A Student Grammar of Spanish, first published in 2006, is a concise introduction to Spanish grammar, designed for English-speaking undergraduates. Assuming no prior knowledge of grammatical terminology, it explains each aspect of Spanish grammar in clear and simple terms, provides a wealth of glossed examples to illustrate them, and helps students to put their learning into practice through a range of fun and engaging exercises. Clearly organized into thirty units, each covering a different aspect of the grammar, the book functions both as an essential reference guide and a comprehensive workbook. Individual topics can be looked up via a user-friendly cross-referencing system, and concise definitions are provided in a useful glossary of grammatical terms. The exercises, which include paired and group activities, are suitable for both classroom use and self-study. Each unit is split into two levels, basic and intermediate, making this grammar the perfect accompaniment to any first or second year undergraduate course.

It teaches the equivalent of one year of college Portuguese in one semester, three times a week, to Spanish speakers who also have a solid understanding of English. Additionally, the book serves as a basic reference guide to Brazilian Portuguese for the same audience. *Pois não* can be used by students in the classroom or by independent learners. Users of the book may focus on the drills alone, concentrate on both the explanations and drills, or use the book as a reference for consultation only. Answers to all of the exercises are included in the book. A CD containing recordings by native Brazilian speakers of dialogues that appear in the book is included.

This focused case study analyses the roots of super-diversity in a place where immigration is an emerging phenomenon, Northwestern Spain (Galicia). It is characterized by a mostly rural population, an aging demographic, and a historically depressed economy. Yet the region has recently experienced a significant increase in immigration - a reversal of the region's historically pronounced trend of emigration. To understand immigration in its early stages, this book takes a historical approach that focuses on diversities that go beyond nationality. It explores local yet international phenomena such as different patterns of return migration, transnational community and familial relationships, and niche labour markets. The book takes a broad interdisciplinary perspective, drawing on sociology, anthropology, history, sociolinguistics, literature, and education, to provide a detailed case study analysis. While the case is specific, many other geographic regions will share some of the factors the book explores. Understanding how these factors interact will provide a useful point of contrast for analysing them in a range of other international contexts.

Galician Migrations: A Case Study of Emerging Super-diversity

Twilight of the Avant-Garde addresses the central problem of contemporary Spanish poetry: the attempt to preserve the scope and ambition of modernist poetry at the end of the twentieth century. Offering a critical analysis of Luis García Montero's "poetry of experience," and the work of José Angel Valente and Antonio Gamoneda, among others, Mayhew challenges received notions about the value of poetic language in relation to the society and culture at large. Ultimately championing the survival of more challenging and ambitious modes of poetic writing in the postmodern age, this volume argues that the cultural ambition of modernist poetics remains alive and well in our age of cynicism.

Constructing Inequality in Multilingual Classrooms

Listos 1 Pupils Book

In her groundbreaking and innovative study, the author takes us on a fascinating journey through some of Madrid's multilingual and multicultural schools and reveals the role played by linguistic practices in the construction of inequality through such processes as what she calls "de-capitalization" and "ethnicization". Through a critical sociolinguistic and discourse analysis of the data collected in an ethnographic study, the book shows the exclusion caused by monolingualizing tendencies and ideologies of deficit in education and society. The book opens a timely discussion of the management of diversity in multilingual and multicultural classrooms, both for countries with a long tradition of migration flows and for those where the phenomenon is relatively new, as is the case in Spain. This study of linguistic practices in the classroom makes clear the need to rethink some key linguistic concepts, such as practice, competence, discourse, and language, and to integrate different approaches in qualitative research. The volume is essential reading for students and researchers working in sociolinguistics, education and related areas, as well as for all teachers and social workers who deal with the increasing heterogeneity of our late modern societies in their work.

Women Who Stay Behind examines the social, educational, and cultural resources rural Mexican women employ to creatively survive the conditions created by the migration of loved ones. Using narrative, research, and theory, Ruth Trinidad Galván presents a hopeful picture of what is traditionally viewed as the abject circumstances of poor and working-class people in Mexico who are forced to migrate to survive. The book studies women's and families' use of cultural knowledge, community activism, and teaching and learning spaces. Throughout, Trinidad Galván provides answers to these questions: How does the migration of loved ones alter community, familial, and gender dynamics? And what social relations (convivencia), cultural knowledge, and women-centered pedagogies sustain women's survival (supervivencia)? Researchers, educators, and students interested in migration studies, gender studies, education, Latin American studies,

and Mexican American studies will benefit from the ethnographic approach and theoretical insight of this groundbreaking work.

The marriage of philosophy and fiction in the first third of Spain's twentieth century was a fertile one. It produced some truly notable offspring -- novels that cross genre boundaries to find innovative forms, and treatises that fuse literature and philosophy in new ways. In her illuminating interdisciplinary study of Spanish fiction of the "Silver Age," Roberta Johnson places this important body of Spanish literature in context through a synthesis of social, literary, and philosophical history. Her examination of the work of Miguel de Unamuno, Pio Baroja, Azorin, Ramon Perez de Ayala, Juan Ramon Jimenez, Gabriel Miro, Pedro Salinas, Rosa Chacel, and Benjamin Jarnes brings to light philosophical frictions and debates and opens new interpersonal and intertextual perspectives on many of the period's most canonical novels. Johnson reformulates the traditional discussion of generations and "isms" by viewing the period as an intergenerational complex in which writers with similar philosophical and personal interests constituted dynamic groupings that interacted and constantly defined and redefined one another. Current narratological theories, including those of Todorov, Genette, Bakhtin, and Martinez Bonati, assist in teasing out the intertextual maneuvers and philosophical conflicts embedded in the novels of the period, while the sociological and biographical material bridges the philosophical and literary analyses. The result, solidly grounded in original archival research, is a convincingly complete picture of Spain's intellectual world in the first thirty years of this century. Crossfire should revolutionize thinking about the Generation of '98 and the Generation of '14 by identifying the heterogeneous philosophical sources of each and the writers' reactions to them in fiction.
