## World's Most Haunted Places

In February 1958, the Hermann family began to experience strange events at their home in Seaford, New York. The first occurrences were harmless--just caps popping off of bottles. But soon things escalated. Dishes were smashed, bookshelves toppled over, and objects moved. Could these unexplained events have been the

work of a devious poltergeist named Popper?

## **My Haunted Life**

Internationally bestselling and Edgar Award-winning author Kate Summerscale follows a ghost hunter in 1938 London in a case that illuminates changing social attitudes toward psychoanalysis, sexuality, and the supernatural London, 1938. In the suburbs of the city, a young housewife has become the eye in a storm of chaos. In Alma Fielding's modest home, china flies off the shelves, eggs fly through the air; stolen jewellery appears on her fingers, white mice crawl out of her handbag, beetles appear from under her gloves; in the middle of a car journey, a turtle materializes on her lap. The culprit is incorporeal. As she cannot call the police, Alma calls the papers instead. After the sensational story headlines the news, Nandor Fodor, a Hungarian ghost hunter for the International Institute for Psychical Research, arrives to investigate the poltergeist. But when he embarks on his scrupulous investigation, he discovers that the case is even stranger than it seems. By unravelling Alma's peculiar history, Fodor finds a different and darker type of haunting, a tale of trauma, alienation, loss, revenge. He comes to believe that Alma's past has bled into her present, her mind into her body. There are no words for processing her experience, so it comes to possess her. As the threat of a world war looms, and as Fodor's obsession with the case deepens, Alma becomes ever more disturbed. With characteristic rigor and insight, Kate Summerscale brilliantly captures the rich atmosphere of a haunting that transforms into a very modern battle between the supernatural and the subconscious.

### **Tinfoil Butterfly**

“A fascinating and frightening book” (Los Angeles Times)—the bestselling true story about a house possessed by evil spirits, haunted by psychic phenomena almost too terrible to describe. In December 1975, the Lutz family moved into their new home on suburban Long Island. George and Kathleen Lutz knew that, one year earlier, Ronald DeFeo had murdered his parents, brothers, and sisters in the house, but the property—complete with boathouse and swimming pool—and the price had been too good to pass up. Twenty-eight days later, the entire Lutz family fled in terror. This is the spellbinding, shocking true story that gripped the nation about an American dream that turned into a nightmare beyond imagining—“this book will scare the hell out of you” (Kansas City Star).

## **Christian Advocate**

The Shining meets About a Boy in this electrifying debut about a troubled young woman and a lonely boy facing their demons in the frozen Black Hills. Emma is hitchhiking across the United States, trying to outrun a violent, tragic past, when she meets Lowell, the hot-but-dumb driver she hopes will take her as far as the Badlands. But Lowell is not as harmless as he seems, and a vicious scuffle leaves Emma bloody and stranded in an abandoned town in the Black Hills with an out-of-gas van, a loaded gun, and a snowstorm on the way. The town is eerily quiet and Emma takes shelter in a diner, where she stumbles across Earl, a strange little boy in a tinfoil mask who steals her gun before begging her to help him get rid of “George.” As she is pulled deeper into Earl’s bizarre, menacing world, the horrors of Emma’s past creep closer, and she realizes she can’t run forever. Tinfoil Butterfly is a seductively scary, chilling exploration of evil—how it sneaks in under your skin, flaring up when you least expect it, how it throttles you and won't let go. The beauty of Rachel Eve Moulton's ferocious, harrowing, and surprisingly moving debut is that it teaches us that love can do that, too.

## **Our Haunted Lives**

When people encounter what they perceive to be a ghost or spirit, their lives are forever changed. The ultimate question, "Is there life after death?" has just been answered for them. Ghosts cross every culture and continent, and the belief in their existence is on the rise. Our Haunted Lives features the stories of dozens of people who have witnessed the supernatural firsthand in their homes, at work, and in numerous other locations. Our Haunted Lives explores the profound nature of ghosts and spirits. Through personal interviews, the author captures the many different facets of the experience: the touching, where people come in contact with a loved one who's passed on; the funny, where pranks are played or peculiar disembodied sounds are heard; and the frightening, where people still feel shaken by what they saw, heard, and felt. Ghosts are unbiased—they appear to people from all walks of life, ages, cultures, and religious backgrounds. Our Haunted Lives features accounts from famous hauntings, such as an extensive interview with George Lutz—the man whose experiences with the paranormal in Amityville, Long Island launched debates, books, and movies. You'll hear from police officers who were the first on the scene after a homeowner reported a break-in, only to find the disturbance wasn't caused by someone living. Doctors who had a brush with the supernatural after losing a patient on the operating table will speak about the very emotional and profound events they witnessed. No, we are not alone.

