101 Projects for Your Porsche Boxster

The Porsche 956 and the derivative 962 version dominated long-distance sports car racing on both sides of the Atlantic during the 1980s, both in European Group C racing and the American IMSA series. The car's numerous successes included six consecutive victories in the Le Mans 24 Hours and four consecutive victories in the Daytona 24 Hours. This is a big book about a big subject, as these awesome machines raced competitively for 12 years and almost 150 of them were manufactured for use by factory and customer teams.

The British National Bibliography

A blended learning approach to automotive engineering at levels one to three. Produced alongside the ATT online learning resources, this textbook covers all the theory and technology sections that students need to learn in order to pass levels 1, 2 and 3 automotive courses. It is recommended by the Institute of the Motor Industry and is also ideal for exams run by other awarding bodies. Unlike the current textbooks on the market though, this title takes a blended learning approach, using interactive features that make learning more enjoyable as well as more effective. When linked with the ATT online resources it provides a comprehensive package that includes activities, video footage, assessments and further reading. Information and activities are set out in sequence so as to meet teacher and learner needs as well as qualification requirements. Tom Denton is the leading UK automotive author with a teaching career spanning lecturer to head of automotive engineering in a large college. His nine automotive textbooks published since 1995 are bestsellers and led to his authoring of the Automotive Technician Training multimedia system that is in common use in the UK, USA and several other countries.
