Seduction and Theory

In this riveting popular history, the creator of *You Must Remember This* probes the inner workings of Hollywood's glamorous golden age through the stories of some of the dozens of actresses pursued by Howard Hughes, to reveal how the millionaire mogul's obsessions with sex, power and publicity trapped, abused, or benefitted women who dreamt of screen stardom. In recent months, the media has reported on scores of entertainment figures who used their power and money in Hollywood to sexually harass and coerce some of the most talented women in cinema and television. But as Karina Longworth reminds us, long before the Harvey Weinstens there was Howard Hughes—the Texas millionaire, pilot, and filmmaker whose reputation as a cinematic provocateur was matched only by that as a prolific womanizer. His supposed conquests between his first divorce in the late 1920s and his marriage to actress Jean Peters in 1957 included many of Hollywood's most famous actresses, among them Billie Dove, Katharine Hepburn, Ava Gardner, and Lana Turner. From promoting bombshells like Jean Harlow and Jane Russell to his contentious battles with the censors, Hughes—perhaps more than any other filmmaker of his era—commoditized male desire as he objectified and sexualized women. Yet there were also numerous women pulled into Hughes's grasp who never made it to the screen, sometimes virtually imprisoned by an increasingly paranoid and disturbed Hughes, who retained multitudes of private investigators, security personnel, and informers to make certain these actresses would not escape his clutches. Vivid, perceptive, timely, and ridiculously entertaining, *The Seducer* is a landmark work that examines women, sex, and male power in Hollywood during its golden age—a legacy that endures nearly a century later.

Seduction in Death

A brilliantly original history that explores the shifting cultural mores of courtship, told through the lives of remarkable women and men throughout history. If sex has generally been a private matter, seduction has always been of intense public interest. Whether the stuff of front-page tabloid news, the scandal of nineteenth-century American courts, or the stuff of literature across the eras, we are fascinated by stories of seduction and sex. In the first history of its kind, Clement Knox explores seduction in all its historical and cultural incarnations. Moving from the Garden of Eden to the carnivals of eighteenth-century Venice, and from the bawdy world of Georgian London to the saloons and speakeasies of the Jazz Age, this is an exploration of timeless themes of power, desire, and free will. Along the way we meet Mary Wollstonecraft, her daughter Mary Shelley, and her friend Caroline Norton, and reckon with their fight for women's rights and freedoms. We encounter Jack Johnson, the first black heavyweight champion of the world, who became entangled in America's labyrinthine and racialized seduction laws. We discover how tall tales of predatory vampires, hypnotists, and immigrants were mobilized by Nazis and nativists to help propel them to power. We consider how after seduction seemingly vanished from view during the Sexual Revolution, it exploded back into our lives as *The Game* became a multi-million bestseller, online dating swept the world, and the ongoing male fascination with manipulating women was exposed. In a big-thinking cultural history told through an extraordinary range of stories and sources, Knox explores how our ideas about desire and pursuit have developed in step with the modern world. This is a bold, modern charter of seduction, from the birth of the Enlightenment to the explosion of romantic literature and right up to our contemporary moments of reckoning around "incel" culture and #MeToo.