### **The Disciple**

A prescient warning of a future we now inhabit, where fake news stories and Internet conspiracy theories play to a disaffected American populace “A glorious book . . . A spirited defense of science . . . From the first page to the last, this book is a manifesto for clear thought.”—Los Angeles Times How can we make intelligent decisions about our increasingly technology-driven lives if we don’t understand the difference between the myths of pseudoscience and the testable hypotheses of science? Pulitzer Prize-winning author and distinguished astronomer Carl Sagan argues that scientific thinking is critical not only to the pursuit of truth but to the very well-being of our democratic institutions. Casting a wide net through history and culture, Sagan examines and authoritatively debunks such celebrated fallacies of the past as witchcraft, faith healing, demons, and UFOs. And yet, disturbingly, in today’s so-called information age, pseudoscience is burgeoning with stories of alien abduction, channeling past lives, and communal hallucinations commanding growing attention and respect. As Sagan demonstrates with lucid eloquence, the siren song of unreason is not just a cultural wrong turn but a dangerous plunge into darkness that threatens our most basic freedoms. Praise for *The Demon-Haunted World* “Powerful . . . A stirring defense of informed rationality. . . Rich in surprising information and beautiful writing.”—The Washington Post Book World “Compelling.”—USA Today “A clear vision of what good science means and why it makes a difference. . . . A testimonial to the power of science and a warning of the dangers of unrestrained credulity.”—The Sciences “Passionate.”—San Francisco Examiner-Chronicle

## **Our Haunted Lives**

The culmination of Brad Steiger's 50 years of paranormal research, this book is a bold telling of true ghost stories and firstperson encounters with the supernatural. Arranged topically, it covers every sort of ghost and haunting: poltergeists, shadow beings, and phantoms alongside haunted apartments, hotels, and trains. From ghosts that still haunt Ohio's State Reformatory, otherwise known as Shawshank, to Abe Lincoln's regular consultation with mediums, this compendium delves into the true scary stories from both historical documents and personal accounts. In its 30 chapters, spirits represented include the good ("Ghosts that Saved Lives"), the bad ("Invisible Home Wreckers"), and the ugly ("Demonic Spirits That Whisper Commands to Kill"). The book goes on to unearth the ghastly goingson and macabre manifestations at haunted places such as museums, churches, graveyards, restaurants, and sacred sites while also instructing how to perform a cleansing ritual to rid a home of unwanted spectral visitors. This second edition is updated to include new stories and compelling evidence of both the existence of ghosts and proof of hauntings that will entertain, induce chills, and make the doubtful believe.

## **A Haunted Life**

What does life ask of us, and how are we to answer that summons? Are we here just to propagate the species anew? Do any of us really believe that we are here to make money and then die? Does life matter, in the end, and if so, how, and in what fashion? What guiding intelligence weaves the threads of our individual biographies? What hauntings of the invisible world invigorate, animate, and direct the multiple narratives of daily life? In *Hauntings*, James Hollis considers how we are all governed by the presence of invisible forms-spirits, ghosts, ancestral and parental influences, inner voices, dreams, impulses, untold stories, complexes, synchronicities, and mysteries-which move through us, and through history. He offers a way to understand them psychologically, examining the persistence of the past in influencing our present, conscious lives and noting that engagement with mystery is what life asks of each of us. From such engagements, a deeper, more thoughtful, more considered life may come. James Hollis, PhD, is a co-founder of the C. G. Jung Institute of Philadelphia and Saybrook University's Jungian Studies program, director emeritus of the Jung Center of Houston, vice president emeritus of the Philemon Foundation, and an adjunct professor at Saybrook University and Pacifica Graduate Institute. He resides in Houston, Texas, where he conducts an analytic practice.

Sethe, an escaped slave living in post-Civil War Ohio with her daughter and mother-in-law, is haunted persistently by the ghost of the dead baby girl whom she sacrificed, in a new edition of the Nobel Laureate's Pulitzer Prize-winning novel. Reader's Guide available. Reprint. 60,000 first printing.

## **Hauntings - Dispelling the Ghosts Who Run Our Lives [Paperback]**

Haunted is a novel made up of twenty-three horrifying, hilarious, and stomach-churning stories. They're told by people who have answered an ad for a writer's retreat and unwittingly joined a "Survivor"-like scenario where the host withholds heat, power, and food. As the storytellers grow more desperate, their tales become more extreme, and they ruthlessly plot to make themselves the hero of the reality show that will surely be made from their plight. This is one of the most disturbing and outrageous books you'll ever read, one that could only come from the mind of Chuck Palahniuk.

## **Our Haunted Lives**

It was an irrational decision. Despite having just moved into a beautiful new house, the Williams family gave in to an odd, overwhelming desire to purchase and move into a Victorian home they had come upon by chance. They were curious, of course, as to why the house had, in the past, had such a high vacancy rate - no one ever seemed to live in it for a long period of time. But that curiosity didn't last long, because shortly after moving in, strange things began to happen. It became abundantly clear that the home's past owners had all had a reason for leaving: fear. The Williams' new home was haunted. At first, the family tried telling

themselves there were logical explanations for the strange things they all were witnessing. But before long they came to accept the fact that they were sharing their home with ghosts. Haunted is the Williams family's story from the point of view of the mother, Dorah. Through her chilling reminiscences, we witness the all-too-real goings-on in the house. And we join the family as they seek a way to bring an end to the paranormal events that were occurring with ever more frequency and intensity, and learn why the events began in the first place.
