""Twelve British Statisticians" provides a description of the lives and contributions of a dozen scientific luminaries. Their fields of expertise sometimes include disciplines that depart from statistics and display great versatility. Each statistician is a famous figure, but is especially renowned in Great Britain. The book is accessible to a wide reading audience. Each chapter focuses on the scientific contributions and personal life of a single statistician. Each chapter begins with an overview and contains a rich set of references. Current textbooks in statistics contain

little information about the pioneers in the field. This book provides a historical supplement in courses on quantitative methods in the behavioral, social, and biological disciplines. The statisticians and some of their contributions covered include: 1. Karl Pearson: product-moment correlation. 2. R.A. Fisher: analysis of variance and covariance, experimental design, common sampling distributions. 3. Charles Spearman: factor analysis, theory of intelligence, mental test theory. 4. Florence Nightingale David: advocate of women's vocational rights in statistics, distinguished educator. 5. George Udny Yule: time series, contingency table analysis. 6. Maurice G. Kendall: generation of and tests for randomness, time series. 7. George E.P. Box: statistical quality control, analysis of time series. 8. William Sealy Gosset (Student): small sample statistical techniques, contributions to Neyman-Pearson theory. 9. Egon Sharpe Pearson: Neyman-Pearson theory, history of statistics. 10. Francis Ysidro Edgeworth: polymath mathematical psychics, editor of the "Economics Journal." 11. Maurice S. Bartlett: stochastic processes, epidemiology, time series. 12. David Cox: multivariable models including covariates and treatment variables, survival rate. For author bios, photos, and a sample read, visit www.bosonbooks.com "

Sociology : Making Sense of the Social World

A special 20th anniversary edition of the beloved international bestseller that changed millions of lives. Maybe it was a grandparent, or a teacher, or a colleague. Someone older, patient and wise, who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was Morrie Schwartz, his college professor from nearly twenty years ago. Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights faded, and the world seemed colder. Wouldn't you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today the way you once did when you were younger? Mitch Albom had that second chance. He reconnected with Morrie in the last months of the older man's life. Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final "class:" lessons in how to live. Tuesdays with Morrie is a magical chronicle of their time together, through which Mitch shares Morrie's lasting gift with the world.

Making statistics—and statistical software—accessible and rewarding This book provides readers with step-by-step guidance on running a wide variety of statistical analyses in IBM® SPSS® Statistics, Stata, and other programs. Author David Kremelberg begins his user-friendly text by covering charts and graphs through regression, time-series analysis, and factor analysis. He provides a background of the method, then explains how to run these tests in IBM SPSS and Stata. He then progresses to more advanced kinds of statistics such as HLM and SEM, where he describes the tests and explains how to run these tests in their appropriate software including HLM and AMOS. This is an invaluable guide for upper-level undergraduate and graduate students across the social and behavioral sciences who need assistance in understanding the various statistical packages.

Telecourse Study Guide for Sociology

Humanist sociologists are activists rooted in the reality of history and change and guided by a concern for the 'real life' problems of equality, peace, and social justice. They view people as active shapers of social life, capable of creating societies in which everyone's potential can unfold. Alfred McClung Lee introduces this volume with 'Sociology: Humanist and Scientific' and develops the theme that a sociology that is humanist is also scientific. The other nine selections are grouped into four parts: 'The Individual and Social Life;' 'Social Institutions: Technology, Science, and Formal Organization;' 'Political Structures: Issues of Justice and Equality;' and 'Methodological Critiques and Counterproposals.'

"Sociology Now reflects the discipline today and explores the big questions about multiculturalism and globalization that sociologists ask." Sociology has always offered a way to make sense of the complex and sometimes contradictory forces that shape our social lives in any era. As "Sociology Now" explains sociology as both a body of knowledge and a "way of seeing," it shows how two such forces in particular have come to preoccupy sociologists and influence

the way they look at the events and experiences of the early twenty first century: The first is globalization--the economic, political, cultural, and social interconnections among people and institutions all over the world. The second is multiculturalism--the recognition that race, ethnicity, class, gender, sexuality, religion, and other statuses are sources of social inequality, but also the foundations of our identities. Michael Kimmel, a leading sociologist and gender researcher, and co-author Amy Aronson, a journalist and media scholar, address these questions head-on as they make a compelling case for the importance of sociology in the contemporary world.

This book discusses and analyzes sociological theory as it is practiced today. It focuses on writers whose work has most influenced social theory and the way sociologists currently approach and analyze their subject matter.

Think Sociology

This engaging text provides a sociological perspective on health, illness, and health care. Serving as an introduction to medical sociology for undergraduate and graduate students, it also presents a summary of the field for medical sociologists and for public health scholars and practitioners. A highlight of the text is its emphasis on the social roots of health and disease and on the impact of social inequality on health disparities and the quality of health care. The book also critically examines health care in the United States and around the world and evaluates the achievements and limitations of the Affordable Care Act and other recent health care reform efforts.

Taking an historical, cross-cultural, and global approach, this book focuses on the link between social structure and the everyday lives of people's diverse experiences of marriages, families, and intimate relationships. It shows how contemporary families go well beyond the traditional, heterosexual, two-parent, white, middle class family and heterosexual legally-sanctioned marriage; challenges the assumption that one culture's way of doing things is the "natural" or "right" way; shows how marriage and family life have changed historically over time and from place to place; and how political and economic globalization impacts families worldwide. Features extensive boxed material accompanied by questions for personal reflection.

MOTION PICTURE STARRING MICHAEL B. JORDAN AND JAMIE FOXX • A powerful true story about the potential for mercy to redeem us, and a clarion call to fix our broken system of justice—from one of the most brilliant and influential lawyers of our time. “[Bryan Stevenson’s] dedication to fighting for justice and equality has inspired me and many others and made a lasting impact on our country.”—John Legend

NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time

Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn’t commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinkmanship—and transformed his understanding of mercy and justice forever. *Just Mercy* is at once an unforgettable account of an idealistic, gifted young lawyer’s coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice.
