The Handbook clearly points out that although the literature on crime prevention is voluminous, the social conditions that invoke criminality are resistant to social change. The articles repeatedly demand a critical evaluation of prevention theories and programs, and call for accountability within the crime-prevention profession. The collection will serve as a valuable resource for policymakers and practitioners as well as for academics. The volume includes an excellent directory of crime/delinquency-prevention organizations and a supplementary bibliography. Choice In recent years, the idea of prevention as a means of controlling crime has gained unprecedented popularity. Advocates of crime prevention frequently see its proactive nature to be superior to the reactive stance of typical law enforcement. Yet major questions continue to arise about what prevention is, how it can be carried out, to whom it should be directed and where it can best be implemented. Elmer E. Johnson has drawn together a variety of perspectives in an effort to provide an integrated analysis of fundamental concepts relating to the preventive approach.

Scripting has become an enormously popular method of managing and maintaining Windows NT and 2000 networks—as evidenced by the success of Windows NT Shell Scripting, which has sold over 30,000 copies in 2 years. Simpler than programming, yet allowing greater complexity and utility than packaged network management tools, scripting is now the tool of choice by many of you network administrators. Perl is yet another powerful element of the scripting arsenal, yet since it has been ported to the Windows environment, very little information has been published on how to employ this extremely effective tool. Win32 Perl is so powerful that it can accomplish virtually any task that you may want to perform. Dave Roth, prolific creator of Win32 extensions, is prepared to share his unique insight into how these tasks can be accomplished and provide scripts that can be immediately employed. This book illustrates how Perl can automate many current mundane administrative tasks.

Right Man, Wrong Time: A romantic getaway vacation-- in the pre-Civil War Ozarks? What if, alone and lost in a Missouri Ozarks cave in the 21st Century, you stumble through an exit--and land in the lap of an aromatic man in 1859? Not your idea of the perfect vacation? Then pity Susa Hildebrand, dependent for survival on a cranky aerial photographer whose government mission outranks helping her find

her way home, and whose assets include transportation (mules), food (beans), protection (a rifle), and a lusty aura. She also has to wear an ugly dress until someone even unluckier shows up in the dangerous, male-dominated border area. Bickford Pelletier can be mighty persuasive, though, and if she has to live in his time, Susa could do a lot worse. But what about the teenage twins she left behind? A Star in the Earth: It's 1907. Alerted by her time-traveled parents (MOON NIGHT) that Jake Livingston, 39, plans to wed Marguerite Desmond, willful Emilee Schuyler, 19, charges home to Boulder, Colorado to set him straight. The problem is, how do you seduce the man who's loved you like a big brother from the day you were born? Emilee tackles the problem obliquely. She and Jake are privy to knowledge of important coming events through the 'future history' remembered by her parents, now touring in Europe. Announcing her appointment as the new vice-president of Schuyler Enterprises, Emilee tries to convince Jake, the new president, to begin SE's development of a luxury resort the family will transform into a rehabilitation hospital after the coming World War. Jake is adamantly against her choice of site. Emilee, however, has learned to dowse, and has her own way of knowing things. A German friend of Marguerite wants to buy a defunct silver mine owned by Emilee. She refuses to sell it to the "Kaiser's man," claiming her dowsing rods indicate the mine still holds valuable ore. Jake's new secretary, young Anthony Parmenter, becomes Emilee's secret ally. He introduces her to his uncle, who offers to loan SE the money to purchase and renovate the resort site Emilee wants. Jake is a stubborn man, and enamored of his passionate fiancée. Emilee is certain she knows what's best for Jake, and her name isn't Marguerite. Meanwhile Anthony and Amos Carruthers, a young architect-about-town, vie for Emilee's affection. Jake has his hands full.
