## **International Directory of Company Histories**

## **Outboard Motor Service Manual: Motors below 30 hp**

## **Outboard Engines from Japan**

America's most popular nautical gift is back as an all-new third edition, The Legend of Chris-Craft, by noted author and

historian Jeffrey L. Rodengen, with photography and design by Karine Rodengen. This luxurious 9" x 12" coffee-table volume details the history of the company, people and products that made Chris-Craft world famous. The third edition contains new information, a new chapter, additional photos and a precise new index to over 1,500 models built between 1874 and 1998. Even owners of the original will want the new third edition for their collections. Individually boxed. 272 pp., 103 color, 260 black & white images.

## **Moody's Industrial Manual**

The aim of this book, with its superb step by step photographs and detailed diagrams is to enable every owner to understand the workings of an outboard motor (2 or 4 stroke) and be able to fix it with relative ease. It includes: an explanation of the different parts that make up the engine and how they interact; how fuel is transformed into propulsion; regular maintenance and repair worksheets to help even the most mechanically ignorant to work on their outboard engine with confidence; the most common causes of breakdown; troubleshooting tables to allow you to diagnose and fix the most common engine problems and advice on how to winterize your outboard in one short afternoon. After reading this book, your outboard will no longer be a potential bother to you but an ally for better boating.

## **The Legend of Chris-Craft**

Sixty years old in 1999, Mercury Marine is the world leader in the marine industry. The memory of its founder, Carl Kiekhaefer, lives on in the hearts and minds of engineers and boat enthusiasts alike. His manic genius and tireless energy found outlet in his need for greater speed, more features and higher value, first in outboards and then in stern drive products. Since Kiekhaefer's departure from the company in 1970, Mercury Marine has come into its own while holding onto those qualities inherited from its founder, qualities that abhor failure. Jeffrey L. Rodengen, author of Iron Fist: The Lives of Carl Kiekhaefer, continues to chronicle the fascinating story of Mercury Marine. The Legend of Mercury Marine details the company's struggle and ultimate triumph in this comprehensive, lavishly illustrated 225-page work.

## **West's federal reporter : cases argued and determined in the United States courts of appeals and Temporary Emergency Court of Appeals**

## **MotorBoating**
