Explores the influence of Sufism on nineteenth- and early twentieth-century writers. This book reveals the rich, but generally unknown, influence of Sufism on nineteenth- and early twentieth-century American literature. The translation of Persian poets such as Hafiz and Sa'di into English and the ongoing popularity of Omar Khayyam offered intriguing new spiritual perspectives to some of the major American literary figures. As editor Mehdi Aminrazavi notes, these Sufi influences have often been subsumed into a notion of “Eastern,” chiefly Indian, thought and not acknowledged as having Islamic roots. This work pays considerable attention to two giants of American literature, Ralph Waldo Emerson and Walt Whitman, who found much inspiration from the Sufi ideas they encountered. Other canonical figures are also discussed, including Mark Twain, Herman Melville, Henry David Thoreau, and Henry Wadsworth Longfellow, along with literary contemporaries who are lesser known today, such as Paschal Beverly Randolph, Thomas Lake Harris, and Lawrence

Oliphant.

The American Joint Committee on Cancer's Cancer Staging Manual is used by physicians throughout the world to diagnose cancer and determine the extent to which cancer has progressed. All of the TNM staging information included in this Sixth Edition is uniform between the AJCC (American Joint Committee on Cancer) and the UICC (International Union Against Cancer). In addition to the information found in the Handbook, the Manual provides standardized data forms for each anatomic site, which can be utilized as permanent patient records, enabling clinicians and cancer research scientists to

maintain consistency in evaluating the efficacy of diagnosis and treatment. The CD-ROM packaged with each Manual contains printable copies of each of the book's 45 Staging Forms.
