The House of Ashes

Henry L. Stimson and Japan, 1931-33

Reviews the history of California racial prejudice as it affected Japanese immigration.

The Old Woman, the Wife and the Archer

This is the story of the Japanese who immigrated to Hawaii around the turn of the present century, worked as forced laborers on the sugar plantations, and afterwards remained in Hawaii to work as free men and to raise families. It is the story also of their children, born and raised in Hawaii, and who, during World War II, won fame and glory for themselves and their country on the bloody battlefields of Italy and southern Europe. But more than all of this, it is the story of the fate of the original immigrants during World War II. Rounded up by a panic-stricken American Government after the Japanese attack on Pearl Harbor, these people were sent to the mainland to spend the war years being confined in one refugee camp after another, all while their sons were winning fame as American combat troops. And finally, it is the story of these elderly people who, at the end of the war, became free men once again and were allowed to return to their beloved Hawaii to live out their lives in peace.

Exotic Japanese Stories

Oscar Pinkus describes how entire Jewish communities were wiped out in Losice (his home town), Biala, Siedice and Miedzyrzec. He portrays the harrowing consequences of Jewish isolation amid anti-Semitic populations. One important aspect of this book is its revelations concerning the Polish underground, Armja Krajowa, who, after the Nazis had been driven out, continued to commit anti-Semitic actions and succeeded in murdering three of the 20 survivors of Losice.

Norton Commando

This collection of Japanese folk plays reveals a previously unknown and decidedly unaristocratic element to Japanese theater. Interspersed between the stately, slower paced dramas of Japan's Noh theater are the delightful comic plays or interludes known as Kyogen. These brief plays evolved from the bawdy skits that were rousingly enjoyed by the plebeian populaces of the cities in feudal Japan some hundreds of years ago when Noh itself was a pastime and entertainment exclusively reserved for the aristocracy. Today they still provide delightful relief from the sustained and concentrated action of the Noh play that has changed very little throughout the centuries. Among the various forms of classical Japanese drama, the flamboyant action and brilliant coloring Kabuki has perhaps enabled it to be the most easily understood; and the Noh, in a number of excellent translations, has become widely known for its poetic beauty. But the Kyogen, equally deserving of attention, have remained relatively unknown. Only now, with this new edition of Miss Sakanishi's excellent translations, are they at last readily available to the Western reader.

Classic Bikes

This is a meticulously detailed history of the Norton Commando: its antecedents, how it came about, and year-by-year production changes, with detailed technical specifications and contemporary road test reports showing how the Commando compared with its rivals. However, the history of the bike cannot be separated from the turbulent story of the company that built it. Unlike other Norton Commando books, this one also tells you how to buy one of these iconic bikes secondhand â?" all the pitfalls, what to look for, and what they are really like to live with. Whichever one you choose, it should be fast, agile and good looking on a twisty country road, the Commando is famed for its roadholding, and with information on clubs, websites, spares, and the latest modifications and upgrades, this book will help you get the bike you deserve. Featuring comprehensive appendices of facts, figures, contacts, technical specifications (including correct colours for each year), engine/frame numbers, and road test performance figures, this is the definitive book of a bike that truly deserves the term 'classic.'

Japanese Penetration of Korea, 1894-1910

The Politics of Prejudice

Removal and Return

Excerpt from Conspiracy at Mukden: The Rise of the Japanese Military Japan was confronted in the early nineteen thirties with two crucial problems. Her economy had been in a state of chronic malaise for three years when the world-wide depression engulfed the nation and threatened disaster. In China and Manchuria, because of the intense antiforeign sentiment which the rights recovery movement aroused, Japan was being prevailed upon to relinquish rights and privileges which in the course of decades she had come to assume were rightfully hers. The growing feeling that the government was impotent to cope with the crises at home and abroad, reinforced by rumors of corruption in high places, discredited the Diet and political parties - that is to say, the civilian government - rather convincingly in the eyes of the people.
