“There’s not a better Southern author writing today than Lisa Patton. Funny, touching, and full of twists and turns. I couldn’t have loved it more.” – Fannie Flagg, New York Times bestselling author of Fried Green Tomatoes at the Whistle Stop Café Rush is recommended by Atlanta Journal Constitution as a Southern Beach Book SouthernLiving.com as a 2018 Beach Read Deep South Magazine's Summer Reading List Southern Independent Bookseller's Alliance as a SUMMER

2018 OKRA PICK Modern Mrs. Darcy Fall Lineup Set in modern day Oxford, Mississippi, on the Ole Miss campus, bestselling author Lisa Patton's RUSH is a story about women—from both ends of the social ladder—discovering their voices and their empowerment. Cali Watkins possesses all the qualities sororities are looking for in a potential new member. She's kind and intelligent, makes friends easily, even plans to someday run for governor. But her resume lacks a vital ingredient. Pedigree. Without family money Cali's chances of sorority membership are already thin, but she has an even bigger problem. If anyone discovers the dark family secrets she's hiding, she'll be dropped from Rush in an instant. When Lilith Whitmore, the well-heeled House Corp President of Alpha Delta Beta, one of the premiere sororities on campus, appoints recent empty-nester Wilda to the Rush Advisory Board, Wilda can hardly believe her luck. What's more, Lilith suggests their daughters, both incoming freshman, room together. What Wilda doesn't know is that it's all part of Lilith's plan to ensure her own daughter receives an Alpha Delt bid—no matter what. For twenty-five years, Miss Pearl—as her “babies” like to call her—has been housekeeper and a second mother to the Alpha Delt girls, even though it reminds her of a painful part of her past she'll never forget. When an opportunity for promotion arises, it seems a natural fit. But Lilith Whitmore slams her Prada heel down fast, crushing Miss Pearl's hopes of a better future. When Wilda and the girls find out, they devise a plan destined to change Alpha Delta Beta—and maybe the entire Greek system—forever. Achingly poignant, yet laugh-out-loud funny, RUSH takes a sharp nuanced look at a centuries-old tradition while exploring the complex, intimate relationships between mothers and daughters and female friends. Brimming with heart and hope for a better tomorrow, RUSH is an uplifting novel universal to us all.

The American Fraternity

Ten years ago, world-renowned professors W. Chan Kim and Renee Mauborgne broke ground by introducing "blue ocean strategy," a new model for discovering uncontested markets that are ripe for growth. In this bound version of their bestselling Harvard Business Review classic article, they apply their concepts and tools to what is perhaps the greatest challenge of leadership: closing the gulf between the potential and the realized talent and energy of employees. Research indicates that this gulf is vast: According to Gallup, 70% of workers are disengaged from their jobs. If companies could find a way to convert them into engaged employees, the results could be transformative. The trouble is, managers lack a clear understanding of what changes they could make to bring out the best in everyone. In this article, Kim and Mauborgne offer a solution to that problem: a systematic approach to uncovering, at each level of the organization, which leadership acts and activities will inspire employees to give their all, and a process for getting managers throughout the company to start doing them. Blue ocean leadership works because the managers' "customers"--that is, the people managers oversee and report to--are involved in identifying what's effective and what isn't. Moreover, the approach doesn't require leaders to alter who they are, just to undertake a different set of tasks. And that kind of change is much easier to implement and track than changes to values and mind-sets. The Harvard Business Review Classics series offers you the opportunity to make seminal Harvard Business Review articles a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world--and will have a direct impact on you today and for years to come.

The American Fraternity is a mysterious photo and ritual book that lifts the veil on America's oldest and most influential male tradition. The text comes from a decaying ritual manual from a prominent college fraternity. Seventy-five percent of modern U.S. presidents, senators, justices, and executives have taken arcane oaths of allegiance like the ones it contains. Six decades of red ceremonial wax stain it like blood. It is filled with dark power.

Overseas volunteering has exploded in numbers and interest in the last couple of decades. Every year, hundreds of thousands of people travel from wealthier to

poorer countries to participate in short-term volunteer programs focused on health services. Churches, universities, nonprofit service organizations, profit-making "voluntourism" companies, hospitals, and large corporations all sponsor brief missions. *Hoping to Help* is the first book to offer a comprehensive assessment of global health volunteering, based on research into how it currently operates, its benefits and drawbacks, and how it might be organized to contribute most effectively. Given the enormous human and economic investment in these activities, it is essential to know more about them and to understand the advantages and disadvantages for host communities. Most people assume that poor communities benefit from the goodwill and skills of the volunteers. Volunteer trips are widely advertised as a means to "give back" and "make a difference." In contrast, some claim that health volunteering is a new form of colonialism, designed to benefit the volunteers more than the host communities. Others focus on unethical practices and potential harm to the presumed "beneficiaries." Judith N. Lasker evaluates these opposing positions and relies on extensive research—interviews with host country staff members, sponsor organization leaders, and volunteers, a national survey of sponsors, and participant observation—to identify best and worst practices. She adds to the debate a focus on the benefits to the sponsoring organizations, benefits that can contribute to practices that are inconsistent with what host country staff identify as most likely to be useful for them and even with what may enhance the experience for volunteers. *Hoping to Help* illuminates the activities and goals of sponsoring organizations and compares dominant practices to the preferences of host country staff and to nine principles for most effective volunteer trips.

The properties of institutional culture are identified, and the way cultural perspectives have been used to describe life in colleges and universities are examined. Seven sections cover the following: cultural perspectives (the warrant for the report, organizational rationality, the remaining sections); culture defined and described (toward a definition of culture, properties of culture, levels of culture); intellectual foundations of culture (anthropology, sociology); a framework

for analyzing culture in higher education (the external environment, the institution, subcultures, individual actors); threads of institutional culture (historical roots and external influences, academic program, the personnel core, social environment, artifacts, distinctive themes, individual actors); institutional subcultures (faculty subculture, student culture, administrative subcultures); and implications of cultural perspectives (a summary of cultural properties, implications for practice, inquiry into culture in higher education). Techniques of inquiry appropriate for studying culture include observing participants, interviewing key informants, conducting autobiographical interviews, and analyzing documents. By viewing higher education institutions as cultural enterprises, it may be possible to learn how the college experience contributes to divisions of class, race, gender, and age within the institution as well as throughout society, how a college or university relates to its prospective, current, or former students, and how to deal more effectively with conflicts between competing interest groups.
