The past decade has been one of the most racially turbulent periods in the modern era, as the complicated breakthrough of the Obama presidency gave way to the racially charged campaigning and eventual governing of Donald Trump. *Keepin' It Real* presents a wide-ranging group of essays that take on key aspects of the current landscape surrounding racial issues in America, including the place of the Obamas, the rise of the alt-right and White nationalism, Donald Trump, Colin Kaepernick and the backlash against his protests, Black Lives Matter, sexual politics in the black community, and much more. America's racial problems aren't going away any time soon. *Keepin' It Real* will serve as a marker of the arguments we're having right now, and an argument for the changes we need to make to become the better nation we've long imagined ourselves to be.

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong

communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

FOREWORD BY ALI SMITH WITH AN INTRODUCTION BY FRANCESCA WADE Who better to serve as a guide to great books and their authors than Virginia Woolf? In the early years of its existence, the Times Literary Supplement published some of the finest writers in English: T. S. Eliot, Henry James and E. M. Forster among them. But one of the paper's defining voices was Virginia Woolf, who produced a string of superb essays between the two World Wars. The weirdness of Elizabethan plays, the pleasure of revisiting favourite novels, the supreme examples of Charlotte Brontë, George Eliot and Henry James, Thomas Hardy and Joseph Conrad: all are here, in anonymously published pieces, in which may be glimpsed the thinking behind Woolf's works of fiction and the enquiring, feminist spirit of *A Room of One's Own*. Here is Woolf the critical essayist, offering, at one moment, a playful hypothesis and, at another, a judgement laid down with the authority of a twentieth-

century Dr Johnson. Here is Woolf working out precisely what's great about Hardy, and how Elizabeth Barrett Browning made books a "substitute for living" because she was "forbidden to scamper on the grass". Above all, here is Virginia Woolf the reader, whose enthusiasm for great literature remains palpable and inspirational today.

We are Never Meeting in Real Life

While most children learn to read fairly well, there remain many young Americans whose futures are imperiled because they do not read well enough to meet the demands of our competitive, technology-driven society. This book explores the problem within the context of social, historical, cultural, and biological factors. Recommendations address the identification

of groups of children at risk, effective instruction for the preschool and early grades, effective approaches to dialects and bilingualism, the importance of these findings for the professional development of teachers, and gaps that remain in our understanding of how children learn to read. Implications for parents, teachers, schools, communities, the media, and government at all levels are discussed. The book examines the epidemiology of reading problems and introduces the concepts used by experts in the field. In a clear and readable narrative, word identification, comprehension, and other processes in normal reading development are discussed. Against the background of normal progress, Preventing Reading Difficulties in Young Children examines factors that put children at risk of poor reading. It explores in detail how literacy can be fostered from birth through kindergarten and the primary grades, including evaluation of philosophies, systems, and materials commonly used to teach reading.

She shows us how to teach students to manage all the thinking and questioning that precedes their putting pen to paper. The Names of All the Flowers

Set in rapidly gentrifying 1990s Oakland, this memoir—"poignant, painful, and gorgeous" (Alicia Garza)—explores siblinghood, adolescence, and grief for a family shattered by loss. Melissa and her older brother Junior grow up running around the disparate neighborhoods of 1990s Oakland, two of six children to a white Quaker father and a black Southern mother. But as Junior approaches adolescence, a bullying incident and later a violent attack in school leave him searching for power and a sense of self in all the wrong places; he develops a hard front and falls into drug dealing. Right before Junior's twentieth birthday, the family is torn apart when he is murdered as a result of gun violence. The Names of All the Flowers connects one tragic death to a collective grief for all black people who die too young. A lyrical recounting of a life lost, Melissa Valentine's debut memoir is an intimate portrait of a family fractured by the school-to-prison pipeline and an enduring love letter to an adored older brother. It is a call for justice amid endless cycles of violence, grief, and trauma,

declaring: “We are all witness and therefore no one is spared from this loss.” “Valentine’s heartfelt memoir of losing her brother expresses the grief of being a black woman left behind when a black man dies to gun violence, and the specific condition of growing up mixed race in Oakland. As such, it’s a portrait of a place, a person who died too young, the systems that led to that death, and the keen insights of the author herself. Lyrical and smart, with appropriate undercurrents of rage.” —Emily Raboteau, author of *Searching for Zion: The Quest for Home in the African Diaspora*

