You haven't gotten yourself a R107 yet? Too bad, the good ones can cost a small fortune today and they have only one way to go: UP! But don't worry, plenty of them have been built and plenty of them are still around. Problem is, which one is the right one for you? Can you imagine that even a low mileage, good looking R107 can still far exceed your wildest imaginations, when it comes to restoration costs? Everybody seems to want a late model 560SL. Why not an early 450SL for half the money? The joy and pride of ownership is the same, trust me. Or how about one of the former longtime underdogs, an SLC? Also they start to appreciate, a few of them even very fast, faster than a mint 560SL. If any of this is of interest, then this new book (published already earlier as e-book) is for you. It does not only deal with development and history, it also comes with a comprehensive buyer's guide for both the SL and SLC. This includes a look at their price development over the past years. Another focus has been the VIN and data card, so that you have a better understanding, how they were equipped and to which market they have been shipped first. Superb recent photography from the author's collection can help you to find the right car or it might even serve as reference in a restoration project. Naturally the paint and interior upholstery options, full technical details plus the annual production history of each model are covered.

Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert George Sand, Robyn Davidson, and Sara Wheeler.

If you search for a car that can hold its own, when parked next to a Porsche 911 Cabrio, don't look any further. Because the SL R230 is regarded by many as the best looking SL that has left Stuttgart after the famous SL Gullwing. On top it is immense fun to drive, with powerful V8s and V12s to match the looks. Like the drive-train they are almost bullet-proof. Early cars suffered from quality problems that could spoil the fun factor somewhat. But all in all the R230 plays its GT role rather well, even with six-cylinder engines. And the AMG versions are true sports cars. This book with comprehensive buyer's guide can help you to find the right one, if the R230 interests you. It was already published as e-book in 2012 and has been completely revised in Nov.2015. The book explains the VIN and data card in great detail, discusses the SBC, ABC systems and looks at potential problems with the vario-roof. Superb photography and an enjoyable test-drive in the splendid SL65 AMG are other highlights. It ends with a detailed list of the cars' technical specifications and annual production

Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series. Will appeal to Alfa Romeo and automotive enthusiasts. The history and design process are examined along with an in-depth guide to each of the model variants produced. The cars' current position in the classic car market is considered. Superbly illustrated with 240 colour photographs. Robert Foskett is a life-long Italian car enthusiast with a special interest in Alfa Romeo.
