"The thrilling--and so wonderfully French--story of a gruesome 1889 murder of a lascivious court official by a ruthless con man and his pliant mistress, an international manhunt, a sensational trial, and an inquiry into the limits of hypnotic power. In France at the end of the nineteenth century a great debate raged over the question of whether someone could be hypnotically compelled to commit a crime in violation of his or her moral convictions. When Alexandre-Toussaint Gouffe entered a Parisian building at 3 rue Tronson Ducoudray for what he thought would be a delightful assignation with the comely young Gabrielle Bompard, only to be murdered--hanged!--by her and her ruthless companion Michel Eyraud, stuffed in a trunk, and dumped on a riverbank near Lyon, that question became the burning center of an inquiry into the guilt or innocence of a woman the French tabloids dubbed "The Little Demon."--

The Skein Of Lament

Most of us know bits and pieces of our history but would like to be more sure of how it all fits together. The trick is to find a history that is so absorbing you will want to read it from beginning to end. With this book, Desmond Morton, one of Canada's most noted and highly respected historians, shows how the choices we can make at the dawn of the 21st century have been shaped by history. Morton is keenly aware of the links connecting our present, our past, and our future, and in one compact and engrossing volume he pulls off the remarkable feat of bringing it all together - from the First Nations before the arrival of the Europeans to the failure of the Charlottetown accord and Jean Chretien's third term as prime minister. His acute observations on the Diefenbaker era, the effects of the post-war influx of immigrants, the flag debate, the baby boom, the Trudeau years and the constitutional crisis, the Quebec referendum, and the rise of the Canadian Alliance all provide an invaluable background to understanding the way Canada works today.

Street Game

Michael Eric Dyson took America by storm with this provocative expose of the class and generational divide that is tearing black America apart. Nothing exposed the class and generational divide in black America more starkly than Bill Cosby's now-infamous assault on the black poor when he received an NAACP award in the spring of 2004. The comedian-cum-social critic lamented the lack of parenting, poor academic performance, sexual promiscuity, and criminal behavior among what he called the “knuckleheads” of the African-American community. Even more surprising than his comments, however, was the fact that his audience laughed and applauded. Best-selling writer, preacher, and scholar Michael Eric Dyson uses the Cosby brouhaha as a window on a growing cultural divide within the African-American community. According to Dyson, the “Afristocracy”—lawyers, physicians, intellectuals, bankers, civil rights leaders, entertainers, and other professionals—looks with disdain upon the black poor who make up the “Ghettocracy”—single mothers on welfare, the married, single, and working poor, the incarcerated, and a battalion of impoverished children. Dyson explains why the black middle class has joined mainstream America to blame the poor for their troubles, rather than tackling the systemic injustices that shape their lives. He exposes the flawed logic of Cosby's diatribe and offers a principled defense of the wrongly maligned black citizens at the bottom of the social totem pole. Displaying the critical prowess that has made him the nation's preeminent spokesman for the hip-hop generation, Dyson challenges us all—black and white—to confront the social problems that the civil rights movement failed to solve.

The Honorable Imposter (House of Winslow Book #1)

"A ready reference aid and an inspiration to designers . All in all the best book now available on symbols." --Library Journal
This unparalleled reference represents a major achievement in the field of graphic design. Famed industrial designer Henry Dreyfuss recognized the importance of symbols in communicating more quickly and effectively; for many years he and his staff collected and codified graphic symbols as they are used in all walks of life throughout the world. The result is this "dictionary" of universally used graphic symbols. Henry Dreyfuss designed this sourcebook to be as practical and easy to use as possible by arranging the symbol information within ingeniously devised sections: Basic Symbols represents a concise and highly selective grouping of symbols common to all disciplines (on-off, up-down, etc.). Disciplines provides symbols used in accommodations and travel, agriculture, architecture, business, communications, engineering, photography, sports, safety, traffic controls, and many other areas. Color lists the meanings of each of the colors in various worldwide applications and cultures. Graphic Form displays symbols from all disciplines grouped according to form (squares, circles, arrows, human figures, etc.) creating a unique way to identify a symbol out of context, as well as giving designers a frame of reference for developing new symbols. To make the sourcebook truly universal, the Table of Contents contains translations of each of the section titles and discipline areas into 17 languages in addition to English.
