as an ethnographic essay on an encyclopaedic scale, touching on a vast variety of topics, snowflakes and sea-serpents, elks and artillery, sables and saltpetre, watermills and werewolves. Much of it was culled from ancient authorities- it was a matter of patriotic pride to identify the Swedes as the only legitimate descendants of the Goths- but much of it was derived from the author's personal observations, especially those made on his early travels in North Sweden. His pioneering and sympathetic account of the Lapps and their way of life has attracted p

Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series. Will appeal to Alfa Romeo and automotive enthusiasts. The history and design process are examined along with an in-depth guide to each of the model variants produced. The cars' current position in the classic car market is considered. Superbly illustrated with 240 colour photographs. Robert Foskett is a life-long Italian car enthusiast with a special interest in Alfa Romeo.