The Faraway Nearby

Provocative essays on real-world ethical questions from the world's most influential philosopher Peter Singer is often described as the world's most influential philosopher. He is also one of its most controversial. The author of important books such as *Animal Liberation*, *Practical Ethics*, *Rethinking Life and Death*, and *The Life You Can Save*, he helped launch the animal rights and effective altruism movements and contributed to the development of bioethics. Now, in *Ethics in the Real World*, Singer shows that he is also a master at dissecting important current events in a few hundred words. In this book of brief essays, he applies his controversial ways of thinking to issues like climate change, extreme poverty, animals, abortion, euthanasia, human genetic selection, sports doping, the sale of kidneys, the ethics of high-priced art, and ways of increasing happiness. Singer asks whether chimpanzees are people, smoking should be outlawed, or consensual sex between adult siblings should be decriminalized, and he reiterates his case against the idea that all human life is sacred, applying his arguments to some recent cases in the news. In addition, he explores, in an easily accessible form, some of the deepest philosophical questions, such as whether anything really matters and what is the value of the pale blue dot that is our planet. The collection also includes some more personal reflections, like Singer’s thoughts on one of his favorite activities, surfing, and an unusual suggestion for starting a family conversation over a holiday feast. Now with a new afterword by the author, this provocative and original book will challenge—and possibly change—your beliefs about many real-world ethical questions.

The Artist as Culture Producer: Living and Sustaining a Creative Life is a collection of essays by 40 visual artists. Edited by artist and educator Sharon Loudon, the book describes how artists extend their practices outside of their studios. All of these contributors have impactful, artistic activities as change agents in their communities. Their first-hand stories show the general public how contemporary artists of the twenty-first century add to creative economies through their 'out-of-the-box' thinking while also generously contributing to the well-being of others. Although there is a misconception that artists are invisible and hidden, the truth is that they furnish measurable and innovative outcomes at the front lines of education, the non-profit sector, and corporate environments.

His repeated acts of self-creation spoke to me; the blunt poetry of his words, his unadorned insistence on respect, promised a new and uncompromising order, martial in its discipline, forged through sheer force of will."—Barack Obama, *Dreams from My Father* "Extraordinary . . . a brilliant, painful, important book."—The New York Times "A great book . . . Its dead level honesty, its passion, its exalted purpose, will make it stand as a monument to the most painful truth."—The Nation "The most important book I'll ever read, it changed the way I thought, it changed the way I acted. A Writer's Guide to Mindful Reading

"Where are we to begin? How are we to bring order into this multitudinous chaos and so get the deepest and widest pleasure from what we read?" Published for the first time as a standalone volume, Virginia Woolf's short, impassioned essay, *How Should One Read a Book?* celebrates the enduring importance of great literature. In this timeless manifesto on the written word, rediscover the joy of reading and the power of a good book to change the world. One of the most significant modernist writers of the 20th Century, Virginia Woolf and her visionary essays are as relevant today as they were nearly one hundred years ago. Features a new introduction by Sheila Heti.

The Autobiography of Malcolm X

"Terror, disaster, memory, selfhood, happiness . . . leave it to a poet to tackle the unthinkable so wisely and so wittily."* A literary guide to life in the pre-apocalypse, *The Unreality of Memory* collects profound and prophetic essays on the Internet age's media-saturated disaster coverage and our addiction to viewing and discussing the world's ills. We stare at our phones. We keep multiple tabs open. Our chats and conversations are full of the phrase "Did you see?" The feeling that

we're living in the worst of times seems to be intensifying, alongside a desire to know precisely how bad things have gotten—and each new catastrophe distracts us from the last. *The Unreality of Memory* collects provocative, searching essays on disaster culture, climate anxiety, and our mounting collective sense of doom. In this new collection, acclaimed poet and essayist Elisa Gabbert explores our obsessions with disasters past and future, from the sinking of the Titanic to Chernobyl, from witch hunts to the plague. These deeply researched, prophetic meditations question how the world will end—if indeed it will—and why we can't stop fantasizing about it. Can we avoid repeating history? Can we understand our moment from inside the moment? With *The Unreality of Memory*, Gabbert offers a hauntingly perceptive analysis of our new ways of being and a means of reconciling ourselves to this unreal new world. "A work of sheer brilliance, beauty and bravery." *—Andrew Sean Greer, author of *Less*

Quinn Latimer's arresting writings find expression in literature and theory as well as contemporary art and its history. Moving from Southern California to Europe, crossing geographies and genres, her texts record specters and realities of culture, migration and displacement, compounding the vagaries of rhetoric and poetics with those of personal history and criticism. Composed in the space between the page and live performance, Latimer's recent essays and poems examine issues of genealogy and influence, the poverty and privilege of place, architecture's relationship to language, and feminist economies of writing, reading and art making. Shifting between written language and live address, between the needs of the internal and the external voice, *Like a Woman* is refrain, litany and chorus. Latimer is a California-born poet and critic with writings and readings featured internationally including REDCAT, Los Angeles; Qalandiya International, Ramallah/Jerusalem, and Venice Architecture Biennale. Latimer is editor in chief of publications for *DOCUMENTA* (14) (2017).

Writing First

When you Read Like a Writer (RLW) you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?
